Revised: in progress

The purpose of this document is to guide you through the necessary credit card processing steps, which include recording credit card payments to vendors, reconciling credit card statements, and then paying the credit card company.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the ASCENDER Business Overview guide.

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Before You Begin

Credit Card Process

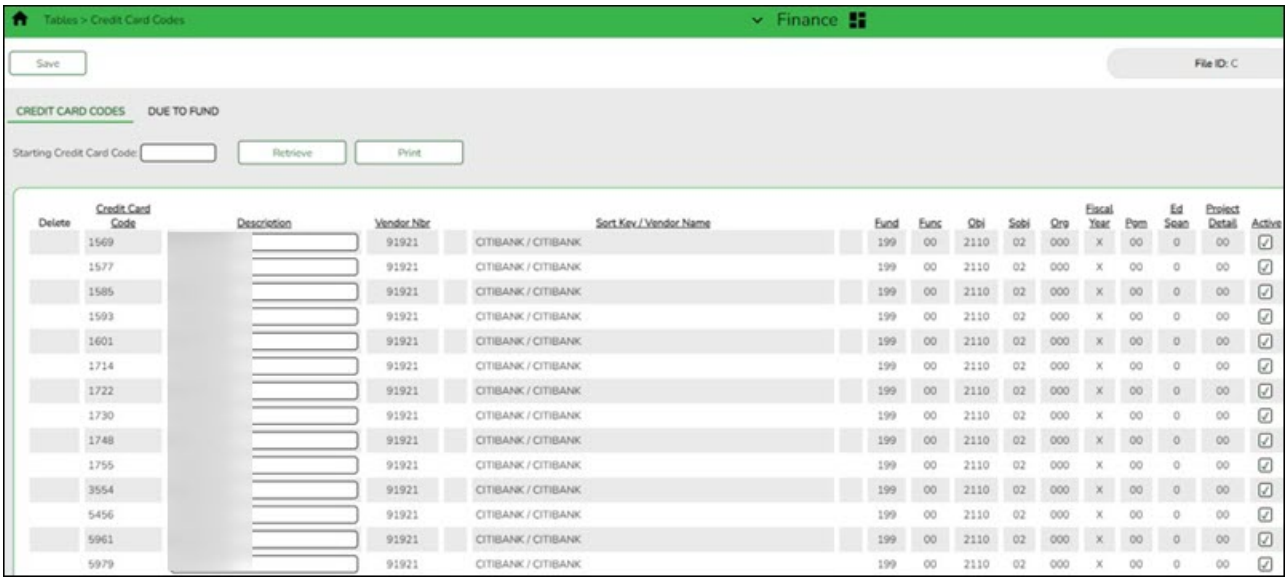

1. Set up credit card codes.

Set up credit card codes

Finance > Tables > Credit Card Codes

Establish a list of credit card codes to be used by the local education agency (LEA). The credit card code table is necessary to complete credit card functions in Finance, Purchasing, and District Administration.

Multiple credit cards can be set up for a credit card company. The account code must be a liability account (2XXX). A different account code can be used for each credit card to make it easier to verify transactions if the credit card statement does not reconcile to the transactions in ASCENDER. This account should be different from previously used liability accounts.

Notes:

- Credit card codes can be assigned to individual users on the District Administration > Maintenance > User Profiles > Purchasing Credit Cards tab.
- All credit card account code components must exist on the **Finance > Tables > Account Codes** page.
- The contra account is the credit card account from the credit card table even though it is different from the purchasing fund. This means that due to/due from accounts will be created to complete the accounting transactions.

❑ Click **+Add** to add a row.

Credit Card Code	Type a unique user-defined credit card code. The field can be a maximum of six alphanumeric characters. It is helpful to use the last 4 digits of the credit card.

Vendor Nbr	Type an active vendor number, if known. As you type the data, a drop-down list of corresponding data is displayed. Select a vendor number. The vendor number must exist on the Maintenance > Vendor Information page. The **Vendor Name** field is automatically populated with the vendor name. If the vendor number is not known, click ⋮. The Vendors directory is displayed. **Note**: The vendor number represents the credit card company (e.g., Bank of America).

The account code is divided into the following components: **Fund** **Function** **Object** **Sub-Object** **Organization** **Fiscal Year** - This field is display only and defaults to X indicating that the current fiscal year for the account code offset is used when creating credit card transactions. You can verify the fiscal year on the Tables > District Finance Options page. **Program Intent** **Educational Span** **Project Detail**

❑ Click **Save**.

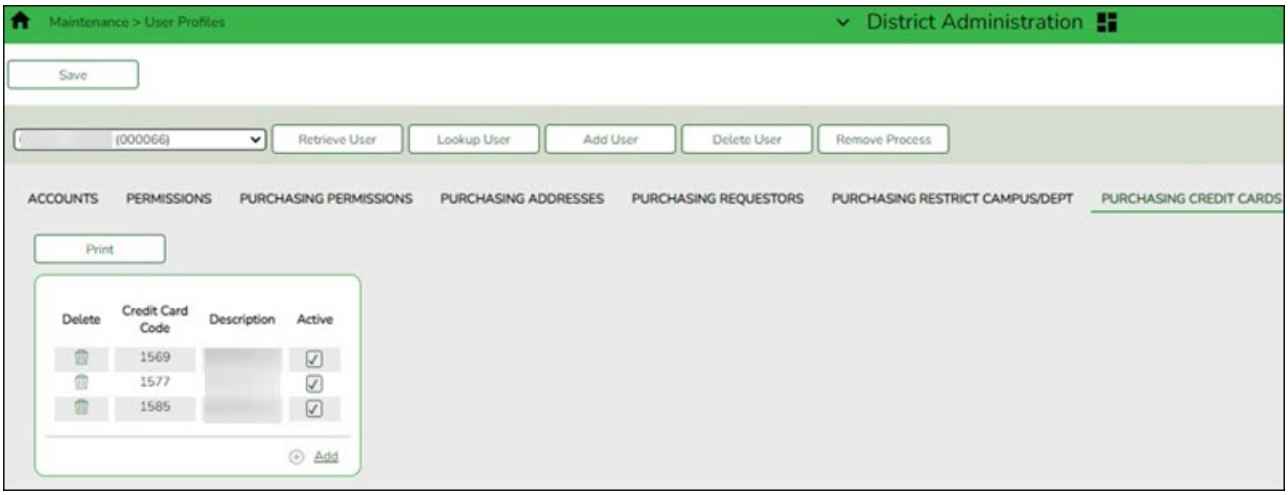

2. (Optional) Assign credit card codes to users.

(Optional) Assign credit card codes to users

District Administration > Maintenance > User Profiles > Purchasing Credit

Assign specific credit card codes to individual requisition users. If users will not be selecting a credit card code when creating and submitting a requisition, then credit card codes do not need to be assigned to users. The business office can select a credit card code on the PO at the time the payable transaction is entered in Finance.

If a specific credit card code is assigned to a user, the user can select from their assigned list of active credit card codes in the **Credit Card Code** drop-down field when entering a requisition on the Purchasing > Maintenance > Create/Modify Requisition and Create/Modify Contract Requisition pages in Purchasing.

☐ Click **+Add** to add a row. The Credit Card Directory is displayed.

- Select one or more credit card codes to assign to the selected user. Only credit card codes that exist on the Finance > Tables > Credit Card Codes tab are displayed.
- Type data in the **Search** field to narrow the list of credit card codes displayed in the list.
- Click **OK** to continue and return to the Purchasing Credit Cards tab.
- Click **Cancel** to return to the Purchasing Credit Cards tab without making a selection.

5. Post interest and miscellaneous charges.

Verify and correct issues

Verify the differences and correct any problems with the staff accrual payroll information so that the amounts are the same. You may have to:

Use the Payroll > Tables > Accrual Calendars > Accrual Calendar page to:

- Build an accrual calendar for individuals who did not have one built at the beginning of the year.
- Correct the number of days worked in the accrual calendar.

Use the Payroll > Maintenance > Staff Job/Pay Data > Job Info tab to:

- Enter an accrual code for individuals who do not have one.
- Enter an accrual rate for individuals who do not have one.

- Correct the accrual rate (should be the same as the daily rate) for individuals.

Then, use the Payroll > Utilities > Payroll Accrual Variance Extract to perform the following steps:

- Use the Extract tab to run the accrual variance again.
- Use the Reports tab to review and verify any differences between the spreadsheet and the variance report.
- Correct any issues as needed.
- Use the Post To Master/Interface To Finance tab to post valid variances and interface to Finance if needed.

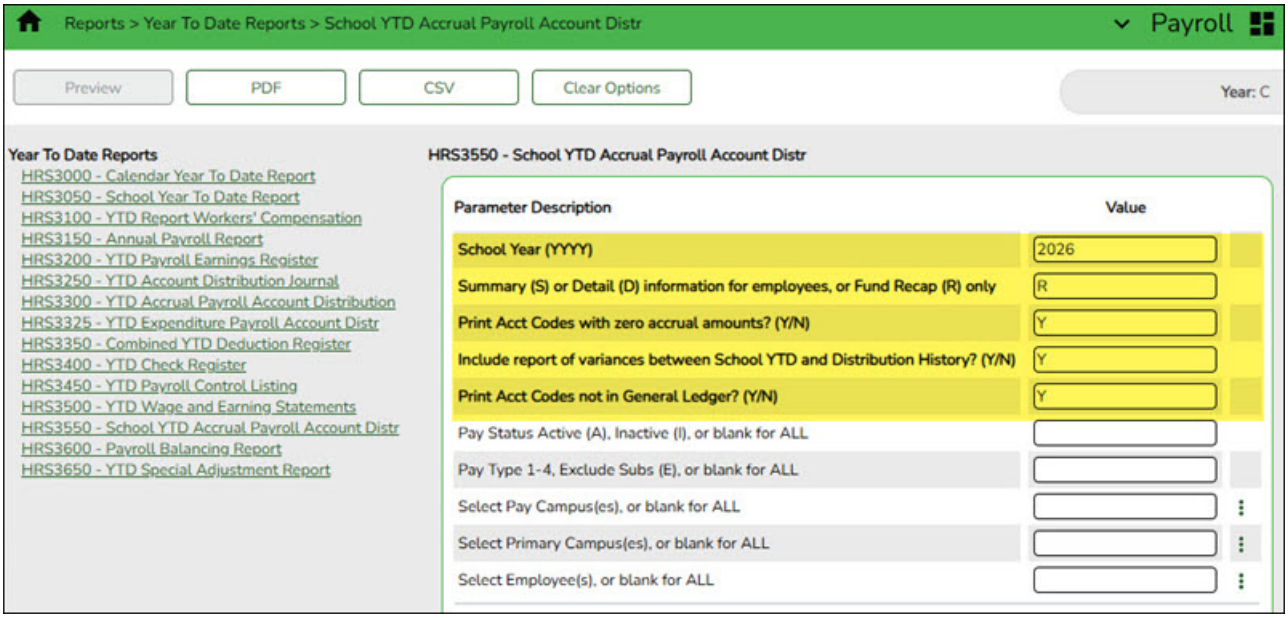

Generate the Payroll > Reports > Year to Date Reports > HRS3050 - School Year To Date Report again from Step 4 and verify that it matches the estimate from Step 3.

6. Reconcile the credit card statement.

Generate the HRS3550 Report

Payroll > Reports > Year To Date Reports > HRS3550 - School YTD Accrual Payroll Account Distr

After the estimate from the Excel file (Step 3) and the HRS3050 report (Step 4) match, generate the report with the following parameters:

This report will assist you as you balance to Finance in the following step.

7. Process payment to the credit card company.

Run a general ledger inquiry

Finance > Inquiry > General Ledger Inquiry > General Ledger Account Summary

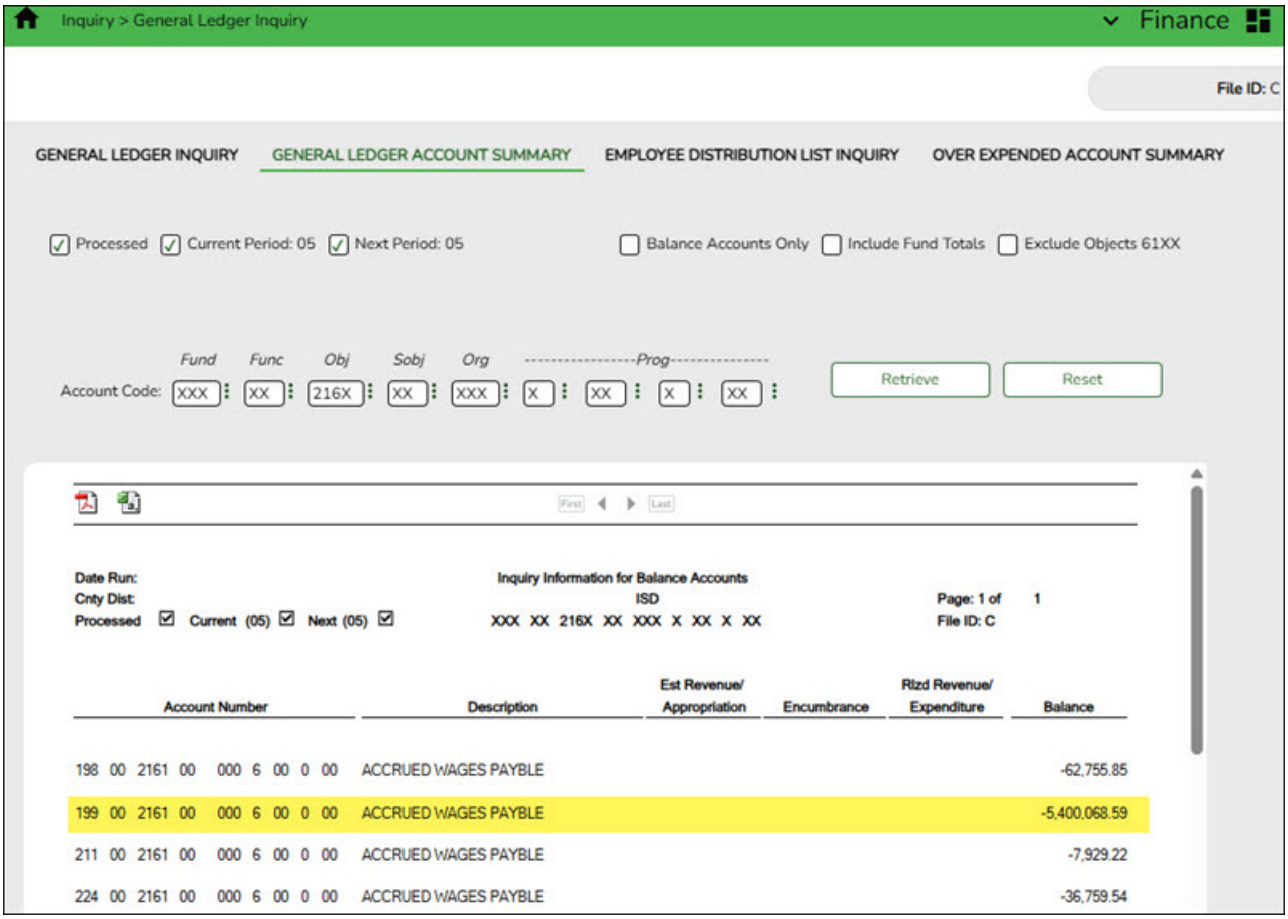

When considering potential journal entries to be made later in this step, use the following chart for reference.

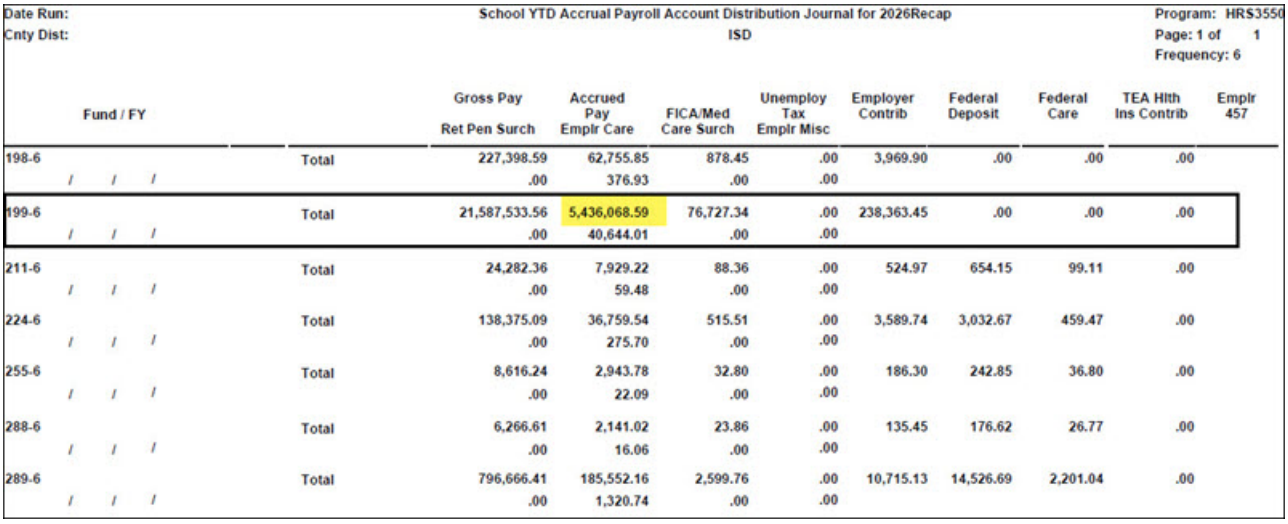

Note: This chart derives from the **Payroll Automatic Posting Default** section on the Finance > Tables > District Finance Options > Clearing Fund Maintenance tab.

General Ledger Inquiry Report	School YTD Report	Expenditure Object Code
216X	Accrued Wages	6119 or 6129

221X.20	Accrued Employer Dependent Care	6149
221X.21	Accrued Employer Miscellaneous Deduction Contribution	6149

Run an inquiry on the 216X and 221X accounts from Finance and compare the balances to the Payroll > Reports > Year To Date Reports > HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

This inquiry can also be run in Purchasing.

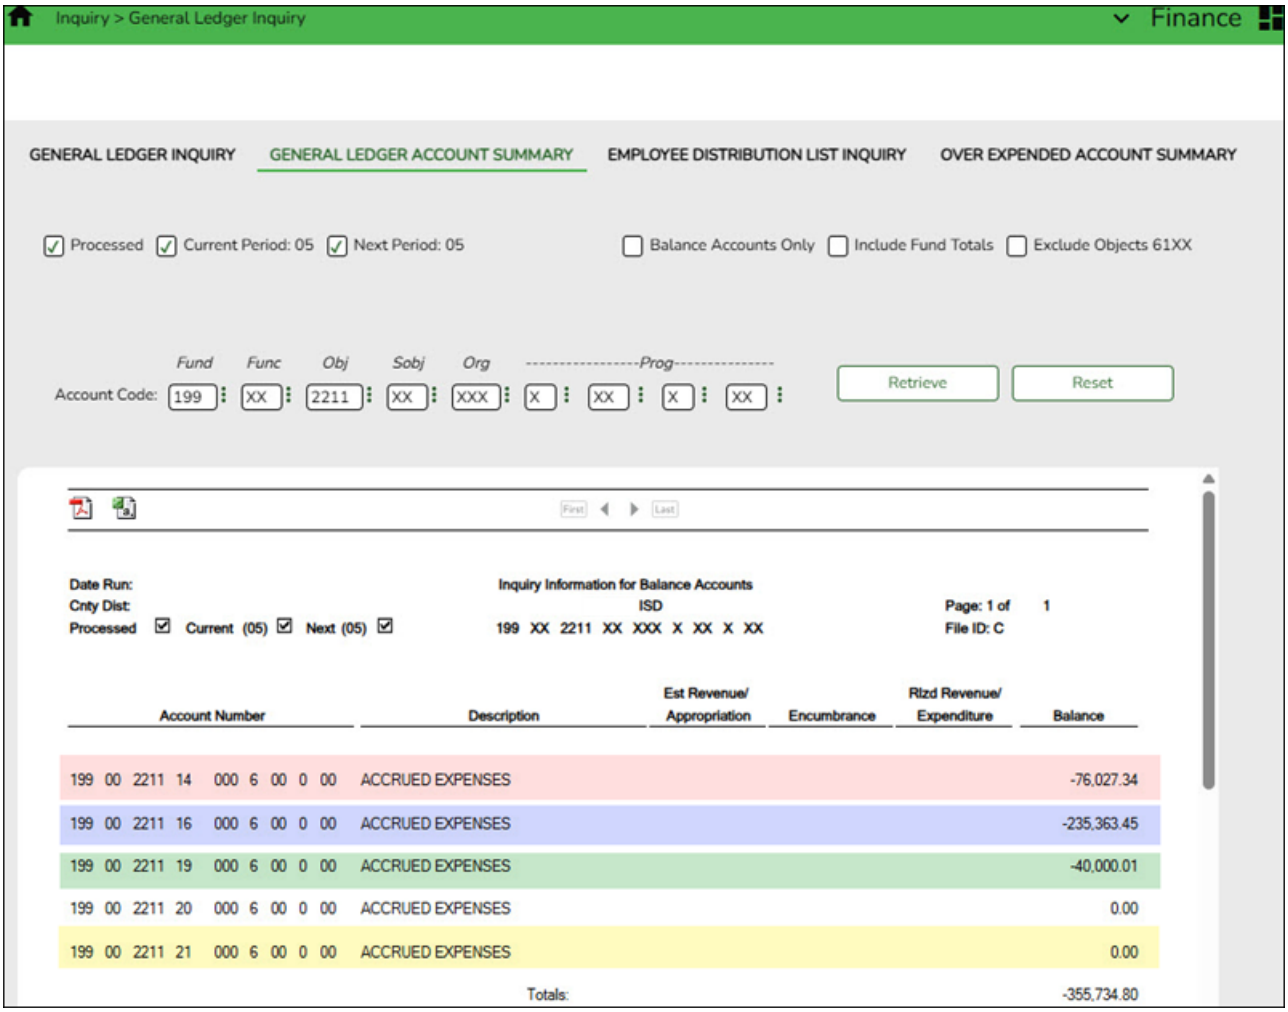

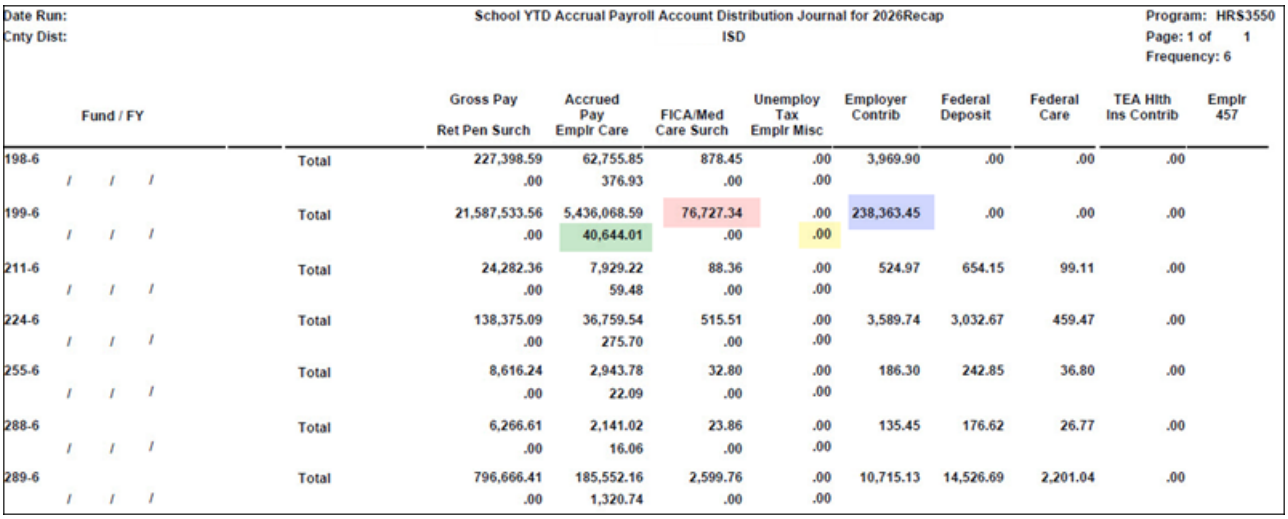

If there is a difference in any of the funds, a journal entry needs to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

Compare the HRS3550 report totals to the General Ledger Inquiry reports.
Review the following example entry:

Account Code	Debit	Credit
199-00-2161-00-000-X-00-000		$36,000.00
199-11-6119-00-001-X-11-000	$36,000.00	

This is the difference between the two amounts. The entry has to make the general ledger match the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

If there is a difference in any of the funds such as in the example shown below, a journal entry will need to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.
