CAUTION: Before addressing the steps in this guide:

- If applicable or if your LEA uses monthly accruals, ensure that the [End-of-Year \(EOY\) Accruals for June Year-End LEAs](#) process is complete.
- Ensure that the [Finance EOY Process](#) is complete.

The purpose of this document is to guide you through the necessary steps to process the first payroll of the school year for July start LEAs. All steps in this guide are based on the [First Payroll of the School Year \(September Start LEAs\)](#) guide. This version has been specifically formatted for July Start LEAs.

Note: Certain steps in this guide must be reviewed again as each group of employees begins their new pay cycle (e.g., July, August, and September contract start dates).

In addition to the above processes, the following steps should be completed prior to continuing with this process.

- Update termination dates and reasons on the [Personnel > Maintenance > Employment Info](#) page for all employees who are no longer with the LEA.
- Verify that the budget is moved to Finance.

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

EOY Flowchart for July Start LEAs

First Payroll of the School Year (July Start LEAs)

Reminder: The steps in this guide need to be addressed again in August for all employees with August contracts. Reference the [First Payroll of the School Year \(September Start LEAs\)](#) guide.

1. [Verify finance options.](#)

Verify finance options

[Finance > Tables > District Finance Options](#)

Verify that the **School Year** field contains the new school year.

Note: If the new school year is not displayed, stop and complete the [Finance End-of-Year Process](#) first. Do not update the **School Year** field until the Finance End-of-Year (EOY) process is complete.

The screenshot shows the 'District Finance Options' form. The 'FINANCE OPTIONS' tab is active. The 'School Year' field is set to '2025-2026'. Other fields include 'Current Finance Fiscal Year' (6) and 'Previous Year File ID' (5). The 'Purchasing Options' section has 'Print Federal ID Number on PO' and 'Use Automatic CYR Requisition Number Assignment' checked.

2. [Verify payroll frequency.](#)

Verify payroll frequency

Each time you prepare to move a group of employees (July contracts, August contracts, and September contracts), be sure to start with this step to ensure you are starting in the correct frequency.

In Payroll, verify that you are in the next year frequency that is associated with your current year frequency. If not:

- Click **Change**.
- Select *Next Year*.
- Click **Apply**.

The screenshot shows the 'Payroll' form. The 'Year' dropdown menu is open, showing 'Current Year' and 'Next Year' options. The 'Frequency' is set to '6 - Monthly CYR'. An arrow points to the 'Apply' button.

3. [Prepare NYR payroll for move to CYR.](#)

Prepare NYR payroll for move to CYR

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > User Created Reports](#)

Generate a User Created Report (or another preferred payroll report) to:

- Verify that all employee data is correct prior to moving the next year payroll to the current year.
- Identify all employees with 11, 12, and/or 13 in the **# of Months in Contract** field on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab as these are the employees that will be moved. Before July payroll, the first group should be 12-month employees with July contracts, before August payroll, the second group should be 11-month employees with August contracts, and then before September payroll, it should be 10-month employees with September contracts.

Note: If changes are required, you can continue to update data when it is moved to the Current Year frequency.

- Verify payoff dates in the next year payroll frequency. You may use the above criteria to copy employee data from next year to current year.
- Verify that Distribution information has been updated for those employees being moved. It is important that only the specified groups are moved to the Current Year frequency at the appropriate times (July contracts before July payroll, August contracts before August payroll, and September contracts before the September payroll), as each group starts their pay in the new fiscal year.

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#)

Generate the HRS6150 report to verify the pay status of applicable employees. Employees being moved must have an *Active* pay status. Ensure that any employees who should not be moved at this time are set to *Inactive*. For example, when moving the July contracts, you want the 11- and 10-month employees to be set to *Inactive* at that time. As you move each group, ensure all employees who do not need to be moved to the Current Year frequency are set to *Inactive*. The status is updated in the [Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#) tab.

Print and/or save this report.

[Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#)

Use the Pay Info tab to inactivate an employee. Inactivate those employees who do not need to be moved such as employees whose contract days begin in July and/or August (11- and 12-month contracts) or “filler” employees who are used only for budget purposes (i.e., vacancies).

- Retrieve the employee.
- In the **Pay Status** field, select *2 Inactive*.
- Click **Save**.

4. [Copy NYR tables to CYR.](#)

Copy NYR tables to CYR

Do not copy all tables at this time. Review only for employees with July contracts who receive their first paycheck in July. Only copy tables that are applicable to the group of employees currently being moved. For example, when updating Current Year payroll information for the July employees, only move specific table information for July contracts. This process will be repeated in August for employees with August contracts and then in September for employees with September contracts.

Log on to the next year payroll frequency.

[Payroll > Next Year > Copy NYR Tables to CYR](#)

Copy the necessary school calendar information from Next Year to Current Year. The school calendars should be moved at the same time as a specific group of employees are moved from Next Year to Current Year. For example, if you are moving July contract employees to the current year payroll, only move workday/school calendars for July contract employees to current year payroll, etc.

CAUTION: Take caution when moving tables from the Next Year frequency to the Current Year. Keep in mind that selecting the main checkbox indicates that you want all tables selected for the move; however, you can select the ellipsis for each table and select more specific options.

- Click **Select All Tables** to select all of the tables.

OR

- Select next to the table(s) you want to include.
- Select again to unselect a table.

Click  for the **School Calendar**, **Extra Duty Pay**, and **Job Code** fields to open a pop-up window containing the corresponding tables. Select the applicable tables and click **OK** to populate the selected tables in the applicable fields.

Note: If you receive a database access error referencing your Summer School Calendar, click **OK**. This error is generated when a Summer School Calendar exists in the current year payroll frequency but does not exist in the next year payroll frequency. Select the tables you previously selected again, but in this instance, select the individual School Calendars to be copied.

Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports.](#)

Frequency	Calendar Code	Description
6	01	187 DAYS
6	02	197 DAYS
6	03	182 DAYS

A message is displayed with the table names and the number of rows that were copied. Click **OK**.

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

Note: When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.

5. [Copy active staff to the CYR.](#)

Copy active staff to the CYR

Complete this step only for employees with July contracts who receive their first paycheck in July. Use the list of employees from the User Created report run on Step 3. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

Log on to the next year payroll frequency.

[Payroll > Next Year > Copy NYR Staff to CYR](#)

Copy active employees with July contracts to the current year. You can select specific employees to copy using the following parameters: **Contract Months, Contract Begin Date, Contract End Date, Payoff Date, Extract ID,** or **Employee Number.**

CAUTION: Use caution when moving employees from the Next Year frequency to Current Year. Be sure to use the applicable and specific parameters to only move employees that need to be moved at the time. Otherwise, Current Year data may be unintentionally overwritten for employees.

Under **Options**, select the appropriate option:

Field	Description
Include Employees with Termination Date	Select to copy employees with a termination date. Leave blank to exclude employees with termination dates from the current year records.
Carry over employee deductions	Select to copy employee payroll deductions (e.g., insurance, dues) from the next year to the current year. Leave blank to exclude the employee payroll deductions from the current year records.
Only process employee deductions	Select to copy only the selected employee deductions from the next year to the current year. If this field is selected, Carry over employee deductions is cleared (if selected).

Select **Preview Changes**.

Click **Execute**. Review the list and click **Process**.

6. [Change to the current year frequency.](#)

Change to the current year frequency

In Payroll, change to the current year frequency that is associated with your next year frequency (i.e., F = 6).

- Click **Change**.
- Select *Current Year*.
- Select a pay frequency.
- Click **Apply**.

The following steps should be performed in the current year frequency unless otherwise noted.

7. Update District HR options.

Update District HR options

Payroll > Tables > District HR Options

Update only the the **Payroll Clearing Fund/Year** field.

The **Payroll Clearing Fund/Year** field should be set to 163/X or 863/X. If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.

Reminder: The **First Pay Date of the School Year** field should be a September pay date, even for July start LEAs. Do not change this date at this time, it will be updated in a later step.

The screenshot shows the 'District HR Options' form. The 'Payroll Clearing Fund/Year' field is highlighted with a black box and contains the value '163/X'. Other fields include TRS District ID (4321), TWC District ID (987654321), and various checkboxes for benefits and payroll options. The 'First Pay Date of School Year' section shows Payroll 6 set to 09-25-2024.

CAUTION: No payrolls should be processed for the new (upcoming) school year prior to the date populated in **First Pay Date of the School Year** field.

Additional first pay date notes

Fiscal Year versus School Year

- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.
 - If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2024, pay and accruals are updated in the 2025 school YTD and the 2024 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
 - If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2025 school YTD and the 2025 TRS YTD. If the employee accrues, a 2025 school YTD is also created.

Click **Save**.

8. [Complete fund to grant information.](#)

Complete fund to grant information

Log on to the current year payroll frequency.

[Personnel > Tables > Salaries > Fund to Grant](#)

IMPORTANT: All applicable federal grants must have a fund to grant code listed in the **TRS Grant Cd** field on this tab. If not, TRS federal grant care and TRS federal grant deposit amounts **will not** be calculated for that specific fund during payroll.

Verify that the applicable federal grant funds (200-300) have a two-digit TRS grant code. Update this table as needed.

Exception: If using the TRS Child Nutrition worksheet for TRS reporting, the child nutrition funds (240 and 242) should NOT have a fund to grant code assigned.

This generates salaries for the TRS 3 and TRS 489 reports.

In order for a fund to be displayed on this page, the fund must exist in an account code on the Finance Chart of Accounts. The codes are LEA-specific.

9. [Generate the Account Code Comparison report.](#)

Generate the Account Code Comparison report

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#)

Complete the applicable report parameters and generate the report. Print and/or save this report and review it for accuracy. Verify for the applicable group of employees currently being moved from NY payroll to CY.

IMPORTANT: If a distribution (fund) for an employee was continued during the Finance EOY Process (keeping the same fiscal year - ex. 211/4 in 23-24 is 211/4 in 24-25), be sure that the distribution listed has the correct fiscal year. It is important to review/verify distribution information for all employees (especially the fiscal year) for July payroll.

- o Review the report and correct all of the errors.
- o Verify that all employee master distribution records have matching accounts in Finance.

If there are account codes on the report that do not exist in Finance, perform one of the following steps:

- o If there are accounts that have a 5 for July and August start employees, perform a mass update of Payroll distributions. You can either mass update records by fund/year using the [Payroll > Utilities > Mass Change Payroll Account Codes > Mask Crosswalk](#) page **OR** mass update all records in the Current Year by using the **Fiscal Year** field on the [Payroll > Utilities > Mass Update > Employee](#) tab.
 - Employees who are paid out of federal funds may need their distributions reviewed and changed for a different fund year, if necessary. For example, federal funds may still be available for the previous year.
 - If your LEA accrues monthly, many employees might be paid from accrued funds for July and August. The Mass Update utility assists with updating the Distribution tab for all employees who are not paid from accruals.
- o If there are other accounts that need to be added, add them on the [Finance > Maintenance > Create Chart of Accounts](#) page.

After all of the account codes are added, generate the [Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#) report again. If all account codes exist, a blank

report should be generated.

10. [Generate the Employee Payroll Listing report.](#)

Generate the Employee Payroll Listing report

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#) or a User Created Report

The report provides a single-spaced list of employees that includes the tax information, contract information, pay rates, and primary job account code. Print the report by employee name for the entire district or group the report by campus. Include all employees, those with an active status or inactive status. When primary job (P) is not selected, all jobs are displayed with one account per job with a total for all jobs displayed. The criteria for which account is chosen to display for a job are as follows:

- The account with the highest percent.
- If there is more than one account with the highest percent for a job, the lowest account is displayed.

Complete the applicable report parameters and generate the report. Print and/or save this report and review it for accuracy. Review for employees with July contracts. Verify that all current employees are listed.

Verify that distribution information is updated for each applicable group of employees who are starting their pay in the new fiscal year when being moved from NY payroll to CY.

11. Correct necessary payroll errors.

Correct necessary payroll errors

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Utilities > Pre-Edit Payroll Data](#)

Correct the applicable payroll errors for the next upcoming pay date.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- In the **Pay Date** field, select the appropriate pay date. (LEA's next upcoming pay date)
- Click **Execute**. Review the report.

Be sure to review and correct errors as needed and repeat the process until all necessary errors are corrected. There is a possibility that not all errors require a correction.

12. [Address leave.](#)

Address leave

If applicable at this time, complete this step only for employees with July contracts who receive their first paycheck in July. Follow your LEA's local policy guidelines to determine when to update leave balances for employees with July contracts as it may be updated later.

Depending on when leave is provided, this process may be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Utilities > Mass Update > Leave](#)

In the current year payroll frequency, generate the [Payroll > Reports > Leave Information Reports > HRS7350 - Leave Status Report](#) for active employees and exclude substitutes. Print and/or save this report and review it for accuracy.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Zero Leave Values for Employees**.
- Select **Leave Earned**, **Leave Used**, and **End Balance** for all leave types you want to zero out completely and not carry forward ending balances.
- Click **Execute**.
- Review and print the report.
- If the report is accurate, click **Process** to complete the changes.

2. This step automatically adds leave types to active employees who do not have the leave type assigned on their leave balance record. This step must be completed before leave is mass incremented in step 3.

Execute

Note: If you have a maximum balance designated on the leave type table, this step will not allow the leave balance to exceed the maximum number set on the leave type table.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Increment Leave Earned to Employees**.
- Select **Leave Earned** for the applicable leave types (as defined in your local policy).
- In the **Increment** field, enter the number of days to increment.
- Click **Execute**.
- Review and print the report. The report includes a list of those employees who have reached a maximum of any leave type.
- If the report is accurate, click **Continue**.
- The second report displays the newly incremented leave earned and the new ending balances. Click **Process**.

The screenshot shows a software interface with a 'Process' button highlighted by a black arrow. Below the button is a report window titled 'Increment Leave Earned for Employees' with a table of employee data. The report includes fields for Date Run, Cnty Dist, and Page: 1 of 7. The table has columns for Emp Nbr, Employee Name, Leave Type, Original Earned, New Earned, Original End Bal, and New End Bal.
