2. Verify payroll frequency.

### Verify payroll frequency

Each time you prepare to move a group of employees (July contracts, August contracts, and September contracts), be sure to start with this step to ensure you are starting in the correct frequency.

In Payroll, verify that you are in the next year frequency that is associated with your current year frequency. If not:

- Click **Change**.
- Select **Next Year**.
- Click **Apply**.

3. Prepare NYR payroll for move to CYR.

### Prepare NYR payroll for move to CYR

Use the User Created Reports (or another preferred payroll report) to verify that all employee data is correct prior to moving the next year payroll to the current year.

Employees being moved must have an active **Pay Status**. Generate the [Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#) to verify the pay status of employees. Print and/or save this report.

Inactivate those employees who do not need to be moved such as employees whose contract days begin in July and/or August (11- and 12-month contracts) or “filler” employees who are

used only for budget purposes (i.e., vacancies).

Use the [Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#) tab to inactivate an employee.

- Retrieve the employee.
- In the **Pay Status** field, select **2 Inactive**.
- Click **Save**.

4. [Copy NYR tables to CYR](#).

### Copy NYR tables to CYR

**Log on to the next year payroll frequency.**

[Payroll > Next Year > Copy NYR Tables to CYR](#)

Copy all necessary tables.

**CAUTION:** If you copied any tables prior to this step, be sure to exclude those tables at this time to avoid overwriting any necessary data such as previously made manual changes.

The screenshot shows a software interface titled 'COPY NEXT YEAR TABLES'. On the left, there is a list of tables with checkboxes and a 'Select All Tables' button. The tables listed are: Accrual Calendar, Extra Duty Pay, Hourly / Daily Salary, Job Code, Local Annual Salary, Midpoint Salary, School Calendar, State Minimum Salary, Substitute Salary, and Workers' Compensation Rates. Each table has a checkbox and a 'More' button. On the right, there are 'Execute' and 'Select All Tables' buttons.

- Click **Select All Tables** to select all of the tables.

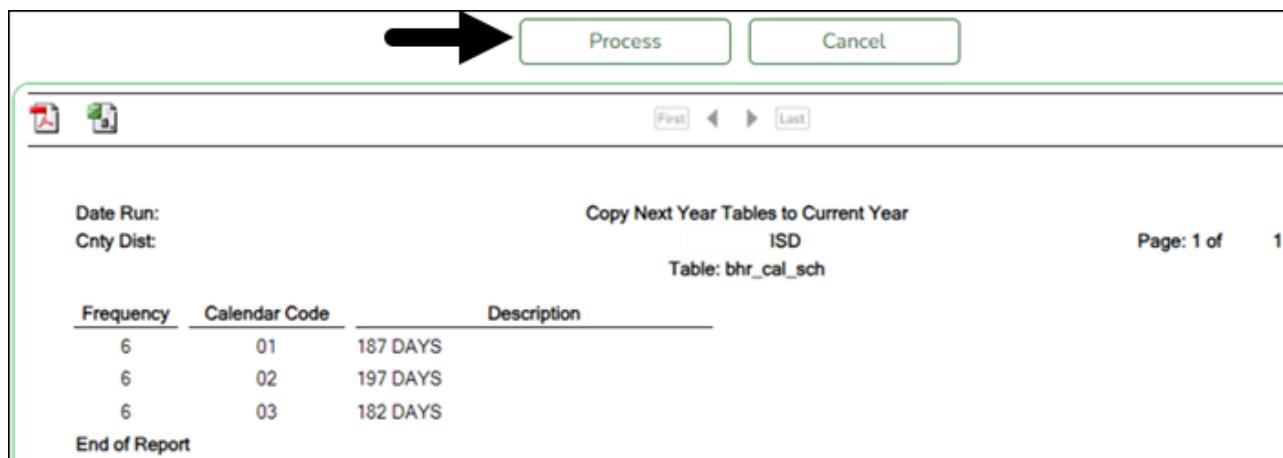

OR

- Select  next to the table(s) you want to include.
- Select  again to unselect a table.

□ Click for the **School Calendar**, **Extra Duty Pay**, and **Job Code** fields to open a pop-up window containing the corresponding tables. Select the applicable tables and click **OK** to populate the selected tables in the applicable fields.

**Note:** If you receive a database access error referencing your Summer School Calendar, click **OK**. This error is generated when a Summer School Calendar exists in the current year payroll frequency but does not exist in the next year payroll frequency. Select the tables you previously selected again, but in this instance, select the individual School Calendars to be copied.

□ Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports](#).

A message is displayed with the table names and the number of rows that were copied. Click **OK**.

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

**Note:** When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.

## 5. Copy deductions.

### Copy deductions

**Log on to the next year payroll frequency.**

**Payroll > Next Year > Copy NYR Staff to CYR**

If changes were made to employee deductions or you did not move deductions for 11- and 12-month employees, you can copy those deductions at this time.

All insurance selections and rate changes can be made in the current year by using the [Payroll > Utilities > Employee Benefits Interface > Import Annual File](#) page as referenced in Step 29 of this guide.

  - In the **Contract Months** field, enter 11 or 12.
  - Select a **Contract Begin Date**. The contract begin date is LEA specific.
  - Select an **Extract ID**.
- Click **Execute**. A preview report is displayed. Review the employee list and click **Process**. A message is displayed indicating that the process was successful.

## 6. [Copy active staff to the CYR](#).

### **Copy active staff to the CYR**

**Log on to the next year payroll frequency.**

[Payroll > Next Year > Copy NYR Staff to CYR](#)

**CAUTION:** If the 11- and 12-month employees were reactivated to interface to Budget, they must be set to inactive at this time. You can select specific employees to copy using the following parameters: **Contract Months**, **Contract Begin Date**, **Payoff Date**, **Extract ID**, or **Employee Number**.

In addition, consider the employee deductions. For example, if you have not updated the new insurance selections and premiums in the next year payroll, then do not copy any deductions to the current year payroll. Also, if you entered all new employees as electing insurance so that employer-paid amounts were generated to budget, then you would not want these “estimated” deductions brought to current year payroll. All insurance selections and rate changes can be made in the current year payroll frequency.

- Select **Preview Changes**.
- Click **Execute**. Review the list and click **Process**.

## 7. Change to the current year frequency.

### Change to the current year frequency

In Payroll, change to the current year frequency that is associated with your next year frequency (i.e., F = 6).

- Click **Change**.
- Select *Current Year*.
- Select a pay frequency.
- Click **Apply**.

The following steps should be performed in the current year frequency unless otherwise noted.

## 8. Update District HR options.

### Update District HR options

Payroll > Tables > District HR Options

Verify that the following fields are updated. These fields may already be updated.

- The **Payroll Clearing Fund/Year** field should be set to 163/X or 863/X. If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.
- The **School Year for PEIMS Codes** field should be set to 2026.

The screenshot shows the 'District HR Options' configuration screen. Key fields highlighted in red include:

- Payroll Clearing Fund/Year: 163/6

- TRS Extract Options: Use Pay Dates for TRS Month or Actual Date: P - Pay Dates For TRS Month, S - Scheduled Hours, Pay Type 1, 2, 3 (dropdowns)

**CAUTION:** No payrolls should be processed for the new (upcoming) school year prior to the **First Pay Date of the School Year**.

#### □ Under **First Pay Date of School Year:**

- Update the first pay date of the new school year for each payroll frequency. The date(s) must match the first payroll date(s) indicated on the pay dates table.
- In the **Payroll 4, 5, 6** fields, enter the first pay date for each of the three pay frequency fields in the MM-DD-YYYY format. Once the pay date is entered, it should not be changed until the next school year. The entered date should represent a payroll that will actually be processed, supplemental or regular. If a date is entered and no payroll is actually posted using that date, the system will have difficulty identifying when the new school year began. This could affect how data is handled in the new school year.

## Additional first pay date notes

### Fiscal Year versus School Year

- If your fiscal year is July through June and the 10-month employees are paid from September through August, this date should be September.
- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.
  - If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2024, pay and accruals are updated in the 2025 school YTD and the 2024 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
  - If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2025 school YTD and the 2025 TRS YTD. If the employee accrues, a 2025 school YTD is also created.
- If your fiscal year is September through August and the 10-month employees are paid from September through August, this date should be September.
- If end-of-year payroll accruals are performed for August days worked and the first paycheck is in September, the first pay date should be September.
- All non-standard employees (those employees who receive their first check in July or August) should have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

This first pay date of the school year is used to determine:

- The school year to be used for the school YTD records for regular and non-standard employees. If the employee is a non-standard employee (**TRS Year** is selected), and the contract begin date is greater than this date, then the payroll calculation stores the accrual amounts in the next year school YTD record.
- The school year that should be used for the TRS rates and employee TRS record.
- The pay history records that should be used for accruals.
- The leave transmittals that should be accumulated to determine if the leave duration has been met for the school year.

**Notes:**

If the LEA does not use one of the pay frequencies, access to that field is not allowed. If a user does not have security access to a pay frequency, access to that field is not allowed.

When the first pay date of the school year is changed, if any message displayed includes information about contacting your regional consultant, there are processed pay dates where amounts need to be moved from one school year to another. If these amounts are not moved, it can adversely affect school YTD historical amounts, TRS historical amounts, and reporting, workers' compensation historical amounts and reporting, and payroll accrual calculations. **Do not** proceed without addressing this issue.

Click **Save**.

- For August year-end LEAs, start with your accrual run date (08-31-20XX) and enter the number of August workdays.
- Continue adding pay dates and days worked for the remainder of the school year. The dates must equal the dates in your pay dates table. All pay dates should be entered even if zero days are accrued for that month. This information is LEA-specific.

**Note:** For a standard 187-day calendar in a monthly pay frequency, there should be 13 entries including the date for the August Accrual process and the 12 pay dates including the months that may have zero workdays.

11. Complete fund to grant information.

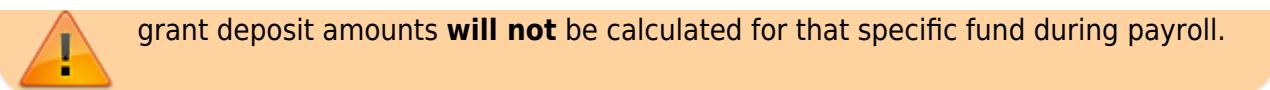

### Complete fund to grant information

**Log on to the current year payroll frequency.**

Personnel > Tables > Salaries > Fund to Grant

**IMPORTANT:** All applicable federal grants must have a fund to grant code listed in the **TRS Grant Cd** field on this tab. If not, TRS federal grant care and TRS federal

Verify that the applicable federal grant funds (200-300) have a two-digit TRS grant code. Update this table as needed.

**Exception:** If using the TRS Child Nutrition worksheet for TRS reporting, the child nutrition funds (240 and 242) should NOT have a fund to grant code assigned.

This generates salaries for the TRS 3 and TRS 489 reports.

In order for a fund to be displayed on this page, the fund must exist in an account code on the Finance Chart of Accounts. The codes are LEA-specific.

#### 14. Verify/update Workers' Compensation rates.

### Verify/update Workers' Compensation rates

[Payroll > Tables > Tax/Deductions > Workers' Compensation](#)

Verify that the workers' compensation rates are accurate for the new school year. If not, update the rates.

Delete	Code	Description	Net Rate
	A	8868 PROFESSIONAL	0.8724%
	B	7380 BUS DRIVERS	0.8724%
	C	8810 CLERICAL	0.8724%
	D	9101 ALL OTHERS	0.8724%

For example, if the Workers' Compensation letter provides a rate of .001792, move the decimal two places to the right and enter that number in the **Net Rate** field.

Codes, descriptions, and rates are LEA-specific.

**Note:** The number of months in the contract should correlate with the number of workers' compensation payments. For example, if the employee has a 10-month contract, then the employee will have ten workers' compensation payments for the year.

Use the User Created Reports to verify the number of Workers' Compensation remaining payments.

If the report displays an incorrect number of remaining payments, use the [Payroll > Utilities > Mass Update > Employee](#) tab to reset the number of remaining payments.

15. [Recalculate the state minimum salary.](#)

### **Recalculate the state minimum salary**

**Log on to the current year pay frequency.**

**Note:** For Districts of Innovation, the statutory minimum days should reflect 187 days. The statutory minimum days should not be less than 187 (e.g., 177, 182, etc.). You can use the Mass Update utility to change the number of days to 187 and calculate the state min salary. Then, use the Mass Update utility to replace the accurate number of days.

If your LEA is a District of Innovation or operates on a non-standard (4-day) workweek, contact your regional ESC consultant for additional assistance, as extra steps are required.

- Verify that all employee master distribution records have matching accounts in Finance.

If there are account codes on the report that do not exist in Finance, perform one of the following steps:

- If there are accounts that have a 5 for July and August start employees, perform a mass update of Payroll distributions. You can either mass update records by fund/year using the [Payroll > Utilities > Mass Change Payroll Account Codes > Mask Crosswalk](#) page **OR** mass update all records by using the **Fiscal Year** field on the [Payroll > Utilities > Mass Update > Employee](#) tab. Employees who are paid out of federal funds may need their distributions reviewed and changed for a different fund year, if necessary. For example, federal funds may still be available for the previous year.
- If there are other accounts that need to be added, add them on the [Finance > Maintenance > Create Chart of Accounts](#) page.

After all of the account codes are added, generate the [Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#) report again. If all account codes exist, a blank report should be generated.

18. Generate the Employee Payroll Listing report.

### Generate the Employee Payroll Listing report

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#) **OR**

When primary job (P) is not selected, all jobs are displayed with one account per job with a total for all jobs displayed. The criteria for which account is chosen to display for a job are as follows:

- The account with the highest percent.
- If there is more than one account with the highest percent for a job, the lowest account is displayed.

Complete the applicable report parameters and generate the report. Print and/or save this report and review it for accuracy. Verify that all current employees are listed.

27. [\(If necessary\) Mass update employee experience.](#)

### **(If necessary) Mass update employee experience**

[Personnel > Utilities > Mass Update > Employee](#)

If your LEA has not already done so, increment the years of total professional and non-professional experience, and the years of district professional and non-professional experience.

Additionally, you can use this page to increment the prior years of teaching experience for those individuals in a teaching role. The **Prior Teaching Experience** is the total number of

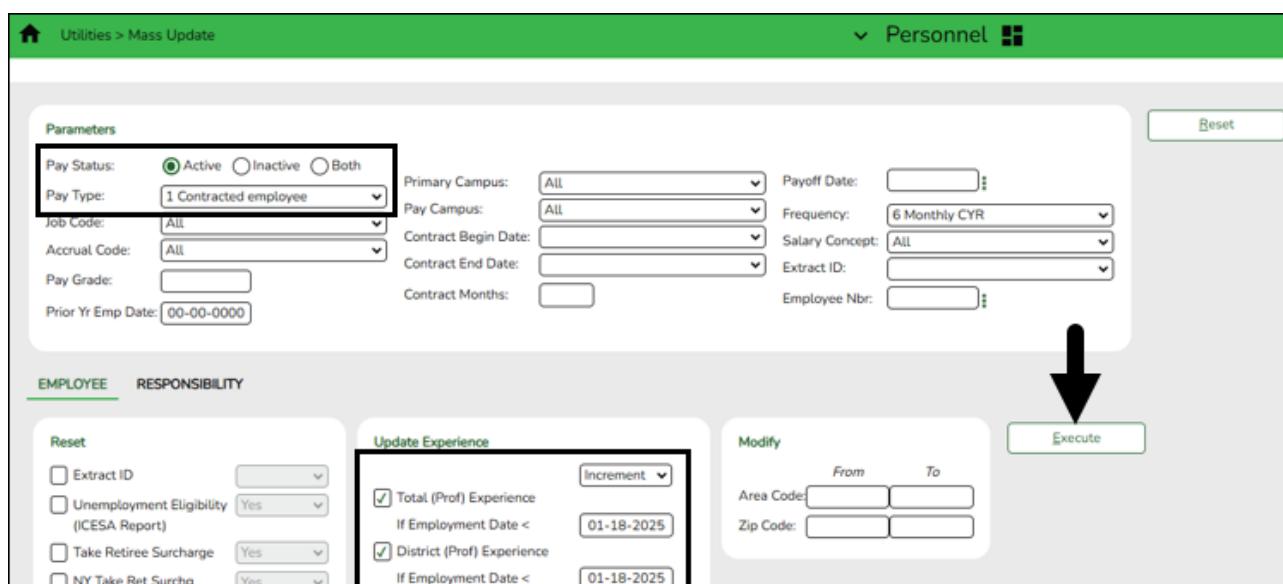

years that an individual has previously held a teaching position in one or more education institutions and is collected during the PEIMS Core Collection: Class Roster.

If this process has not already been completed, it must be done at this time. It is highly important to confirm that it is completed.

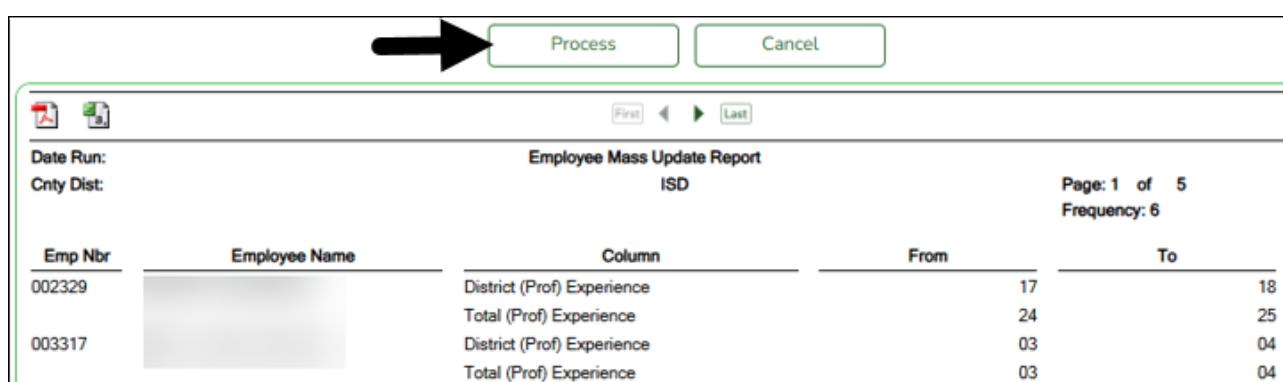

- The Commissioner's Rules on Creditable Years of Service, Title 19, Texas Administrative Code (TAC) §153.1021, serve as a baseline for minimum requirements when determining an individual's years of experience.
- The **Prof Experience Yrs** and **Non-Prof Experience Yrs** should be incremented in separate instances.

### Total (Prof) Experience:

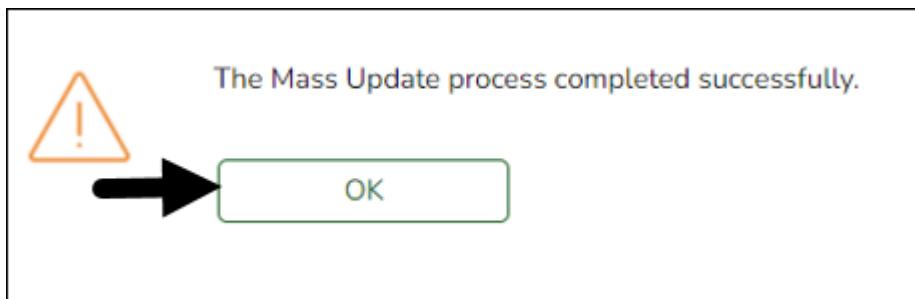

The screenshot shows the 'Utilities > Mass Update' screen. In the 'Parameters' section, 'Pay Status' is set to 'Active'. In the 'EMPLOYEE' tab, under 'Update Experience', 'Total (Prof) Experience' is checked with 'If Employment Date <' set to '01-18-2025'. In the 'RESPONSIBILITY' tab, 'District (Prof) Experience' is checked with 'If Employment Date <' set to '01-18-2025'. A large black arrow points from the 'Execute' button to the 'Employee Mass Update Report' screen below.

□ Click **Execute**. The Employee Mass Update Report is displayed.

The screenshot shows the 'Employee Mass Update Report' table. The table has columns for 'Emp Nbr', 'Employee Name', 'Column', 'From', and 'To'. For Emp Nbr 002329, the data is: Employee Name (redacted), Column 'District (Prof) Experience' From 17 To 18, Column 'Total (Prof) Experience' From 24 To 25. For Emp Nbr 003317, the data is: Employee Name (redacted), Column 'District (Prof) Experience' From 03 To 04, Column 'Total (Prof) Experience' From 03 To 04.
