# Table of Contents

**Created:** 03/09/2018  
**Reviewed:** 01/30/2026  
**Revised:** 01/30/2026

The purpose of this document is to guide users through the Budget processing steps.

Review the following reminders:

- According to TEA Legal Requirements, the budget must be prepared by June 19 for LEAs with a June 30 fiscal year-end and by August 20 for LEAs with an August 31 fiscal year-end.
- The ASCENDER Version displayed on the images may not reflect the current ASCENDER Release Version.
- The Budget and Finance applications are separate applications and do not share data; therefore, updates made in Budget do not affect data in Finance.
- Perform periodic exports (backups) as the budget is processed throughout the spring and summer. It is important to perform an export prior to making a significant change. This allows you to revert data to a certain point in the process, if necessary. An export (backup) is performed on the [Budget > Utilities > Export by File ID](#).
- Verify budget data before approving the budget to meet financial compliance requirements (i.e., PEIMS, Special Program allotments, NCLB and IDEA-B Maintenance of Effort, etc.) and ensure a high FIRST rating.

This guide assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

LEA (Local Education Agency)	Refers to the educational entity (e.g., charter, district, etc.).

## Budget PEIMS Edit Reminders

Refer to TEA's website:

<https://tea.texas.gov/about-tea/government-relations-and-legal/government-relations/house-bill-2> to review State Compensatory Education funding changes under House Bill (HB) 2, Section 7.24. This section identifies the program intent codes (PICs) that were removed from budget, CI staff, and payroll data for the 2026–2027 school year.

Review the following PEIMS Edit rules to alleviate budget data warning errors.

- A line is needed for 5829 - Matching State Funds for 5829 for 410 and for 101, 240 or 701.
- At least one record with an amount >\$0 that is coded to function 13 - instructional staff development.
- At least one record with an amount >\$0 that is coded to function 12, object 6100-6600 - instructional resources and media services.
- At least one record with an amount >\$0 that is coded to function 31-33, object 6100-6600 - guidance, counseling, evaluation services or social work services or health services.
- At least one record with object code 6212 - audit services.
- If function code is 41, then org code should be 701-703, 720, 750 or 751.
- If org code is 701-750, then function code should be 41, 53 or 99.
- **(This does not apply to nonprofit charter schools.)** At least one account code with object code 6491 - Statutorily Required Public Notices.

Create budget folders on your desktop to save any budget exports (backups).

Create backups using the [Budget > Utilities > Export by File ID](#) page.

**Note:** This step adds the fund/fiscal year for the new school year.

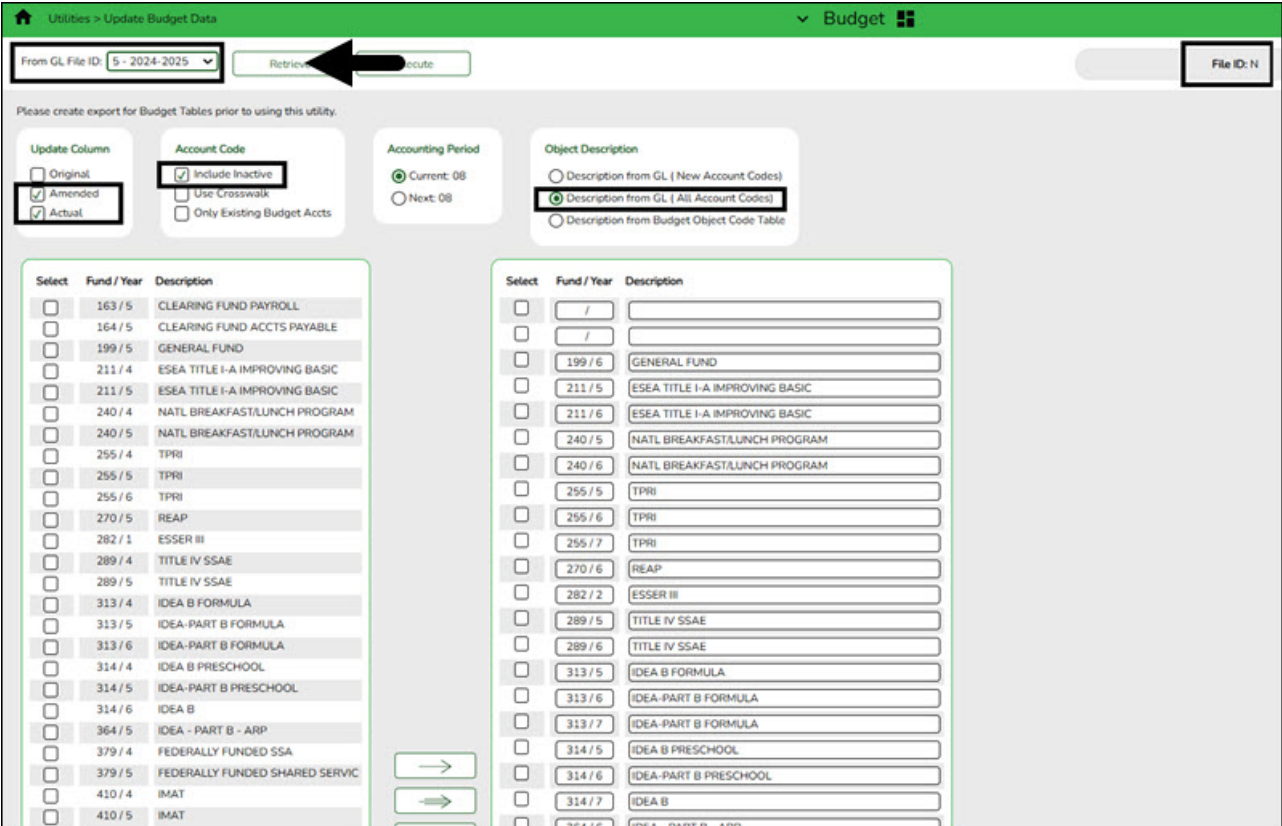

## 2. Update Budget data.

### Update Budget data

Budget > Utilities > Update Budget Data

 **IMPORTANT:** Be sure to create an export for Budget tables prior to using this utility.

Update the Budget **Amended** and **Actual** columns from file ID 5 in Finance or the last completed fiscal year.

**Note:** For history comparison purposes, it is very important to make sure that all entries for the last school year are updated before preparing this year's new budget file. Entries might include final check runs, journal vouchers, and audit entries that need to be included in the **Actual** column, and any amendments to last year's budget that need to be included in the appropriate budget column. Processing the Update Budget Data utility at this time ensures that all entries are included in the updated amounts.

- In the **From GL File ID**, select the prior year file ID (file ID 5) and click **Retrieve**.
- Under **Update Column**, select **Amended** and **Actual** to be updated in Budget for the selected fund/year codes.

<b>Amended</b>	Select if you have posted entries in Journal Budget or Amended Budget to Estimated Revenue or Appropriations and did not select <b>Original Budget Only</b> in the Move Budget to Finance utility.
<b>Actual</b>	Select if you have posted entries that have increased or decreased Realized Revenue, Encumbrance, or Expenditures in Finance.

(Optional step - Depends on individual situations.) It is recommended that **Include Inactive** is selected under **Account Code**.

[Account Code options](#)

Select one of the following **Account Code** options:

<b>Include Inactive</b>	Select to include inactive account codes and amounts in the list of available account codes to be transferred.  If selected, inactive accounts and amounts in the prior file ID are copied.  If not selected, inactive accounts and amounts in the prior file ID are not copied.
<b>Use Crosswalk</b>	Select to crosswalk any account code elements for the selected fund/years that exist in the Mask Crosswalk utility. See Mask Crosswalk (Mass Change Account Codes).
<b>Only Existing Budget Accts</b>	Select to include existing account codes and amounts in the list of available account codes to be transferred.

Under **Accounting Period**, select the following:

<b>Current</b>	The accounting period is set to <b>Current</b> by default, which uses the current accounting period amounts from Finance to populate Budget amounts.
----------------	--

Under **Object Description**, select **Description from GL (all account codes)**. This description is retrieved from the Chart of Accounts.

All available fund/year codes from Finance are displayed on the left side of the page. Select the available fund/year codes to move to the right side of the page for the budget account code tables, general ledger accounts.

Use the arrow buttons to move the appropriate funds from the left side to the right side of the page.

Click **Execute** to execute the process. The Update Budget Data Report is displayed with the old and new account codes that were updated. Review the report.

#### 4. [Export file ID N.](#)

### Export file ID N

[Budget > Utilities > Export by File ID](#)

This step should be completed prior to continuing the process.

Create an export of file ID N.

This page is used to copy the selected file IDs to a user-designated archive file.

- If the file ID is N (next year), the export includes the budget tables as well as next year requisition and workflow tables.
- If the file ID is anything other than N, the export only includes budget tables.

### Export file IDs:

The screenshot displays the 'Utilities > Export by File ID' interface. At the top, there is a navigation bar with a home icon, the text 'Utilities > Export by File ID', a dropdown menu showing 'Budget', and a 'File ID: N' field. Below the navigation bar, there is an 'Execute' button with a black arrow pointing to it. The main area is divided into two columns: 'Available File IDs' and 'Selected File IDs'. The 'Available File IDs' column has a table with columns 'Select' and 'File ID', listing years from 2019-2020 to 2018-2019. The 'Selected File IDs' column has a table with columns 'Select' and 'File ID', showing 'N 2025 - 2026' selected. Between the columns are four arrow buttons: a right-pointing arrow, a double right-pointing arrow, a left-pointing arrow, and a double left-pointing arrow.

☐ Use the arrow buttons to move the appropriate file ID from the left side to the right side of the page.

☐ Click **Execute** to execute the process. You are prompted to create a [backup](#).

## 5. (If necessary) Delete file IDs.

**(If necessary) Delete file IDs**

Budget &gt; Utilities &gt; Delete by File ID

**Log on to file ID N when performing this step.**

Delete the existing file ID that conflicts with the file ID to be moved.

For example, delete file ID 6 2015-2016 to allow the 2025-2026 fiscal year to be stored in file ID 6.

Utilities > Delete by File ID Budget

Execute

Available File IDs		Selected File IDs

## 11. [Manage user profiles](#)

### Manage user profiles

Ensure that the user profiles are correctly set up for Budget use in Security Administration and District Administration.

- Create and manage users on the [Security Administration > Manage Users > Create/Edit User](#) page.

☐ Set up user profiles on the [District Administration > Maintenance > User Profiles > Accounts](#) tab.

☐ Use one of the following options to update the user account codes:

- **Option 1** - It is recommended to mask (X) the **FscI Yr** (fiscal year) field on the user profile. A masked fiscal year on the account code allows the user to access all account code fiscal years (if the user has access to the account code) and alleviates the task of updating the fiscal year each new fiscal year.
- **Option 2** - Depending on the LEA's restriction procedures, manually update the **FscI Yr** (fiscal year) field for each user profile to reflect the new fiscal year. Entering a fiscal year limits access to other fiscal year data.
- **Option 3** - Run the [District Administration > Utilities > Mass Update User Account by](#)

Fund utility to update multiple users by fund.

The screenshot shows the 'Mass Update User Account by Fund' utility. At the top, there is an 'Execute' button. Below it are two tables for moving fund/yr accounts. The left table has columns 'Select', 'From FundYr', and 'Description'. It contains one row with 'XXX / 5'. The right table has columns 'Select', 'To FundYr', and 'Description'. It contains one row with 'XXX / 6' and a message 'Fund/Yr does not exist in Finance'. Between the tables are four arrow buttons: a single right arrow, a double right arrow, a single left arrow, and a double left arrow. On the right, an 'Options' panel has a 'Select' column and a 'Process' column. 'Budget' is selected in the 'Process' column. Other options include Accounts Receivable, Budget Amendment Requests, Finance, Grants and Projects, Purchasing Requisition, Restock Requisition, Travel Reimbursement, and Warehouse Requisition.

Under **Options**, select **Budget**.

Use the arrow buttons to move the fund/year accounts to be mass updated from the left side to the right side of the page.

Click **Execute**. A message is displayed indicating that the mass update was successfully completed.

## 12. Clear next year requisitions.

### Clear next year requisitions

[Budget > Utilities > Clear/Move NYR Requisitions to CYR](#)

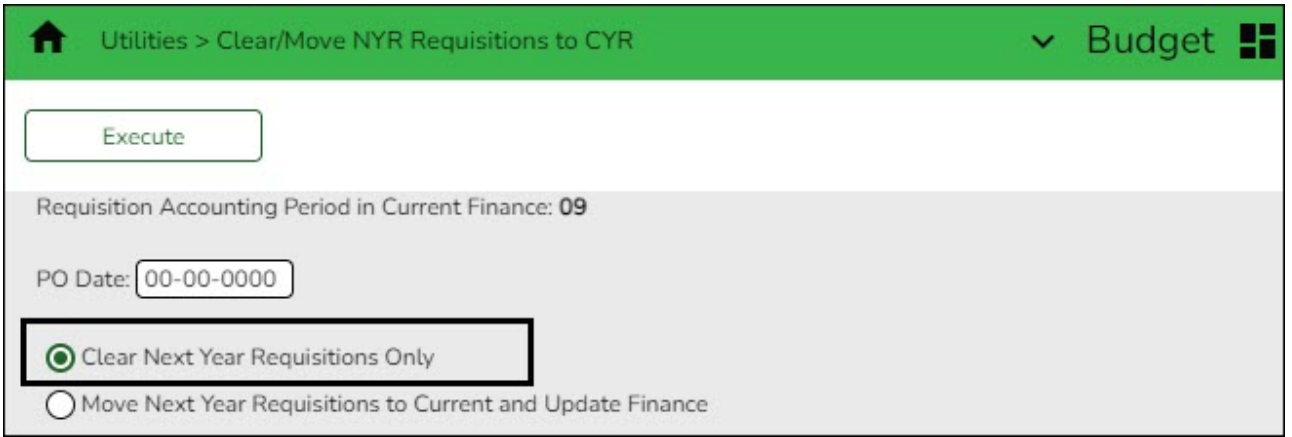

**Skip this step if your LEA does not use the next year requisitions feature.**

**TIP:** If your LEA uses the Next Year Requisitions feature, this step will clear those requisitions. **It is recommended** to wait until the Budget is open before entering Next Year Requisitions and to print the Requisition copy rather than the Purchase Order.

If the original Purchase Order is printed early, the issue date will reflect the print date instead of 07/01 or 09/01. To ensure the correct date (07/01 or 09/01), wait for the EOY Process step [Move NY Regs to Finance], which will generate the original Purchase Order with the appropriate issue date.

If your LEA uses the next year requisitions feature, clear the next year requisitions from the database.

- Leave the **PO Date** field as is (00-00-0000).
- Select **Clear Next Year Requisitions Only** to clear all next year requisitions from the database.
- Click **Execute**. When the process is completed, the Clear Next Year Requisitions report is displayed.
- Click **Process** to clear all next year requisitions from the database.

13. (Optional) Clear Budget tables.

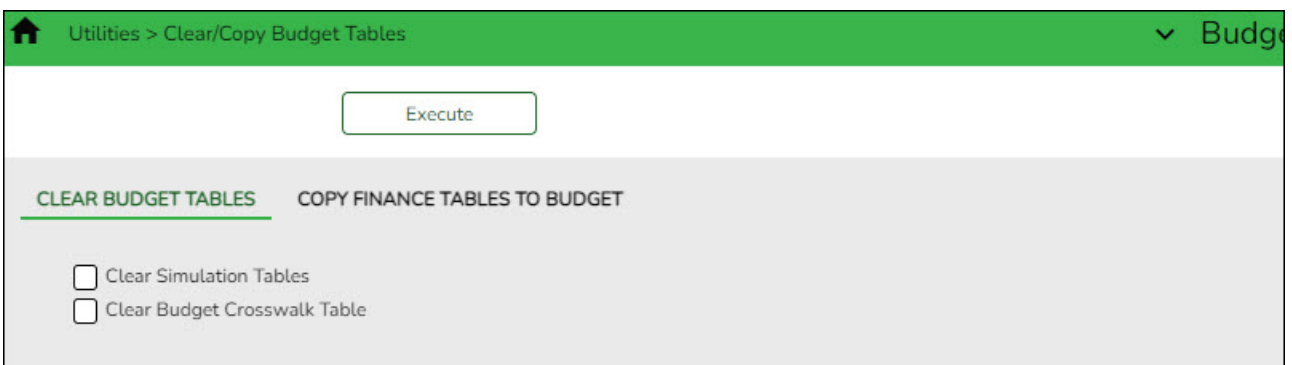

### (Optional) Clear Budget tables

[Budget > Utilities > Clear/Copy Budget Tables > Clear Budget Tables](#)

Clear the simulation tables or Budget crosswalk tables.

**TIP:** Use the [Budget > Utilities > Budget Level Processing > Recommended](#) tab to verify whether or not simulations exist for the logged-in user. Reports are not generated if simulations have been cleared.

### Clear budget tables:

Select from the following:

<b>Clear Simulation Tables</b>	Select to remove all data from the simulation tables unless there are generic tables that are used every year.
<b>Clear Budget Crosswalk Table</b>	Select to remove all data from the crosswalk tables.

Click **Execute**. A message is displayed indicating that the tables were cleared.

14. [Update Budget data.](#)

### Update Budget data

[Budget > Utilities > Update Budget Data](#)

**Note:** If mask crosswalks were performed in Finance they need to be performed in Budget before completing this step. If you need assistance with mask crosswalks, contact your regional ESC consultant.

## 16. Create a simulation.

### Create a simulation

Use any of the following tabs to create a budget simulation.

- [Budget > Utilities > Mass Increase/Decrease Account Codes > Requested](#)
- [Budget > Utilities > Mass Increase/Decrease Account Codes > Recommended](#)
- [Budget > Utilities > Mass Increase/Decrease Account Codes > Approved](#)

**Example:** If your user profile only allows access to 62XX accounts and you select, as part of the criteria, to update all 6XXX accounts, only the accounts that meet the 62XX criteria are reflected in the preview report when the simulation is executed. No 61XX, 63XX, 64XX, etc. are included in the calculations.

The screenshot displays the 'Budget' simulation creation interface. At the top, there is a 'Save' button. Below it, three tabs are visible: 'REQUESTED', 'RECOMMENDED' (which is selected), and 'APPROVED'. The 'Simulation Name' field contains '6X +200'. To the right of this field are buttons for 'Retrieve', 'Delete', 'Copy', 'Directory', and 'Execute'. The 'Simulation Description' field contains 'ADD 200 TO ALL 6XXX'. The 'Base Column' dropdown menu is set to 'This Yr Amend Budget'. There is a checked checkbox for 'Round to Nearest Dollar Amount' and a 'Cutoff Date' of '06-13-2026'. Below this, a table is shown with the following columns: 'Delete', 'Seq.Nbr', 'Account Code', 'Operator', and 'Percent / Amount'. The table contains one row with a trash icon, '001', 'XXX-XX-6XXX.XX-XXX-X-XX-X-XX', 'Add', and '200.000'. An 'Add' button is located at the bottom right of the table.

- Click **Save**.
- Click **Execute** to execute the process. A Mass Increase/Decrease Budget Account Code Report is displayed. [Review the report](#).
- Click **Process** to complete the simulation process.

**(If necessary) Delete funds**

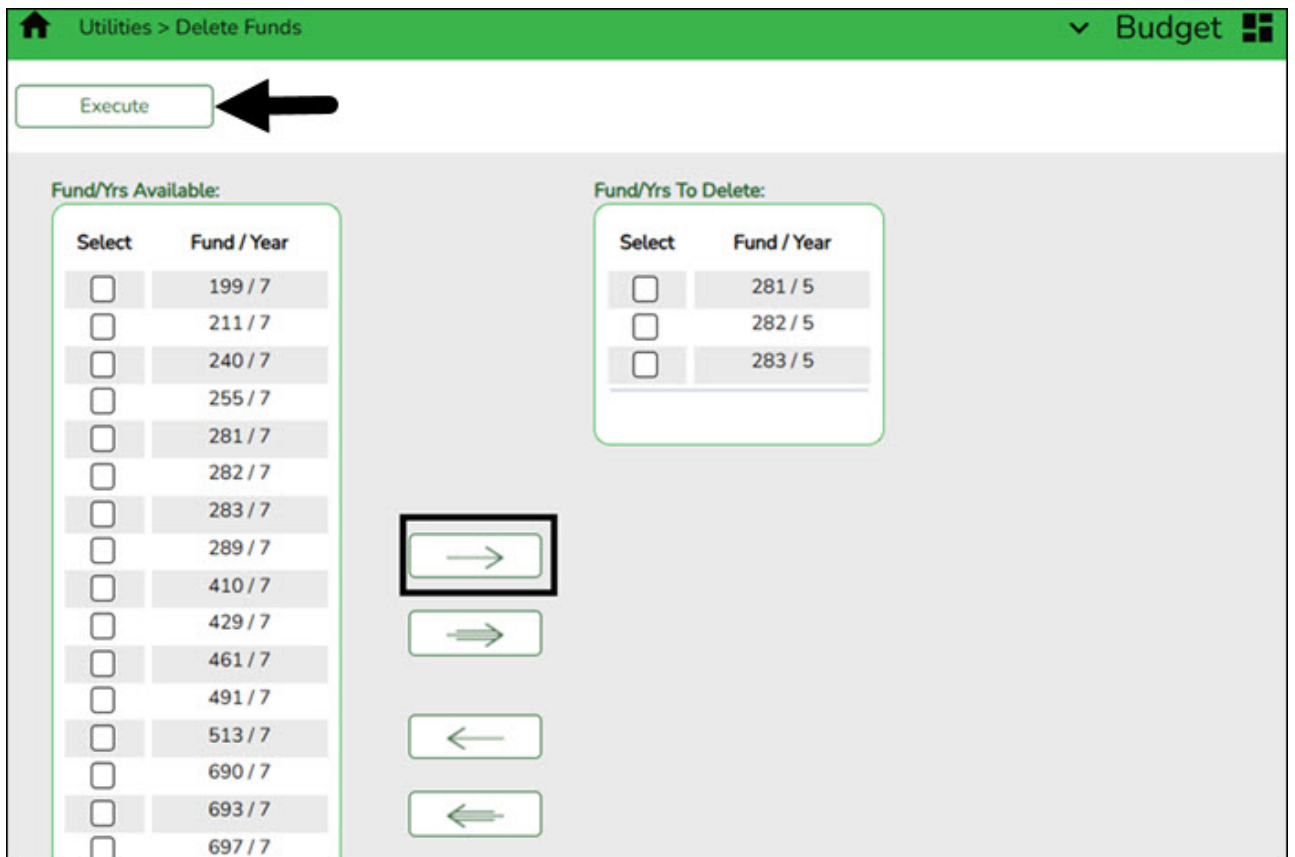

[Budget > Utilities > Delete Funds](#)

Delete the funds that are no longer needed in Budget.

This page is used to delete all accounts for specific funds in the Budget master table. This function saves you from having to delete each account individually. A report of the deleted and not deleted funds is automatically generated.

All budget accounts are deleted for each of the funds selected, except:

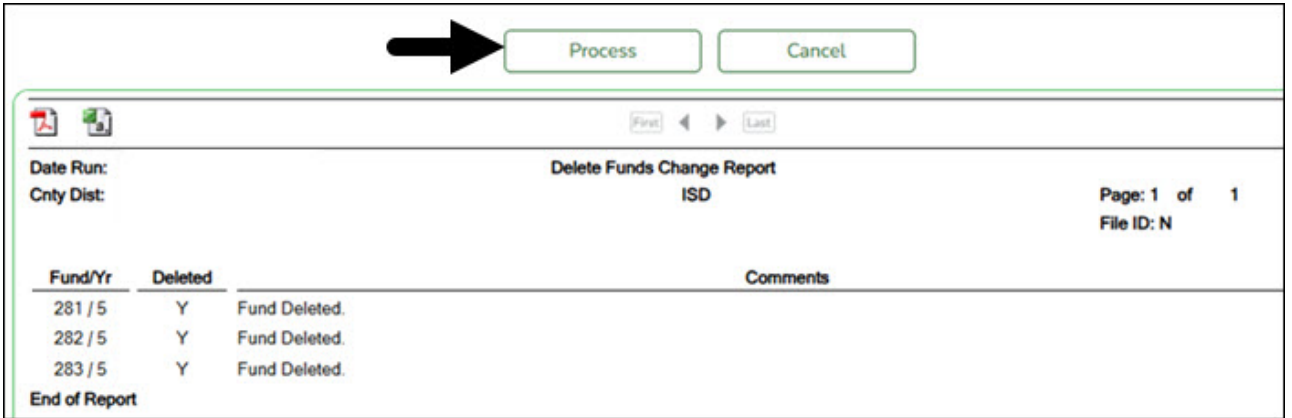

- If there are any next year requisitions that have not become a purchase order and the attached account codes for the line items match the selected funds, the selected funds are not deleted, and an error message is displayed on the report.
- If there is an account code that is attached to a purchase order encumbrance transaction that matches the selected funds and the encumbrance transaction has not been reversed, the selected funds are not deleted, and an error message is displayed on the report.

**Delete funds:**

Use the arrow buttons to move the appropriate funds from the left side to the right side of the page.

- Click **Execute** to delete the selected funds. The Budget System Delete Funds Change Report is displayed. [Review the report.](#)
- Click **Process** to process the selected accounts. Otherwise, click **Cancel** to return to the Delete Funds page without deleting the selected funds.

20. [Delete prior year fund/fiscal years.](#)

**Delete prior year fund/fiscal years**

[Budget > Tables > Account Codes > Fund](#)

Delete the fund/fiscal year(s) that are not needed in the 2025-2026 budget file.

The screenshot shows a table with columns: Delete, Fund/Fiscal Year, Fund Type, Fund Description, Budget Fund Balance, Actual Fund Balance, Interfund Due From, and Interfund Due To. The table lists various fund types (G - General operating, S - Special revenue) and descriptions (PAYROLL CLEARING FUND, GENERAL FUND, ESEA TITLE I-A IMPROVING BASIC, NATL BREAKFAST/LUNCH PROGRAM, TITLE IIA TEACH/PRINC TRAINRE, ESSER I OF CRRSA ACT, ESSER II). Several rows are highlighted in red, indicating they are selected for deletion.

Select the fund/fiscal years (rows) to be deleted.

### Copy level - Budget level processing

[Budget > Utilities > Budget Level Processing > Copy Level](#)

After the Budget is approved, the **Next Year Approved** column must be populated before the accounts and amounts can be moved to Finance.

This utility is used to copy amounts from one budget level to another budget level. All amounts currently in the **From Level** are copied to the **To Level**. This feature enables the user to view and process from different levels. The cutoff date validates against the To level; it does not validate against the From level. The ability to perform this function is not dependent on being authorized to access to the Requested, Recommended, and Approved tabs.

## Copy simulation data from one budget level to another:

Under **From Level**:

Field	Description
<b>Requested</b>	Select to copy the <b>Requested</b> column level. If selected, the data replaces the data in the selected <b>To Level</b> .
<b>Recommended</b>	Select to copy the <b>Recommended</b> column level. If selected, the data replaces the data in the selected <b>To Level</b> .
<b>Approved</b>	Select to copy the <b>Approved</b> column level. If selected, the data replaces the data in the selected <b>To Level</b> .

Under **To Level**:

<b>Requested</b>	Select to indicate that the data in the selected <b>From Level</b> column will replace the data in this column.
<b>Recommended</b>	Select to indicate that the data in the selected <b>From Level</b> column will replace the data in this column.
<b>Approved</b>	Select to indicate that the data in the selected <b>From Level</b> column will replace the data in this column.

**Note:** You cannot copy the same **From Level** column to the same **To Level** column.

Click **Execute** to copy the selected From Level simulations to the selected To Level. A Copy Level report is displayed. [Review the report.](#)

Click **Process** to process the transfer of the selected simulation. You are prompted to create a [backup](#). Otherwise, click **Cancel** to cancel the process.

22. [Export the 2026-2027 Board approved budget.](#)

### Export the 2026-2027 Board approved budget
