# (Admin) Graded Assignment Count Report

## Reports > Graded Assignment Count

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This report lists a teacher's number of graded assignments for a specified date range by course or by category. You can also specify a threshold for a specific course or category (e.g., teachers who have fewer than 10 graded assignments in the Homework category). The report can be run for one teacher or for the entire campus.

Graded assignments for self-paced and pass/fail courses are not included.

**IMPORTANT:** The **Date Assigned** field on [Settings > Manage Assignments](#) is critical for running this report. If the field is blank for an assignment, and you are using the **From Date** and **To Date** fields when generating this report, the assignment will not be included. However, if you do not specify a date range, assignments with blank **Date Assigned** fields will be included.
