# ASCENDER - Credit Card Process

**Created:** 04/28/2023

**Reviewed:** in progress

**Revised:** in progress

The purpose of this document is to guide you through the necessary credit card processing steps, which include recording credit card payments to vendors, reconciling credit card statements, and then paying the credit card company.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

## Before You Begin

## Credit Card Process

1. [Set up credit card codes](#).

### Set up credit card codes

[Finance > Tables > Credit Card Codes](#)

Establish a list of credit card codes to be used by the local education agency (LEA). The credit card code table is necessary to complete credit card functions in Finance, Purchasing, and District Administration.

Multiple credit cards can be set up for a credit card company. The account code must be a liability account (2XXX). A different account code can be used for each credit card to make it easier to verify transactions if the credit card statement does not reconcile to the transactions in ASCENDER. This account should be different from previously used liability accounts.

### (Optional) Assign credit card codes to users

The business office can select a credit card code on the PO at the time the payable transaction is entered in Finance.

If a specific credit card code is assigned to a user, the user can select from their assigned list of active credit card codes in the **Credit Card Code** drop-down field when entering a requisition on the [Purchasing > Maintenance > Create/Modify Requisition](#) and [Create/Modify Contract Requisition](#) pages in Purchasing.

On this tab, a credit card transaction is entered similarly to the [Finance > Maintenance > Postings > Check Processing - PO](#) tab.

- In the **Type** field, select the type of credit card transaction (*Purchase or Return*).

- In the **Credit Card Code** field, select the credit card code for the card used.

## 5. Post interest and miscellaneous charges.

### Verify and correct issues

Verify the differences and correct any problems with the staff accrual payroll information so that the amounts are the same. You may have to:

---

Use the [Payroll > Tables > Accrual Calendars > Accrual Calendar](#) page to:

- Build an accrual calendar for individuals who did not have one built at the beginning of the year.
- Correct the number of days worked in the accrual calendar.

Use the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab to:

- Enter an accrual code for individuals who do not have one.
- Enter an accrual rate for individuals who do not have one.
- Correct the accrual rate (should be the same as the daily rate) for individuals.

Then, use the [Payroll > Utilities > Payroll Accrual Variance Extract](#) to perform the following steps:

- Use the [Extract](#) tab to run the accrual variance again.
- Use the [Reports](#) tab to review and verify any differences between the spreadsheet and the variance report.
- Correct any issues as needed.
- Use the [Post To Master/Interface To Finance](#) tab to post valid variances and interface to Finance if needed.

Generate the [Payroll > Reports > Year to Date Reports > HRS3050 - School Year To Date Report](#) again from Step 4 and verify that it matches the estimate from Step 3.

6. Reconcile the credit card statement.

## Generate the HRS3550 Report

[Payroll > Reports > Year To Date Reports > HRS3550 - School YTD Accrual Payroll Account Distr](#)

After the estimate from the Excel file (Step 3) and the HRS3050 report (Step 4) match, generate the report with the following parameters:

This report will assist you as you balance to Finance in the following step.

7. [Process payment to the credit card company.](#)

### Run a general ledger inquiry

[Finance > Inquiry > General Ledger Inquiry > General Ledger Account Summary](#)

When considering potential journal entries to be made later in this step, use the following chart for reference.

**Note:** This chart derives from the **Payroll Automatic Posting Default** section on the [Finance > Tables > District Finance Options > Clearing Fund Maintenance](#) tab.

If there is a difference in any of the funds, a journal entry needs to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

Compare the HRS3550 report totals to the General Ledger Inquiry reports.  
Review the following example entry:

<b>Account Code</b>	<b>Debit</b>	<b>Credit</b>
199-00-2161-00-000-X-00-000		\$2,696.98
199-11-6119-00-001-X-11-000	\$2,696.98	

This is the difference between the two amounts. The entry has to make the general ledger match the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

If there is a difference in any of the funds such as in the example shown below, a journal entry will need to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

Review the following example entry:

Account Code	Debit	Credit

If there is a difference in any of the funds, a journal entry needs to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

Compare the HRS3550 report totals to the General Ledger Inquiry reports.  
 Review the following example entry:

Account Code	Debit	Credit
199-00-2161-00-000-X-00-000		\$2,696.98

Account Code	Debit	Credit
199-11-6119-00-001-X-11-000	\$2,696.98	

This is the difference between the two amounts. The entry has to make the general ledger match the HRS3550 - School YTD Accrual Payroll Account Distribution Journal.

If there is a difference in any of the funds such as in the example shown below, a journal entry will need to be made to balance the general ledger to the HRS3550 - School YTD Accrual Payroll Account Distribution journal.

Review the following example entry:
