Reports > Missing Averages

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This campus report lists teachers who have students with no working cycle average. You can run the report with or without listing the students who are missing averages. The data is sorted by teacher, course, and section, and includes the total number of students who do not have averages, and the teacher's course-sections.

Students in non-graded courses, and courses with zero max seats are not included.

Generate the report:

❑ Specify report options:

Semester	The current semester is displayed. You can select a different semester.
Cycle	The current cycle is displayed. You can select a different cycle.
Campus ID	If you are logged on with a district-level administrative ID, you can select another campus. Otherwise, you can only run the report for the campus displayed.
Show Self-Paced Courses	Select to include self-paced courses. If selected, students in both regular and self-paced courses are included. Otherwise, only students in regular courses are included.
Show Student Names & ID's	Select to include the list of students (name and student ID) in each course-section who are missing averages.

❑ Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.
