ASCENDER - First Payroll of the School Year (July Start LEAs)

Created: 10/16/2023

Reviewed: In Progress

Revised: In Progress

CAUTION: Do not begin this process until the following processes are complete:

- If applicable or if your LEA processes monthly accruals, ensure that the [End-of-Year \(EOY\) Accruals for June Year-End LEAs](#) process is complete.
- Ensure that the [Finance EOY Process](#) is complete.

The purpose of this document is to guide you through the necessary steps to process the first payroll of the school year for July start LEAs. All steps in this guide are based on the [First Payroll of the School Year \(September Start LEAs\)](#) guide. This version has been specifically formatted for July Start LEAs.

Note: Certain steps in this guide must be reviewed again as each group of employees begins their new pay cycle (e.g., July, August, and September contract start dates).

Verify that the budget is moved to Finance before continuing with this process.

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Before You Begin

[Terms:](#)

Terms:

Term	Description
CYR payroll frequency	Current year payroll frequency
LEA (Local Education Agency)	Refers to the educational entity (e.g., charter, district, etc.).
Non-standard employee	An employee who receives their first paycheck in July or August should have the TRS Year selected on the Payroll > Maintenance > Staff Job/Pay Data > Job Info tab.
NYR payroll frequency	Next year payroll frequency

[Payroll/Personnel Verification Items:](#)

Payroll/Personnel Verification Items

Review and address the applicable Payroll and Personnel items. These items should be reviewed and completed before each group of employees begins receiving their new pay for the new school year.

Run user-created reports to verify the following information.

Payroll

For payroll items, run the User-Created Report in Next Year Payroll.

[Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#)

- Verify TRS eligibility using the View Employee Information webpage in the TRS RE Portal.
- Verify the employees who are coded Non-TRS eligible (should only be seasonal, subs, retirees, etc.)
- Reference the [FICA/Medicare - Quick Reference](#) chart to verify FICA eligibility for all employees coded Y, specifically substitutes who were hired as full-time employees (e.g., teacher). (only subs, seasonal, not students)

[Payroll > Maintenance > Staff Job/Pay Data > Job Info](#)

- Verify the **Payoff Date** for active employees reflect June, July, or August.
- Verify the contract **Begin** and **End Dates** are within the applicable school year.
- Verify the **Number of Days Employed**.
- Verify the **Number of Months** in the contract.
- Verify the **Number of Payments** and **Number of Remaining Payments**.
- Verify the **State Min Days** field for all employees including support staff. Select the number of days closest to their **# of Days Employed**.
- Verify salaries and State Minimum salary by either running a user-created report or the [Payroll > Reports > Payroll Information Reports > HRS6400 - Salary Verification Report](#) with **Pay Type 1** selected.

[Payroll > Maintenance > Staff Job/Pay Data > Distributions](#)

- Verify that distributions are accurate and reflect the correct fiscal year.
- Verify salaries and distributions. Verify that **Expense 373** is selected for all applicable employees.

- Verify that the applicable distributions have a federal **Fund to Grant Code** (240 may not have a grant code).

[Payroll > Maintenance > Staff Job/Pay Data > Deductions](#)

- Verify new deductions. **Deduction Codes** can either be manually entered or imported.
- Review all retiree records for applicable surcharges.

Payroll - General Reminders

- Verify unemployment. As a reminder, superintendent wages are subject to unemployment. Student workers are the only exempt exceptions.
- Verify next year payroll to budget.
- Use the August TRS Reporting Process guide to address TRS reporting for August.
- If applicable and not addressed in the August TRS Reporting Process, address August adjustment days.
- If an employee is no longer employed, ensure that appropriate end dates have been added to all applicable pages, including the contract **End Date**.

Personnel

[Personnel > Maintenance > Staff Demo > Service Record](#)

- Verify that service records were created and/or updated with leave for the latest completed school year.

[Personnel > Maintenance > Employment Info](#)

- Verify **Employee Status** (*Employed or Not Employed*). If the employee is no longer employed, the **Termination Date** must be populated. In addition, verify that an ED90 has been submitted for non-returning employees.
- If an employee is no longer employed, ensure that appropriate end dates have been added to applicable areas:
 - **Auxiliary Role ID**
 - **Paraprofessional Certification**
 - [Personnel > Maintenance > Staff Demo > Responsibility](#)
 - [Personnel > Maintenance > TSDS Days Employed Set](#)
- Verify that the **Original Employment Date** or **Latest Re-Employ Date** fields are populated.
- Verify the **Percent Day Employed** (Did employees change from part-time/full-time?).
- Verify changes to the **Employment Type**, **Retiree Employment Type**, and/or **Sub Type** fields.
- Review all retiree records for applicable surcharges.
- Subs - Run a user-created report to verify the following information:
 - **TRS Position Cd**
 - **Contract Begin Dt** and **Contract End Dt** (First day when sub begins work for the school year through last day of school)
 - **FICA Eligible**
 - No TRS
- Retirees - Run a user-created report to verify the following information:
 - **Retiree Employment Type**

- **TRS Position Cd**
- **Contract Begin Dt** and **Contract End Dt** (First day when retiree begins work for the school year through last day of school)
- **FICA Eligible**
- No TRS
- Ensure that applicable TSDS/PEIMS reporting areas are set up for applicable employees. All business-related data that is reported for Fall PEIMS is listed in the [TSDS PEIMS Fall Submission Data for Business](#) guide.
 - **Auxiliary Role ID**
 - **Paraprofessional Certification**
 - [Personnel > Maintenance > Staff Demo > Responsibility](#)
 - [Personnel > Maintenance > TSDS Days Employed Set](#)

[EOY Flowchart for July Start LEAs](#)

First Payroll of the School Year (July Start LEAs)

Reminder: The steps in this guide need to be addressed again in August for all employees with August contracts.

1. [Verify finance options.](#)

Verify finance options

[Finance > Tables > District Finance Options](#)

Verify that the **School Year** field contains the new school year.

Note: If the new school year is not displayed, stop and complete the [Finance End-of-Year Process](#) first. Do not update the **School Year** field until the Finance End-of-Year (EOY) process is complete.

2. [Verify payroll frequency.](#)

Verify payroll frequency

Each time you prepare to move a group of employees (July contracts, August contracts, and September contracts), be sure to start with this step to ensure you are starting in the correct frequency.

In Payroll, verify that you are in the next year frequency that is associated with your current year frequency. If not:

- Click **Change**.
- Select *Next Year*.
- Click **Apply**.

3. [Prepare NYR payroll for move to CYR.](#)

Prepare NYR payroll for move to CYR

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > User Created Reports](#)

Generate a User Created Report (or another preferred payroll report) to:

- Verify that all employee data is correct prior to moving the next year payroll to the current year.

- Identify all employees with 11, 12, and/or 13 in the **# of Months in Contract** field on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab as these are the employees that will be moved. Before July payroll, the first group should be 12-month employees with July contracts, before August payroll, the second group should be 11-month employees with August contracts, and then before September payroll, it should be 10-month employees with September contracts.

Note: If changes are required, you can continue to update data when it is moved to the Current Year frequency.

- Verify payoff dates in the next year payroll frequency. You may use the above criteria to copy employee data from next year to current year.
- Verify that Distribution information has been updated for those employees being moved. It is important that only the specified groups are moved to the Current Year frequency at the appropriate times (July contracts before July payroll, August contracts before August payroll, and September contracts before the September payroll), as each group starts their pay in the new fiscal year.

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#)

Generate the HRS6150 report to verify the pay status of applicable employees. Employees being moved must have an *Active* pay status. Ensure that any employees who should not be moved at this time are set to *Inactive*. For example, when moving the July contracts, you want the 11- and 10-month employees to be set to *Inactive* at that time. As you move each group, ensure all employees who do not need to be moved to the Current Year frequency are set to *Inactive*. The status is updated in the [Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#) tab.

Print and/or save this report.

[Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#)

Use the Pay Info tab to inactivate an employee. Inactivate those employees who do not need to be moved such as employees whose contract days begin in July and/or August (11- and 12-month contracts) or “filler” employees who are used only for budget purposes (i.e., vacancies).

- Retrieve the employee.
- In the **Pay Status** field, select *2 Inactive*.
- Click **Save**.

4. [Copy NYR tables to CYR.](#)

Copy NYR tables to CYR

Do not copy all tables at this time. Review only for employees with July contracts who receive their first paycheck in July. Only copy tables that are applicable to the group of employees currently being moved. For example, when updating Current Year payroll information for the July employees, only move specific table information for July contracts. This process will be repeated in August for employees with August contracts and then in September for employees with September contracts.

Log on to the next year payroll frequency.

[Payroll > Next Year > Copy NYR Tables to CYR](#)

Copy the necessary school calendar information from Next Year to Current Year. The school calendars should be moved at the same time as a specific group of employees are moved from Next Year to Current Year. For example, if you are moving July contract employees to the current year payroll, only move workday/school calendars for July contract employees to current year payroll, etc.

CAUTION: Take caution when moving tables from the Next Year frequency to the Current Year. Keep in mind that selecting the main checkbox indicates that you want all tables selected for the move; however, you can select the ellipsis for each table and select more specific options.

- Click **Select All Tables** to select all of the tables.

OR

- Select next to the table(s) you want to include.
- Select again to unselect a table.

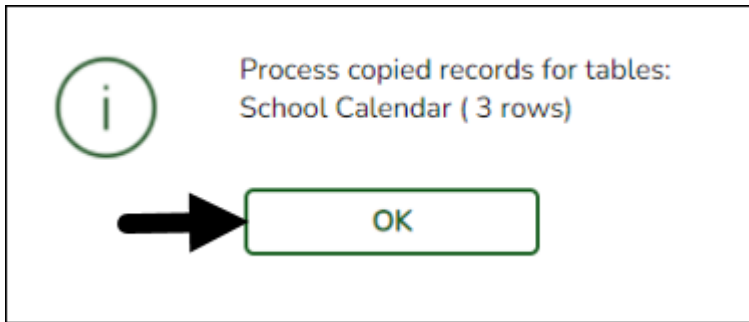

If you do not want to copy the entire table, but want to include specific data from a table, click to open a pop-up window containing the corresponding tables. Select the applicable tables and click **OK** to populate the selected tables in the applicable fields.

Note: If you receive a database access error referencing your Summer School Calendar, click **OK**. This error is generated when a Summer School Calendar exists in the current year payroll frequency but does not exist in the next year payroll frequency. Select the tables you previously selected again, but in this instance, select the individual School Calendars to be copied.

Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports.](#)

Frequency	Calendar Code	Description
6	01	187 DAYS
6	02	197 DAYS
6	03	182 DAYS

A message is displayed with the table names and the number of rows that were copied. Click **OK**.

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

Note: When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.

5. [Copy active staff to the CYR.](#)

Copy active staff to the CYR

Complete this step only for employees with July contracts who receive their first paycheck in July. Use the list of employees from the User Created report run on Step 3. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

Log on to the next year payroll frequency.

[Payroll > Next Year > Copy NYR Staff to CYR](#)

Copy active employees with July contracts to the current year. You can select specific employees to copy using the following parameters: **Contract Months, Contract Begin Date, Contract End Date, Payoff Date, Extract ID, or Employee Number.**

CAUTION: Use caution when moving employees from the Next Year frequency to Current Year. Be sure to use the applicable and specific parameters to only move employees that need to be moved at the time. Otherwise, Current Year data may be unintentionally overwritten for employees.

Under **Options**, select the appropriate option:

Field	Description
Include Employees with Termination Date	Select to copy employees with a termination date. Leave blank to exclude employees with termination dates from the current year records.
Carry over employee deductions	Select to copy employee payroll deductions (e.g., insurance, dues) from the next year to the current year. Leave blank to exclude the employee payroll deductions from the current year records.
Only process employee deductions	Select to copy only the selected employee deductions from the next year to the current year. If this field is selected, Carry over employee deductions is cleared (if selected).

Select **Preview Changes**.

Click **Execute**. Review the list and click **Process**.

6. [Change to the current year frequency.](#)

Change to the current year frequency

In Payroll, change to the current year frequency that is associated with your next year frequency (i.e., F = 6).

- Click **Change**.
- Select *Current Year*.
- Select a pay frequency.
- Click **Apply**.

The following steps should be performed in the current year frequency unless otherwise noted.

7. Update District HR options.

Update District HR options

Payroll > Tables > District HR Options

Update only the the **Payroll Clearing Fund/Year** field.

If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.

Reminder: The **First Pay Date of the School Year** field should be a September pay date, even for July start LEAs. Do not change this date at this time, it will be updated in a later step.

Additional first pay date notes

Fiscal Year versus School Year

- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected

on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

- If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2025, pay and accruals are updated in the 2026 school YTD and the 2025 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
- If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2025, pay and TRS amounts are updated in the 2026 school YTD and the 2026 TRS YTD. If the employee accrues, a 2026 school YTD is also created.

Click **Save**.

8. [Complete fund to grant information.](#)

Complete fund to grant information

Log on to the current year payroll frequency.

[Personnel > Tables > Salaries > Fund to Grant](#)

IMPORTANT: All applicable federal grants must have a fund to grant code listed in the **TRS Grant Cd** field on this tab. If not, TRS federal grant care and TRS federal grant deposit amounts **will not** be calculated for that specific fund during payroll.

Verify that the applicable federal grant funds (200-300) have a two-digit TRS grant code. Update this table as needed.

Exception: If using the TRS Child Nutrition worksheet for TRS reporting, the child nutrition funds (240 and 242) should NOT have a fund to grant code assigned.

This generates salaries for the TRS 3 and TRS 489 reports.

In order for a fund to be displayed on this page, the fund must exist in an account code on the Finance Chart of Accounts. The codes are LEA-specific.

9. [Generate the Account Code Comparison report.](#)

Generate the Account Code Comparison report

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#)

Complete the applicable report parameters and generate the report. Print and/or save this report and review it for accuracy. Verify for the applicable group of employees currently being moved from NY payroll to CY.

IMPORTANT: If a distribution (fund) for an employee was continued during the Finance EOY Process (keeping the same fiscal year - ex. 211/4 in 23-24 is 211/4 in 24-25), be sure that the distribution listed has the correct fiscal year. It is important to review/verify distribution information for all employees (especially the fiscal year) for July payroll.

- Review the report and correct all of the errors.
- Verify that all employee master distribution records have matching accounts in Finance.

If there are account codes on the report that do not exist in Finance, perform one of the following steps:

- If there are accounts that have a 6 for July and August start employees, perform a mass update of Payroll distributions. You can either mass update records by fund/year using the [Payroll > Utilities > Mass Change Payroll Account Codes > Mask Crosswalk](#) page **OR** mass update all records in the Current Year by using the **Fiscal Year** field on the [Payroll > Utilities > Mass Update > Employee](#) tab.
 - Employees who are paid out of federal funds may need their distributions reviewed and changed for a different fund year, if necessary. For example, federal funds may still be available for the previous year.
 - If your LEA accrues monthly, many employees might be paid from accrued funds for July and August. The Mass Update utility assists with updating the Distribution tab for all employees who are not paid from accruals.
- If there are other accounts that need to be added, add them on the [Finance > Maintenance > Create Chart of Accounts](#) page.

After all of the account codes are added, generate the [Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#) report again.

Generate the Employee Payroll Listing report

Complete this step only for employees with July contracts who receive their first paycheck in July. This process will be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Reports > Payroll Information Reports > HRS6150 - Employee Payroll Listing](#) or a User Created Report

The report provides a single-spaced list of employees that includes the tax information, contract information, pay rates, and primary job account code. Print the report by employee name for the entire district or group the report by campus. Include all employees, those with an active status or inactive status. When primary job (P) is not selected, all jobs are displayed with one account per job with a total for all jobs displayed. The criteria for which account is chosen to display for a job are as follows:

- The account with the highest percent.
- If there is more than one account with the highest percent for a job, the lowest account is displayed.

Complete the applicable report parameters and generate the report. Print and/or save this report and review it for accuracy. Review for employees with July contracts. Verify that all current employees are listed.

Verify that distribution information is updated for each applicable group of employees who are starting their pay in the new fiscal year when being moved from NY payroll to CY.

12. [Address leave.](#)

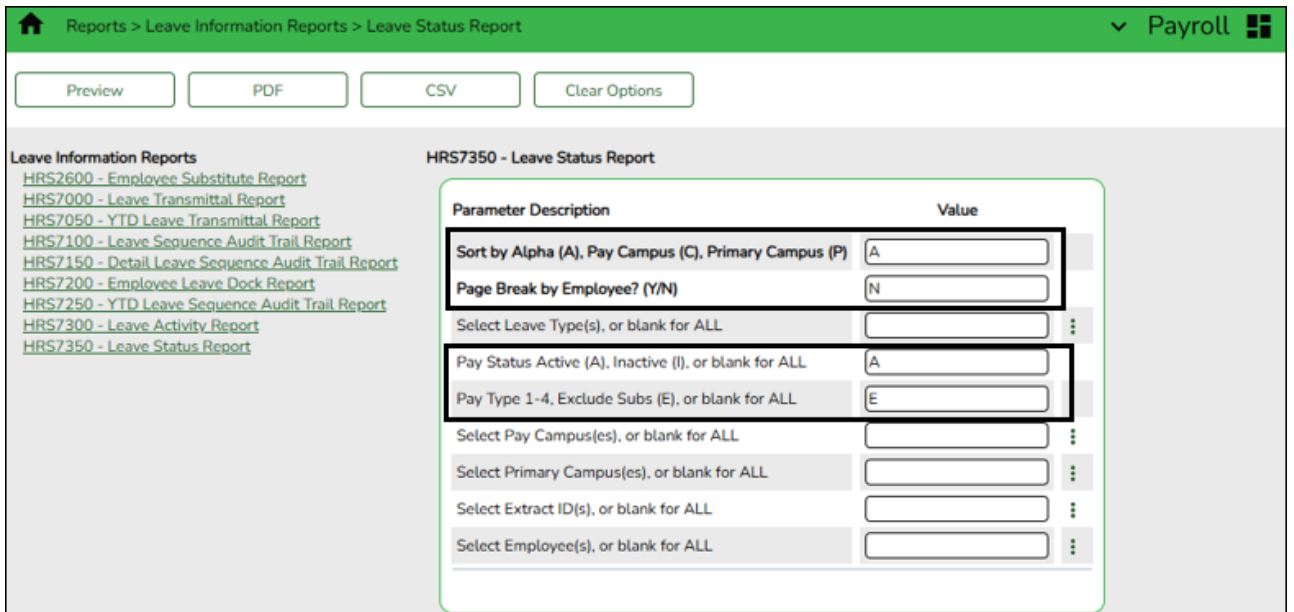

Address leave

If applicable at this time, complete this step only for employees with July contracts who receive their first paycheck in July. Follow your LEA's local policy guidelines to determine when to update leave balances for employees with July contracts as it may be updated later.

Depending on when leave is provided, this process may be repeated in August for employees with August contracts who receive their first paycheck in August, and then in September for employees with September contracts who receive their first paycheck in September.

[Payroll > Utilities > Mass Update > Leave](#)

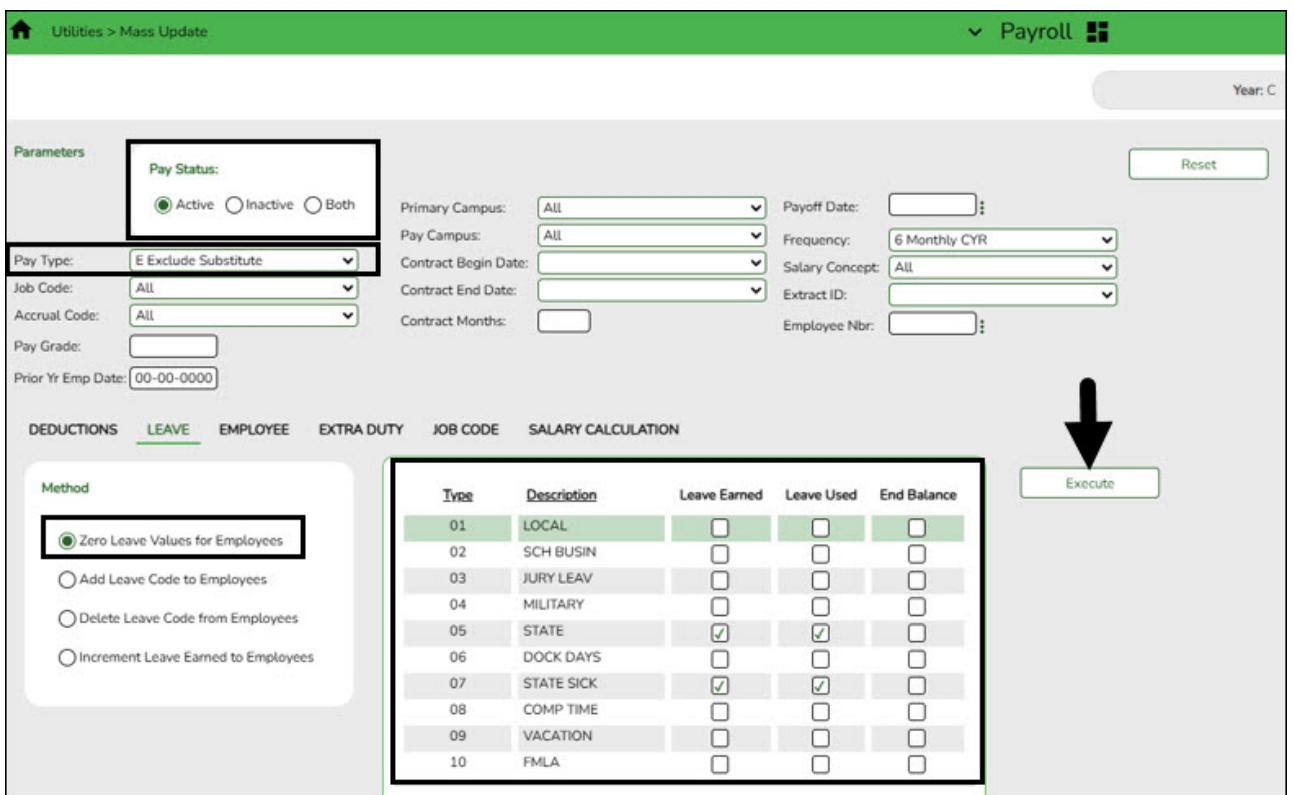

In the current year payroll frequency, generate the [Payroll > Reports > Leave Information Reports > HRS7350 - Leave Status Report](#) for active employees and exclude substitutes. Print and/or save this report and review it for accuracy.

□ Use the **Payroll > Utilities > Mass Update > Leave** tab to update employee master leave record balances. This is a three-step process.

Leave type codes are LEA-specific.

1a. This step clears the **Leave Used** and **Leave Earned** fields and rolls the ending balances to the following year beginning balances:

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Zero Leave Values for Employees**.
- Under **Leave Earned** and **Leave Used**, select all leave types to be set to zero for the new school year. Be sure to process both options at the same time to prevent inaccurate

balances.

- Do not select **End Balance** unless you want to set the balance to zero for that specific leave type. If this field is not selected, the 2025-2026 ending balances are rolled to the beginning balance fields for the 2026-2027 school year.
- Click **Execute**.
- Review and print the report.

1b. You may have leave codes for which you want to zero the end-of-year balance. For example, Jury Duty, School Business, etc.

- Click **Execute**.
- Review and print the report.
- If the report is accurate, click **Process** to complete the changes.

2. This step automatically adds leave types to active employees who do not have the leave type assigned on their leave balance record. This step must be completed before leave is mass incremented in step 3.

The screenshot shows the 'Utilities > Mass Update' payroll interface. The 'Parameters' section includes 'Pay Status' (Active selected), 'Pay Type' (E Exclude Substitute), 'Job Code' (All), 'Accrual Code' (All), 'Pay Grade' (empty), and 'Prior Yr Emp Date' (00-00-0000). The 'Add Leave Code' section shows 'New Code' (01 - LOCAL LEAVE DAYS), 'Begin Balance' (.000), 'Leave Earned' (.000), 'Leave Used' (.000), and 'Ending Balance' (.000). An 'Execute' button is highlighted with a downward arrow.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Add Leave Code to Employees**.
- In the **New Code** field, select the leave code.
- Do not add balances.
- Click **Execute**.
- Review and print the report. The report only displays the employees who will have the leave code added.
- Repeat this step for each leave type to be added before it is incremented in step 3.

Note: If you have a maximum balance designated on the leave type table, this step will not allow the leave balance to exceed the maximum number set on the leave type table.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Increment Leave Earned to Employees**.
- Select **Leave Earned** for the applicable leave types (as defined in your local policy).
- In the **Increment** field, enter the number of days to increment.
- Click **Execute**.
- Review and print the report. The report includes a list of those employees who have reached a maximum of any leave type.
- If the report is accurate, click **Continue**.
- The second report displays the newly incremented leave earned and the new ending balances. Click **Process**.

First Payroll of the School Year (September Start LEAs)

Address the following steps when preparing for the September payroll. Review Steps 2-6, 9-12, and 14-17 in the first section of this guide before continuing to the following steps.

1. [Update District HR options.](#)

Update District HR options

[Payroll > Tables > District HR Options](#)

Verify that the following fields are updated. These fields may already be updated.

- If your LEA has a separate payroll clearing fund, use 163/X or 863/X in the **Payroll Clearing Fund/Year** field. If your LEA does not use a separate payroll clearing fund, use 199/X in the **Payroll Clearing Fund/Year** field.
- The **School Year for PEIMS Codes** field should be set to 2027.

CAUTION: No payrolls should be processed for the new (upcoming) school year prior to the **First Pay Date of the School Year**.

☐ Under **First Pay Date of School Year:**

- Update the first pay date of the new school year for each payroll frequency. The date(s) must match the first payroll date(s) indicated on the pay dates table.
- In the **Payroll 4, 5, 6** fields, enter the first pay date for each of the three pay frequency fields in the MM-DD-YYYY format. Once the pay date is entered, it should not be changed until the next school year. The entered date should represent a payroll that will actually be processed, supplemental or regular. If a date is entered and no payroll is actually posted using that date, the system will have difficulty identifying when the new school year began. This could affect how data is handled in the new school year.

[Additional first pay date notes](#)

Fiscal Year versus School Year

- If your fiscal year is July through June and the 10-month employees are paid from September through August, this date should be September.
- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.
 - If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2025, pay and accruals are updated in the 2026 school YTD and the 2025 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
 - If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2026 school YTD and the 2026 TRS YTD. If the employee accrues, a 2025 school YTD is also created.
- If your fiscal year is September through August and the 10-month employees are paid from September through August, this date should be September.
- If end-of-year payroll accruals are performed for August days worked and the first paycheck is in September, the first pay date should be September.
- All non-standard employees (those employees who receive their first check in July or August) should have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

This first pay date of the school year is used to determine:

- The school year to be used for the school YTD records for regular and non-standard employees. If the employee is a non-standard employee (**TRS Year** is selected), and the contract begin date is greater than this date, then the payroll calculation stores the accrual amounts in the next year school YTD record.
- The school year that should be used for the TRS rates and employee TRS record.
- The pay history records that should be used for accruals.
- The leave transmittals that should be accumulated to determine if the leave duration has been met for the school year.

Notes:

If the LEA does not use one of the pay frequencies, access to that field is not allowed. If a user does not have security access to a pay frequency, access to that field is not allowed.

When the first pay date of the school year is changed, if any message displayed includes information about contacting your regional consultant, there are processed pay dates where amounts need to be moved from one school year to another. If these amounts are not moved, it can adversely affect school YTD historical amounts, TRS historical amounts, and reporting, workers' compensation historical amounts and reporting, and payroll accrual calculations. **Do not** proceed without addressing this issue.

Click **Save**.

The screenshot shows the 'Options > Position Management' page in a web application. At the top, there is a green header with a home icon, the text 'Options > Position Management', and a dropdown menu for 'District Administration'. Below the header, there are three buttons: 'Save', 'Retrieve', and 'Print'. The main content area is divided into two sections: 'District Options' and 'Payment Options'. In the 'District Options' section, there are several rows of settings. The 'Current Year' field is highlighted with a red box and contains the value '2027'. Other fields include 'Next Year' (2028), 'Minimum Foundation Year' (2027), and 'Default Position Record Status' (V - Vacant(just position info, ready to fill emp)). There are also checkboxes for 'Use PMIS', 'Unemployment Eligible', 'Use Forecast Conversion Tables', 'Employee Must Be Assigned a Position Prior to Creating Payroll Record', 'Allow CYR Position Description Changes (Admin only)', 'Allow Forecast Position Description Changes', and 'Display Options to Ignore Pct of Day and Pct of Year for Position Records'. In the 'Payment Options' section, there are two rows of settings: 'Round Salary to Nearest Whole Dollar' and 'During CIC Calculation, Pay One-Time Supplement', both with checked checkboxes.

(If applicable) Complete the accrual calendar

Log on to the current year pay frequency.

Payroll > Tables > Accrual Calendars > Accrual Calendar

Enter the new pay dates and accrual days for all applicable accrual codes. The total number of days should equal the number of days employed for that group of employees.

If your LEA accrues, verify that the accrual calendar pay dates match the pay dates on your pay dates table.

To create a new TRS rates record:

- Type the new year (2027) and click **Retrieve**. A message is displayed indicating that the new record is populated based on the prior year's (2026) TRS rates record.
- Complete the applicable fields.
- Click **Save**.

Verify/update Unemployment rates

Log on to the current year pay frequency.

[Payroll > Tables > Tax/Deductions > Unemployment](#)

Notes:

- Unemployment rates vary by LEA.
- The information in this table is obtained from the Texas Workforce Commission or the LEA's unemployment insurance carrier.
- Unemployment rates are based on the calendar year and not the fiscal year.

Verify that you are in the correct calendar year. If not, in the **Calendar Year** field, type 2027 and click **Retrieve**.

- Verify the accuracy of the rates.
- Make the necessary updates and click **Save**.

8. [Verify/update Workers' Compensation rates.](#)

Verify/update Workers' Compensation rates

[Payroll > Tables > Tax/Deductions > Workers' Compensation](#)

Verify that the workers' compensation rates are accurate for the new school year. If not, update the rates.

Delete	Code	Description	Net Rate
	A	8868 PROFESSIONAL	0.8724%
	B	7380 BUS DRIVERS	0.8724%
	C	8810 CLERICAL	0.8724%
	D	9101 ALL OTHERS	0.8724%

For example, if the Workers' Compensation letter provides a rate of .001792, move the decimal two places to the right and enter that number in the **Net Rate** field.

Codes, descriptions, and rates vary by LEA.

Note: The number of months in the contract should correlate with the number of workers' compensation payments. For example, if the employee has a 10-month contract, then the employee will have ten workers' compensation payments for the year.

Use the User Created Reports to verify the number of Workers' Compensation remaining payments.

If the report displays an incorrect number of remaining payments, use the [Payroll > Utilities > Mass Update > Employee](#) tab to reset the number of remaining payments.

9. [Recalculate the state minimum salary.](#)

Recalculate the state minimum salary

Log on to the current year pay frequency.

Note: For Districts of Innovation, the statutory minimum days should reflect 187 days. The statutory minimum days should not be less than 187 (e.g., 177, 182, etc.). You can use the Mass Update utility to change the number of days to 187 and calculate the state minimum salary. Then, use the Mass Update utility to replace the accurate number of days.

 If your LEA is a District of Innovation or operates on a non-standard (4-day) workweek, contact your regional ESC consultant for additional assistance, as extra steps are required.

[Payroll > Utilities > Mass Update > Salary Calculation](#)

In the **Pay Type** field, select *1 Contracted employee*.

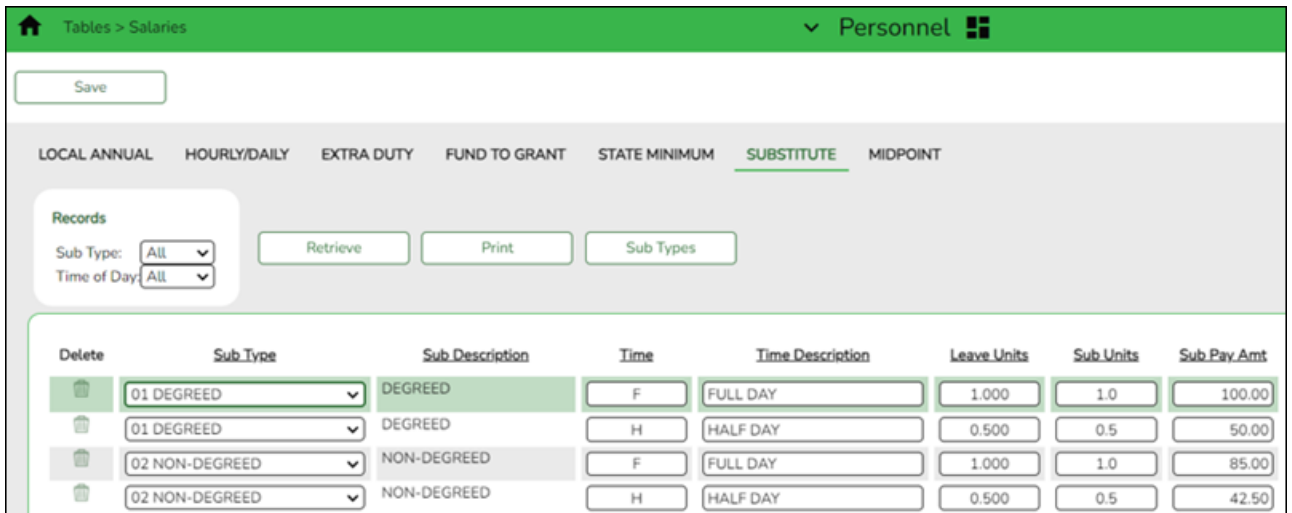

Under **Type of Calculation**, select **State Minimum Only** to recalculate the state minimum salary for the new school year.

- In the **Salary Concept** field, select *A Use annual salary* table.
- Click **Execute**.

10. (If applicable) Update substitute information.

(If applicable) Update substitute information

Execute

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Zero Leave Values for Employees**.
- Under **Leave Earned** and **Leave Used**, select all leave types to be set to zero for the new school year. Be sure to process both options at the same time to prevent inaccurate balances.
- Do not select **End Balance** unless you want to set the balance to zero for that specific leave type. If this field is not selected, the 2025-2026 ending balances are rolled to the beginning balance fields for the 2026-2027 school year.
- Click **Execute**.
- Review and print the report.

1b. You may have leave codes for which you want to zero the end-of-year balance. For example, Jury Duty, School Business, etc.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Zero Leave Values for Employees**.
- Select **Leave Earned**, **Leave Used**, and **End Balance** for all leave types you want to zero out completely and not carry forward ending balances.
- Click **Execute**.
- Review and print the report.
- If the report is accurate, click **Process** to complete the changes.

2. This step automatically adds leave types to active employees who do not have the leave type assigned on their leave balance record. This step must be completed before leave is mass incremented in step 3.

The screenshot shows the 'Utilities > Mass Update' payroll interface. The 'Parameters' section includes 'Pay Status' (Active selected), 'Pay Type' (E Exclude Substitute), 'Job Code' (All), 'Accrual Code' (All), 'Pay Grade', and 'Prior Yr Emp Date' (00-00-0000). The 'Add Leave Code' section shows 'New Code' (01 - LOCAL LEAVE DAYS), 'Begin Balance' (.000), 'Leave Earned' (.000), 'Leave Used' (.000), and 'Ending Balance' (.000). An 'Execute' button is highlighted with a downward arrow.

- Under **Pay Status**, select **Active**.
- In the **Pay Type** field, select *E Exclude Substitute*.
- Under **Method**, select **Add Leave Code to Employees**.
- In the **New Code** field, select the leave code.
- Do not add balances.
- Click **Execute**.
- Review and print the report. The report only displays the employees who will have the leave code added.
- Repeat this step for each leave type to be added before it is incremented in step 3.

3. This step increments leave earned to employees:

(If necessary) Mass update employee experience

[Personnel > Utilities > Mass Update > Employee](#)

Note: This process is typically not performed until before the start of your September payroll. You must verify that service records have already been run before proceeding.

If this process is delayed, ensure that employee experience is updated for all applicable groups. It is extremely important to update employee experience on account of the Teacher Retention Allotment.

If necessary, increment the years of total professional and non-professional experience, and the years of district professional and non-professional experience for employees with July contracts.

Additionally, you can use this page to increment the prior years of teaching experience for those individuals in a teaching role. The **Prior Teaching Experience** is the total number of years that an individual has previously held a teaching position in one or more education institutions. This information collected during the PEIMS Core Collection: Class Roster.

If this process has not already been completed, it must be done at this time. It is highly important to confirm that it is completed.

- The Commissioner's Rules on Creditable Years of Service, Title 19, Texas Administrative Code (TAC) §153.1021, serve as a baseline for minimum requirements when determining an individual's years of experience.
- The **Prof Experience Yrs** and **Non-Prof Experience Yrs** should be incremented in separate instances.

Total (Prof) Experience:

□ Click **Execute**. The Employee Mass Update Report is displayed.
