ASCENDER - Credit Card Process

Created: 04/28/2023

Reviewed: 05/05/2023

Revised: 05/05/2023

The purpose of this document is to guide you through the necessary credit card processing steps, which include processing credit card payments to vendors, reconciling credit card statements, and then processing payments to the credit card company.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Prerequisites

Update roles/users in Security Administration to allow credit card feature permissions. You can add permissions to an existing role or create a new role.

Credit Card Process

Credit card information cannot be edited once charges are posted to a card.

1. [Set up credit card codes](#).

Set up credit card codes

[Finance](#) > [Tables](#) > [Credit Card Codes](#)

Establish a list of credit card codes to be used by the local education agency (LEA). The credit card code table is necessary to complete credit card functions in Finance, Purchasing, and District Administration.

Multiple credit cards can be set up for a credit card company. The account code must be a liability account (2XXX). A different account code can be used for each credit card to make it

easier to verify transactions if the credit card statement does not reconcile to the transactions in ASCENDER. This account should be different from previously used liability accounts.

If a specific credit card code is assigned to a user, the user can select from their assigned list of active credit card codes in the **Credit Card Code** drop-down field when entering a requisition on the [Purchasing > Maintenance > Create/Modify Requisition](#) and [Create/Modify Contract Requisition](#) pages in Purchasing.

- In the **Credit Card Code** field, press the SPACEBAR to view a list of credit card codes tied to your user profile. Select the appropriate credit card code.

Reminder: The vendor selected on the requisition is the vendor that is being paid with the credit card, not the credit card company.

[Finance > Maintenance > Credit Card > Posting - PO Tab](#)

After the requisition is approved, retrieve the PO to post or create the payable transaction (credit card transaction).

Post the payable transaction:

[Finance > Maintenance > Credit Card > Posting - PO](#)

☐ Retrieve the PO to post the payable transaction (credit card transaction). Since this transaction was created without selecting a credit card code, a message is displayed as a reminder. On this tab, a credit card transaction is entered similarly to the [Finance > Maintenance > Postings > Check Processing - PO](#) tab.

- In the **Type** field, select the type of credit card transaction (*Purchase or Return*).

- In the **Credit Card Code** field, select the credit card code for the card used.

| 199-41-6499-00-702-299000 | Debit | |
| 199-00-2110-01-000-200000 | | Credit |
