# Create Account

This page allows instructors and administrative users to register for access to TeacherPortal.

- Instructors must re-register each year before logging on, as all TeacherPortal non-administrative user accounts are deleted at the end of each school year. **Administrative user accounts are retained.**
- To register, you must provide your staff ID and name. You must be associated with the district for the current school year. Upon registering, you will create your user name, password, and PIN.
- A staff ID can be associated with multiple user accounts, which allows you to have both an instructor account and one or more administrator accounts. The user name must be different for each account.

- If you forgot your password or PIN, click the link under **Forget your password** on the Login page to go to the Reset Password page where you can reset your password using an automated process.
- If you forgot your user name, you must contact the campus txGradebook administrator for this information.

## Register:

❑ From the Login page, click the link under **New User**. The Registration Step 1 page is displayed.

To exit the registration process without saving any changes, click **Back to Login**.

**Step 1:**
