Revised: In Progress

CAUTION: Do not begin this process until the [End-of-Year Payroll Verification, August Accruals](#) process, and the [Finance EOY Process](#) are complete.

The purpose of this document is to guide you through the necessary steps to process the first payroll of the school year for June year-end LEAs. The steps included in this process need to be reviewed again in August for all employees with August contracts.

In addition to the above processes, the following steps should be completed prior to continuing with this process.

- Print HRS2250 - Deduction Register by Employee for future reference.
- Print HRS2400 - Bank Account Listing to verify that all employee bank information is correct.
- Print HRS1000 - Roster of Personnel and save it for the auditors.
- Update termination dates and reasons on the [Personnel > Maintenance > Employment Info](#) page for all employees who are no longer with the LEA.
- Verify that the budget is moved to Finance.

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Inactivate those employees who do not need to be moved such as employees whose contract days begin in July and/or August (11- and 12-month contracts) or “filler” employees who are used only for budget purposes (i.e., vacancies).

Use the [Payroll > Maintenance > Staff Job/Pay Data > Pay Info](#) tab to inactivate an employee.

The screenshot shows the 'Pay Info' tab for employee 000096 : BENTON, ANTONIO L. The 'Pay Status' dropdown menu is highlighted with a black box and a black arrow pointing to it, showing '2 Inactive' selected. Other fields include 'Pay Campus: 102 102 Ascender Elem 03-06', 'FICA Eligibility: M Subject to medicare', and 'Tax Exempt: '. The 'Save' button is also visible at the top left.

If the calendars were not copied over correctly, you may have to individually copy the calendars.

Note: When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.

If the 11- and 12-month employees were reactivated to interface to Budget, they must be set to inactive at this time. You can select specific employees to copy using the following parameters: **Contract Months, Contract Begin Date, Payoff Date, Extract ID, or Employee Number.**

In addition, consider the employee deductions. For example, if you have not updated the new insurance selections and premiums in the next year payroll, then do not copy any deductions to the current year payroll. Also, if you entered all new employees as electing insurance so that employer-paid amounts were generated to budget, then you would not want these “estimated” deductions brought to current year payroll. All insurance selections and rate changes can be made in the current year payroll frequency.

- TRS Extract Options:** Use Pay Dates for TRS Month or Actual Date: P - Pay Dates For TRS Month. Pay Type 1, 2, and 3 are all set to S - Scheduled Hours.

CAUTION: No payrolls should be processed prior to the First Pay Date of the School Year.

Under **First Pay Date of School Year**, update the first pay date of the new school year for each payroll frequency. The date(s) must match the first payroll date(s) indicated on the pay dates table.

The **First Pay Date of School Year** should be a September date even for June Year-End LEAs.

In the **Payroll 4, 5, 6** fields, enter the first pay date for each of the three pay frequency fields in the MM-DD-YYYY format. Once the pay date is entered, it should not be changed until the next school year. The entered date should represent a payroll that will actually be processed, supplemental or regular. If a date is entered and no payroll is actually posted using that date, the system will have difficulty identifying when the new school year began. This could affect how data is handled in the new school year.

[Additional first pay date notes](#)

Fiscal Year versus School Year

- If your fiscal year is July through June and the 10-month employees are paid from September through August, this date should be September.
- If your fiscal year is July through June and all employees (including 10-month employees) are paid from August through July, those employees should all have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.
 - If the **First Pay Date of School Year** field has an August date, a new school YTD is created and updated with all pay and accrual amounts. The TRS YTD is updated in the old school year. For example, if the first pay date of the school year is August 25, 2024, pay and accruals are updated in the 2025 school YTD and the 2024 TRS YTD is updated. **Note:** If the **First Pay Date of School Year** field is set to a date prior to September, be sure to verify that your TRS rates correspond to the appropriate TRS reporting month.
 - If the **First Pay Date of School Year** field is updated with a September date, the school YTD and TRS YTD are updated in the current school year and if accruing, a new school YTD is created and updated with those amounts. For example, if the first pay date of the school year is September 25, 2024, pay and TRS amounts are updated in the 2025 school YTD and the 2025 TRS YTD. If the employee accrues, a 2025 school YTD is also created.
- If your fiscal year is September through August and the 10-month employees are paid from September through August, this date should be September.
- If end-of-year payroll accruals are performed for August days worked and the first paycheck is in September, the first pay date should be September.
- All non-standard employees (those employees who receive their first check in July or August) should have **TRS Year** selected on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab.

This first pay date of the school year is used to determine:

- The school year to be used for the school YTD records for regular and non-standard employees. If the employee is a non-standard employee (**TRS Year** is selected), and the contract begin date is greater than this date, then the payroll calculation stores the accrual amounts in the next year school YTD record.
- The school year that should be used for the TRS rates and employee TRS record.
- The pay history records that should be used for accruals.
- The leave transmittals that should be accumulated to determine if the leave duration has been met for the school year.

Notes:

If the LEA does not use one of the pay frequencies, access to that field is not allowed. If a user does not have security access to a pay frequency, access to that field is not allowed.

When the first pay date of the school year is changed, if any message displayed includes information about contacting your regional consultant, there are processed pay dates where amounts need to be moved from one school year to another. If these amounts are not moved, it can adversely affect school YTD historical amounts, TRS historical amounts, and reporting, workers' compensation historical amounts and reporting, and payroll accrual calculations. **Do not** proceed without addressing this issue.

Click **Save**.

- For August, start with your accrual run date (08-31-20XX) and enter the August workdays.
- Continue adding pay dates and days worked for the remainder of the school year. The dates must equal the dates in your pay dates table. All pay dates should be entered even if zero days are accrued for that month. This information is LEA-specific.

Note: For a standard 187-day calendar in a monthly pay frequency, there should be 13 entries including the date for the August Accrual process and the 12 pay dates including the months that may have zero workdays.

10. Complete fund to grant information.

Complete fund to grant information

Log on to the current year payroll frequency.

Personnel > Tables > Salaries > Fund to Grant

IMPORTANT: All applicable federal grants must have a fund to grant code listed in the **TRS Grant Cd** field on this tab. If not, TRS federal grant care and TRS federal grant deposit amounts **will not** be calculated for that specific fund during payroll.

Verify that the applicable federal grant funds (200-300) have a two-digit TRS grant code. Update this table as needed.

Exception: If using the TRS Child Nutrition worksheet for TRS reporting, the child nutrition funds (240 and 242) should NOT have a fund to grant code assigned.

This generates salaries for the TRS 3 and TRS 489 reports.

In order for a fund to be displayed on this page, the fund must exist in an account code on the Finance Chart of Accounts. The codes are LEA-specific.

The screenshot shows a web application interface for 'Tables > Salaries'. The 'FUND TO GRANT' tab is active. Below the navigation tabs, there are buttons for 'Save', 'Retrieve', and 'Print', along with a 'Fund' dropdown menu set to 'All'. A table displays the following data:

You can either mass update records by fund/year using the [Payroll > Utilities > Mass Change Payroll Account Codes > Mask Crosswalk](#) page **OR** mass update all records by using the [Payroll > Utilities > Mass Update > Employee](#) tab. Employees who are paid out of federal funds may need their distributions reviewed and changed for a different fund year, if necessary. After all of the account codes are added, generate the [Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#) report again. If all account codes exist, a blank report should be generated.

- Click **Execute**.
- Review and print the report.

1b. You may have leave codes for which you want to zero the end-of-year balance. For example, Jury Duty, School Business, etc.

The screenshot shows the 'Utilities > Mass Update' interface for 'Payroll'. The 'Parameters' section includes fields for 'Pay Status' (Active, Inactive, Both), 'Pay Type' (E Exclude Substitute), 'Job Code' (All), 'Accrual Code' (All), 'Pay Grade', and 'Prior Yr Emp Date' (00-00-0000). There are also dropdowns for 'Primary Campus', 'Pay Campus', 'Contract Begin Date', 'Contract End Date', 'Contract Months', 'Payoff Date', 'Frequency' (6 Monthly CYR), 'Salary Concept' (All), 'Extract ID', and 'Employee Nbr'. (If necessary) Mass update employee experience

[Personnel > Utilities > Mass Update > Employee](#)

If your LEA has not already done so, increment the years of total professional and non-professional experience, and the years of district professional and non-professional experience.

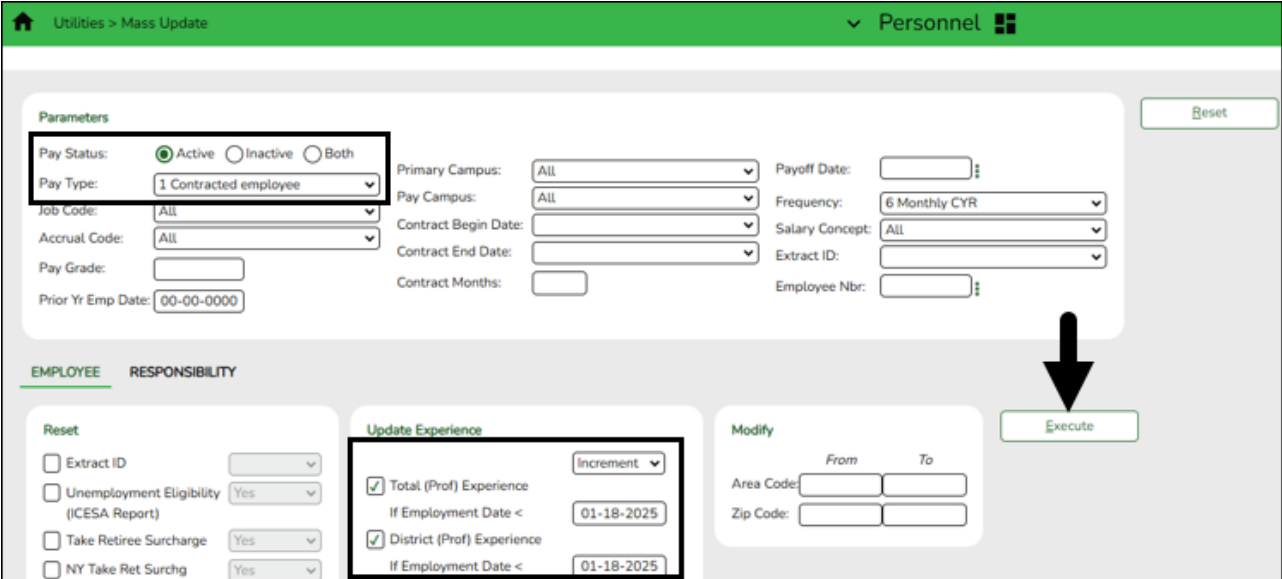

Additionally, you can use this page to increment the prior years of teaching experience for those individuals in a teaching role. The **Prior Teaching Experience** is the total number of years that an individual has previously held a teaching position in one or more education institutions and is collected during the PEIMS Core Collection: Class Roster.

If this process has not already been completed, it must be done at this time. It is highly important to confirm that it is completed.

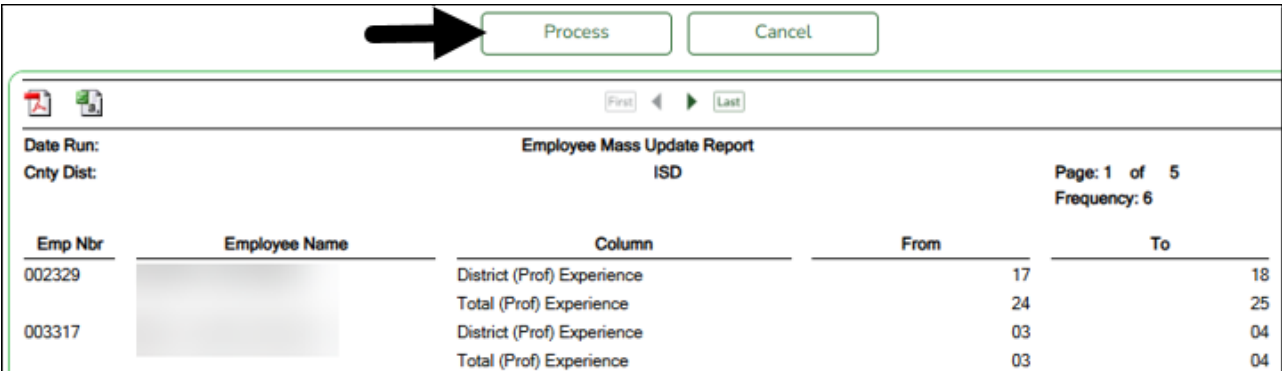

- The Commissioner's Rules on Creditable Years of Service, Title 19, Texas Administrative Code (TAC) §153.1021, serve as a baseline for minimum requirements when determining an individual's years of experience.
- The **Prof Experience Yrs** and **Non-Prof Experience Yrs** should be incremented in separate instances.
