Assignment Name	Type a name for the assignment (e.g., Pop Quiz 1), up to 50 characters, that is unique no matter what the category is per semester/cycle. Assignment names can be changed at any time, as needed. TIP: It is helpful to keep the assignment name as brief as possible; however, the name should be descriptive enough to distinguish it from other assignments. Longer assignment names require more space on the Assignment Grades page, which may result in a more cumbersome page. See notes on Special Characters and Copy/Paste From Other Documents . NOTE: Assignment Names cannot contain a pipe character ().		
Category	Select a category for the assignment. These categories are established on Settings > Manage Categories . If a color has been assigned to the category on the Manage Categories page, the drop-down list displays the assigned color for the category. This field is not displayed for standards-based courses; the Edit Standards column is displayed instead.		
Edit Standards/Skills	For standards-based courses, the number of standards currently associated for the assignment is displayed. This field is only displayed for standards-based courses. # Standards <input type="checkbox"/> Click the link. The Editing Standards for Assignment: Assignment Name window opens. Date Assigned	Type the assignment date in the MMDDYYYY format, or click  to select a date from the calendar . NOTE: This field is critical for running the Graded Assignment Count admin report . If this field is blank for an assignment, and a date range is selected when running the report, the assignment is not included in the report.
Due Date	Type the assignment date in the MMDDYYYY format, or click  to select a date from the calendar . NOTE: You can also set a default value for this field using the in the Default Assignment Due Date field on Settings > Update Profile . Valid options are no default date, the current date, or up to five days in the future. You can override the default date as needed.
Total Points	Type the total number of possible points for the assignment. Do not type zero unless it is an extra credit assignment. The field is set to 100 by default. This field is not displayed for standards-based courses. NOTE: If you have assigned a rubric chart to this assignment, this field displays the total possible points for the rubric chart and cannot be updated. If you are using percentage-based weighting, and if the field is not set to 100, the warning icon  is displayed next to the field. When you click  , a warning message opens indicating that you should review the Help for Calculating Averages (Calculate Averages guide) to understand how the grades are calculated in this situation. This warning is also displayed when you click Save if the points are not set to 100. Select Do not show this message again if you do not want to receive this reminder every time you click Save . WARNING: If all assignments in a category do not have the same total points value, then the calculations for dropping a specified number of assignments for the category (as indicated in the # Drop field on Settings > Manage Categories) may result in an average that is different than expected. If the total points value varies, the grade with the lowest number of points may not necessarily be the lowest grade.
Extra Credit	Select if the assignment is for extra credit. NOTE: If the assignment is for extra credit, the Total Points is set to zero and cannot be changed. Extra credit assignments add points to the average for the category selected. If a student has no grade or a zero for the extra credit assignment, it does not count against him when his average is calculated. See the Extra Credit section of the Calculate Averages guide for an explanation of calculating averages with extra credit for each weighting type. This field is not available for standards-based courses or assignments that have a rubric chart assigned.
Do Not Drop	Select if you do not want to drop that particular assignment. This field relates to the # Drop field on Settings > Manage Categories . If Do Not Drop is selected, the assignment grade is not dropped, even if it is the student's lowest grade, and you have specified to drop one or more of the lowest grades in a particular category. This field does not apply to standards-based courses.
