report_assignment_grades_standard_based_intro i

This report lists assignment grades (i.e., scores) and class averages for all students in a standards-based course according to options entered on this page. The overall class average is also displayed. The report can be exported as a spreadsheet.

Printing the scores is optional; you can also print the report with just the students' class averages.

NOTE: If the report is too large to fit on one page, you must export the report in order to print the complete report. The **Export** button is available on the report. If you click **Print**, only the first page is printed.

-  - indicates the assignment grade is excluded.
-  - indicates the assignment grade is marked as late (but not excluded).
-  - indicates the assignment grade is marked as re-do (but not excluded).
-  - indicates the assignment is incomplete.
-  - indicates the assignment is missing.
