rubric_setup_edit_skills i

To add skills to the rubric chart, type the first skill name, up to 50 characters, and click **Add Skill**. The skill is added to the grid, and a blank field is displayed allowing you to add another skill.

The screenshot shows the 'Add Score' interface. At the top is a blue button labeled 'Add Score'. Below it is a section titled 'Scores' with a large empty text area on the left and two input fields on the right labeled 'Low Points' and 'High Points', both containing the number '0'. Below the 'Scores' section is a yellow box labeled 'Skills'. Inside this box is a single skill entry: 'Organization' in a rounded rectangle. Below the 'Skills' box is a blue button labeled 'Add Skill' with a red arrow pointing to it. To the right of the 'Add Skill' button is the text 'Total Points: 0' and a blue button labeled 'Save'.

Continue adding skills as needed.

The screenshot shows the 'Add Score' interface after adding multiple skills. The 'Skills' section now contains five entries, each in a rounded rectangle with a small 'X' icon to its left: 'Organization', 'Focus and Detail', 'Sentence Structure, Grammar, and Spelling', 'Word Choice', and 'Citations'. The 'Add Skill' button is still present at the bottom left, and the 'Total Points: 0' and 'Save' buttons are at the bottom right.
