rubric_setup_edit_skills i

To add skills to the rubric chart, type the first skill name, up to 50 characters, and click **Add Skill**. The skill is added to the grid, and a blank field is displayed allowing you to add another skill.

The screenshot shows a web interface for setting up a rubric. At the top left is a blue button labeled "Add Score". Below it is a section titled "Scores" with a large empty text area on the left and two input fields on the right labeled "Low Points" and "High Points", both containing the number "0". Below the "Scores" section is a yellow box labeled "Skills" containing a single input field with the text "Organization". At the bottom left is a blue button labeled "Add Skill" with a red arrow pointing to it. At the bottom right is a blue button labeled "Save". In the center bottom, the text "Total Points: 0" is displayed.

Continue adding skills as needed.

This screenshot shows the same interface as the previous one, but with five skills added to the "Skills" list. Each skill is in a yellow box with a small "X" icon to its left. The skills are: "Organization", "Focus and Detail", "Sentence Structure, Grammar, and Spelling", "Word Choice", and "Citations". To the right of each skill box is an empty input field for scoring. The "Add Skill" button is still at the bottom left, and the "Save" button is at the bottom right. The "Total Points: 0" text is in the center bottom.
