In addition to the above processes, the following steps should be completed prior to continuing with this process.

- Update termination dates and reasons on the [Personnel > Maintenance > Employment Info](#) page for all employees who are no longer with the LEA.
- Verify that the budget is moved to Finance.

## First Payroll of the School Year (July Start LEAs)

**Reminder:** The steps in this guide need to be addressed again in August for all employees with August contracts.

1. [Verify finance options](#).

### Verify finance options

[Finance > Tables > District Finance Options](#)

Verify that the **School Year** field contains the new school year.

**Note:** If the new school year is not displayed, stop and complete the [Finance End-of-Year Process](#) first. Do not update the **School Year** field until the Finance End-of-Year (EOY) process is complete.

2. [Verify payroll frequency.](#)

## Verify payroll frequency

Each time you prepare to move a group of employees (July contracts, August contracts, and September contracts), be sure to start with this step to ensure you are starting in the correct frequency.

In Payroll, verify that you are in the next year frequency that is associated with your current year frequency. If not:

- Click **Change**.
- Select **Next Year**.
- Click **Apply**.

3. [Prepare NYR payroll for move to CYR.](#)

## Prepare NYR payroll for move to CYR

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > User Created Reports](#)

Generate a User Created Report (or another preferred payroll report) to:

- Verify that all employee data is correct prior to moving the next year payroll to the current year.
- Identify all employees with 11, 12, and/or 13 in the **# of Months in Contract** field on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab as these are the employees that will be moved. Before July payroll, the first group should be 12-month employees with July contracts, before August payroll, the second group should be 11-month employees with August contracts, and then before September payroll, it should be 10-month employees with September contracts.

**Note:** If changes are required, you can continue to update data when it is moved to the Current Year frequency.

- Verify payoff dates in the next year payroll frequency. You may use the above criteria to copy employee data from next year to current year.
- Verify that Distribution information has been updated for those employees being moved. It is important that only the specified groups are moved to the Current Year frequency at the appropriate times (July contracts before July payroll, August contracts before August payroll, and September contracts before the September payroll), as each group starts their pay in the new fiscal year.

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#)

Generate the HRS6150 report to verify the pay status of applicable employees. Employees being moved must have an *Active* pay status. Ensure that any employees who should not be moved at this time are set to *Inactive*. For example, when moving the July contracts, you want the 11- and 10-month employees to be set to *Inactive* at that time. As you move each group, ensure all employees who do not need to be moved to the Current Year frequency are set to *Inactive*. The status is updated in the [Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#) tab.

Print and/or save this report.

[Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#)

Use the Pay Info tab to deactivate an employee. Deactivate those employees who do not need to be moved such as employees whose contract days begin in July and/or August (11- and 12-month contracts) or “filler” employees who are used only for budget purposes (i.e., vacancies).

- Retrieve the employee.
- In the **Pay Status** field, select **2 Inactive**.
- Click **Save**.

4. [Copy NYR tables to CYR.](#)

### Copy NYR tables to CYR

Do not copy all tables at this time. Review only for employees with July contracts who receive their first paycheck in July. Only copy tables that are applicable to the group of employees currently being moved. For example, when updating Current Year payroll information for the July employees, only move specific table information for July contracts. This process will be repeated in August for employees with August contracts and then in September for employees with September contracts.

**Log on to the next year payroll frequency.**

[Payroll > Next Year > Copy NYR Tables to CYR](#)

Copy the necessary school calendar information from Next Year to Current Year. The school calendars should be moved at the same time as a specific group of employees are moved from Next Year to Current Year. For example, if you are moving July contract employees to the current year payroll, only move workday/school calendars for July contract employees to current year payroll, etc.

**CAUTION:** Take caution when moving tables from the Next Year frequency to the Current Year. Keep in mind that selecting the main checkbox indicates that you want all tables selected for the move; however, you can select the ellipsis for each table and select more specific options.

**Note:** If you receive a database access error referencing your Summer School Calendar, click **OK**. This error is generated when a Summer School Calendar exists in the current year payroll frequency but does not exist in the next year payroll frequency. Select the tables you previously selected again, but in this instance, select the individual School Calendars to be copied.

□ Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports](#).

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

**Note:** When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.

## 5. [Copy active staff to the CYR](#).

### **Copy active staff to the CYR**

Complete this step only for employees with July contracts who receive their first paycheck in July. Use the list of employees from the User Created report run on Step 3. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

**Log on to the next year payroll frequency.**

Copy active employees with July contracts to the current year. You can select specific employees to copy using the following parameters: **Contract Months**, **Contract Begin Date**, **Contract End Date**, **Payoff Date**, **Extract ID**, or **Employee Number**.

**CAUTION:** Use caution when moving employees from the Next Year frequency to Current Year. Be sure to use the applicable and specific parameters to only move employees that need to be moved at the time. Otherwise, Current Year data may be unintentionally overwritten for employees.

The **Payroll Clearing Fund/Year** field should be set to 163/X or 863/X. If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.

## Additional first pay date notes

### Fiscal Year versus School Year

- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.
  - If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2024, pay and accruals are updated in the 2025 school YTD and the 2024 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
  - If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2025 school YTD and the 2025 TRS YTD. If the employee accrues, a 2025 school YTD is also created.

Click **Save**.

### 8. Complete fund to grant information.

#### Complete fund to grant information

**Log on to the current year payroll frequency.**

[Personnel > Tables > Salaries > Fund to Grant](#)

**IMPORTANT:** All applicable federal grants must have a fund to grant code listed in the **TRS Grant Cd** field on this tab. If not, TRS federal grant care and TRS federal grant deposit amounts **will not** be calculated for that specific fund during payroll.

Verify that the applicable federal grant funds (200-300) have a two-digit TRS grant code. Update this table as needed.

**Exception:** If using the TRS Child Nutrition worksheet for TRS reporting, the child nutrition funds (240 and 242) should NOT have a fund to grant code assigned.

This generates salaries for the TRS 3 and TRS 489 reports.

In order for a fund to be displayed on this page, the fund must exist in an account code on the Finance Chart of Accounts. The codes are LEA-specific.

**IMPORTANT:** If a distribution (fund) for an employee was continued during the Finance EOY Process (keeping the same fiscal year - ex. 211/4 in 23-24 is 211/4 in 24-25), be sure that the distribution listed has the correct fiscal year. It is important to review/verify distribution information for all employees (especially the fiscal year) for July payroll.

- Verify that all employee master distribution records have matching accounts in Finance.

If there are account codes on the report that do not exist in Finance, perform one of the following steps:

- If there are accounts that have a 5 for July and August start employees, perform a mass update of Payroll distributions. You can either mass update records by fund/year using the [Payroll > Utilities > Mass Change Payroll Account Codes > Mask Crosswalk](#) page **OR** mass update all records in the Current Year by using the **Fiscal Year** field on the [Payroll > Utilities > Mass Update > Employee](#) tab.
  - Employees who are paid out of federal funds may need their distributions reviewed and changed for a different fund year, if necessary. For example, federal funds may still be available for the previous year.
  - If your LEA accrues monthly, many employees might be paid from accrued funds for July and August. The Mass Update utility assists with updating the Distribution tab for all employees who are not paid from accruals.
- If there are other accounts that need to be added, add them on the [Finance > Maintenance > Create Chart of Accounts](#) page.

After all of the account codes are added, generate the [Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#) report again. If all account codes exist, a blank

Review the following pre-post reports from the Run Payroll process prior to running your actual payroll (important for July, August, and September):

- [Personnel > Reports > Personnel Reports > HRS1000 - Roster of Personnel](#): Review and save for the auditors.
- [Payroll > Reports > Payroll Reports > HRS2400 - Bank Account Listing](#): Review for accuracy.

Address the following steps when preparing for the September payroll. Review Steps 3-5, 9-12, and 14-17 of this document before continuing to the following steps.

1. [Update District HR options](#).

## Update District HR options

[Payroll > Tables > District HR Options](#)

Verify that the following fields are updated. These fields may already be updated.

- The **Payroll Clearing Fund/Year** field should be set to 163/X or 863/X. If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.
- The **School Year for PEIMS Codes** field should be set to 2026.

**CAUTION:** No payrolls should be processed for the new (upcoming) school year prior to the **First Pay Date of the School Year**.

□ Under **First Pay Date of School Year:**

- Update the first pay date of the new school year for each payroll frequency. The date(s) must match the first payroll date(s) indicated on the pay dates table.
- In the **Payroll 4, 5, 6** fields, enter the first pay date for each of the three pay frequency fields in the MM-DD-YYYY format. Once the pay date is entered, it should not be changed until the next school year. The entered date should represent a payroll that will actually be processed, supplemental or regular. If a date is entered and no payroll is actually posted using that date, the system will have difficulty identifying when the new school year began. This could affect how data is handled in the new school year.

[Additional first pay date notes](#)

**Fiscal Year versus School Year**

- If your fiscal year is July through June and the 10-month employees are paid from September through August, this date should be September.
- If your fiscal year is July through June and all employees (including 10-month employees)

are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

- If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2024, pay and accruals are updated in the 2025 school YTD and the 2024 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
- If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2025 school YTD and the 2025 TRS YTD. If the employee accrues, a 2025 school YTD is also created.
- If your fiscal year is September through August and the 10-month employees are paid from September through August, this date should be September.
- If end-of-year payroll accruals are performed for August days worked and the first paycheck is in September, the first pay date should be September.
- All non-standard employees (those employees who receive their first check in July or August) should have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

This first pay date of the school year is used to determine:

- The school year to be used for the school YTD records for regular and non-standard employees. If the employee is a non-standard employee (**TRS Year** is selected), and the contract begin date is greater than this date, then the payroll calculation stores the accrual amounts in the next year school YTD record.
- The school year that should be used for the TRS rates and employee TRS record.
- The pay history records that should be used for accruals.
- The leave transmittals that should be accumulated to determine if the leave duration has been met for the school year.

#### Notes:

If the LEA does not use one of the pay frequencies, access to that field is not allowed. If a user does not have security access to a pay frequency, access to that field is not allowed.

When the first pay date of the school year is changed, if any message displayed includes information about contacting your regional consultant, there are processed pay dates where amounts need to be moved from one school year to another. If these amounts are not moved, it can adversely affect school YTD historical amounts, TRS historical amounts, and reporting, workers' compensation historical amounts and reporting, and payroll accrual calculations. **Do not** proceed without addressing this issue.

Click **Save**.

2. Enter school year pay dates.

## Enter school year pay dates

[Payroll > Tables > Pay Dates](#)

Enter pay dates for the new school year and click **Save**.

If your LEA accrues, verify the pay dates from this table match the pay dates on your accrual calendar.

3. (If applicable) Complete the accrual calendar.

### (If applicable) Complete the accrual calendar

**Log on to the current year pay frequency.**

[Payroll > Tables > Accrual Calendars > Accrual Calendar](#)

**August year-end LEAs** - If your LEA accrues monthly, complete this step if it is not already completed.

Enter the new pay dates and accrual days for all applicable accrual codes. The total number of days should equal the number of days employed for that group of employees.

Accrual Code	Total Days Worked
A	187.0
B	207.0

Pay Date	Days Worked
08-31-2025	20.00
09-25-2025	21.00
10-24-2025	22.00
11-25-2025	15.00
12-19-2025	15.00
01-23-2026	20.00
02-25-2026	19.00
03-25-2026	17.00
04-24-2026	21.00
05-25-2026	17.00
06-25-2026	0.00
07-24-2026	0.00
08-25-2026	0.00

- For August year-end LEAs, start with your accrual run date (08-31-20XX) and enter the number of August workdays.
- Continue adding pay dates and days worked for the remainder of the school year. The dates must equal the dates in your pay dates table. All pay dates should be entered even if zero days are accrued for that month. This information is LEA-specific.

**Note:** For a standard 187-day calendar in a monthly pay frequency, there should be 13 entries including the date for the August Accrual process and the 12 pay dates including the months that may have zero workdays.

#### 4. Verify/update TRS rates.

#### Verify/update next year TRS rates

**Log on to the CYR payroll frequency.**

## 6. Verify/update Workers' Compensation rates.

### Verify/update Workers' Compensation rates

[Payroll > Tables > Tax/Deductions > Workers' Compensation](#)

Verify that the workers' compensation rates are accurate for the new school year. If not, update the rates.

Delete	Code	Description	Net Rate
	A	8868 PROFESSIONAL	0.8724%
	B	7380 BUS DRIVERS	0.8724%
	C	8810 CLERICAL	0.8724%
	D	9101 ALL OTHERS	0.8724%

For example, if the Workers' Compensation letter provides a rate of .001792, move the decimal two places to the right and enter that number in the **Net Rate** field.

Codes, descriptions, and rates are LEA-specific.

**Note:** The number of months in the contract should correlate with the number of workers' compensation payments. For example, if the employee has a 10-month contract, then the employee will have ten workers' compensation payments for the year.

Use the User Created Reports to verify the number of Workers' Compensation remaining payments.

If the report displays an incorrect number of remaining payments, use the [Payroll > Utilities > Mass Update > Employee](#) tab to reset the number of remaining payments.

7. [Recalculate the state minimum salary.](#)

### **Recalculate the state minimum salary**

**Log on to the current year pay frequency.**

**Note:** For Districts of Innovation, the statutory minimum days should reflect 187 days. The statutory minimum days should not be less than 187 (e.g., 177, 182, etc.). You can use the Mass Update utility to change the number of days to 187 and calculate the state min salary. Then, use the Mass Update utility to replace the accurate number of days.

If your LEA is a District of Innovation or operates on a non-standard (4-day) workweek, contact your regional ESC consultant for additional assistance, as extra steps are required.

10. [\(If necessary\) Mass update employee experience.](#)

### **(If necessary) Mass update employee experience**

[Personnel > Utilities > Mass Update > Employee](#)

**Note:** This process is typically not performed until before the start of your September payroll. You must verify that service records have already been run before proceeding.

If this process is delayed, ensure that employee experience is updated for all applicable groups. It is extremely important to update employee experience on account of the Teacher Retention Allotment.

If necessary, increment the years of total professional and non-professional experience, and the years of district professional and non-professional experience for employees with July contracts.

Additionally, you can use this page to increment the prior years of teaching experience for those individuals in a teaching role. The **Prior Teaching Experience** is the total number of years that an individual has previously held a teaching position in one or more education institutions. This information collected during the PEIMS Core Collection: Class Roster.

If this process has not already been completed, it must be done at this time. It is highly important to confirm that it is completed.

- The Commissioner's Rules on Creditable Years of Service, Title 19, Texas Administrative Code (TAC) §153.1021, serve as a baseline for minimum requirements when determining an individual's years of experience.
- The **Prof Experience Yrs** and **Non-Prof Experience Yrs** should be incremented in separate instances.
