Requirements for Depreciation Calculations Checklist

The purpose of this document is to guide you through the required information to calculate depreciation for capitalized items:

- Inventory records
- Transaction records
- Depreciation distribution records
- Book records

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the ASCENDER Business Overview guide.

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Before You Begin:

- ☐ Generate and save/print the following reports:
 - BAM1100 Auditor Analysis Report Verify that no errors exist.
 - BAM1150 Capital Assets/Inventory Listing
 - BAM1650 Property Class Listing
- ☐ The auditors should have provided the following for your book record:
 - Convention (FM/HY)
 - Recovery periods for property classes.
 - The capital items that are not disposable.
- \square You have disposed of items for the year you are calculating.
- ☐ You have removed any prior year disposed items.

Calculate Asset Depreciation:

| transaction type to correct the amount. Amount Type the amount of the current transaction. This amount can be positive or negative. Changes to the Amount field will cause new transaction to be written with the new amount. If an incorrect amount was originally entered, a reverse transaction should be created for the same amount but with the opposite sign. □ 3.
