Keep your session active:

If your session is idle for a specified amount of time (i.e., you are logged on but you have not made any changes that have hit the server), your session becomes inactive. This is a security measure designed to limit access to the system if you are unexpectedly called away from your computer. The time limit for idle sessions is set by the district.

Prior to becoming inactive, a warning message is displayed to let you know that your session will be ending soon.

- To keep the session active, click **Reset Timeout**. The session timeout counter starts over, and you will not lose data on the page.

001 School Announcements

Teachers,

Start of school year: All Teachers, new and returning, must create his or her account as a new user each year.

In the **Substitute For** field, select the teacher you are substitute teaching for.

- Only teachers you are assigned to teach for are listed.
- The beginning and ending dates also determine which teachers are listed.

If the beginning date is in the future, the teacher is not listed until the current date is within the range of dates specified. Once the current date is past the substitute's ending date, the teacher is no longer listed.

Click **Teacher**.

A message is displayed indicating that you are now substitute teaching for the selected teacher. The teacher's three-digit control number is also provided.

NOTE: Once you have selected a teacher, the Update Profile page is no longer available. See the Update Profile Settings section below for information about how to update your profile settings.

To select another teacher, you must log out, and log in again.
