

ASCENDER - Position Management: Salary Simulations Overview

Table of Contents

ASCENDER - Position Management: Salary Simulations Overview	1
--	---

ASCENDER - Position Management: Salary Simulations Overview

Use the following pages to set up and perform various Position Management salary simulations. The forecast salary simulation functionality is similar to the Payroll simulations with the following differences:

- Uses first pay date and extra duty codes versus using an extract ID parameter.
- Calculates fringe benefits instead of only salaries.
- Simulation amounts can be updated to Budget instead of only displaying a simulation report.

This guide assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Position Management - Salary Simulation

Simulation Options

Create simulations. All fields must be completed.

[Position Management > Utilities > Salary Simulation > Simulation Options](#)

The Salary Simulation menu is only available when logged on to a next year pay frequency.

Create an export using Utilities > Export PMIS Tables prior to using this tab.

This tab is used to create a forecast position salary simulation and to select the parameters associated with the simulation.

The simulation will process for positions where the school year matches the **Next Year** field on the District Administration > Options > Position Management tab and where the accept changes flag is selected for forecast records.

Each simulation will have a unique, user-assigned name and may have various salary types included in the simulation.

When the salary calculations are performed, the program will use the original salary amount from the next year salary table, and then apply the percent or amount change as defined in the associated simulation table for that salary to determine the new salary amount for that pay grade and pay step.

Steps that have a zero percent or amount increase are included in the salary calculations at the rate from the original next year salary table amounts.

Salary Simulations provide budget reports without the need to overlay any employee or position data in the NYR payroll. Reports are available after the simulation calculations have been processed.

If the **Recalculate** field is selected for a supplement position on the Maintenance > PMIS Supplement Modify or PMIS Supplement Admin pages, and the position is not based on a regular position, the salary table amount for the extra duty is applied to the position record. If the **Recalculate** field is not selected, the salary amount in the supplement position is not changed.

403B FICA Alternative contribution calculations - PMIS simulation calculations now include 403B FICA Alternative contribution calculations when the A3 deduction type is included on the Deductions tab for the selected simulation. And, the deduction code for the A3 deduction type exists for an employee included in the simulation. The reports will list the account codes and amounts in the annuities column.

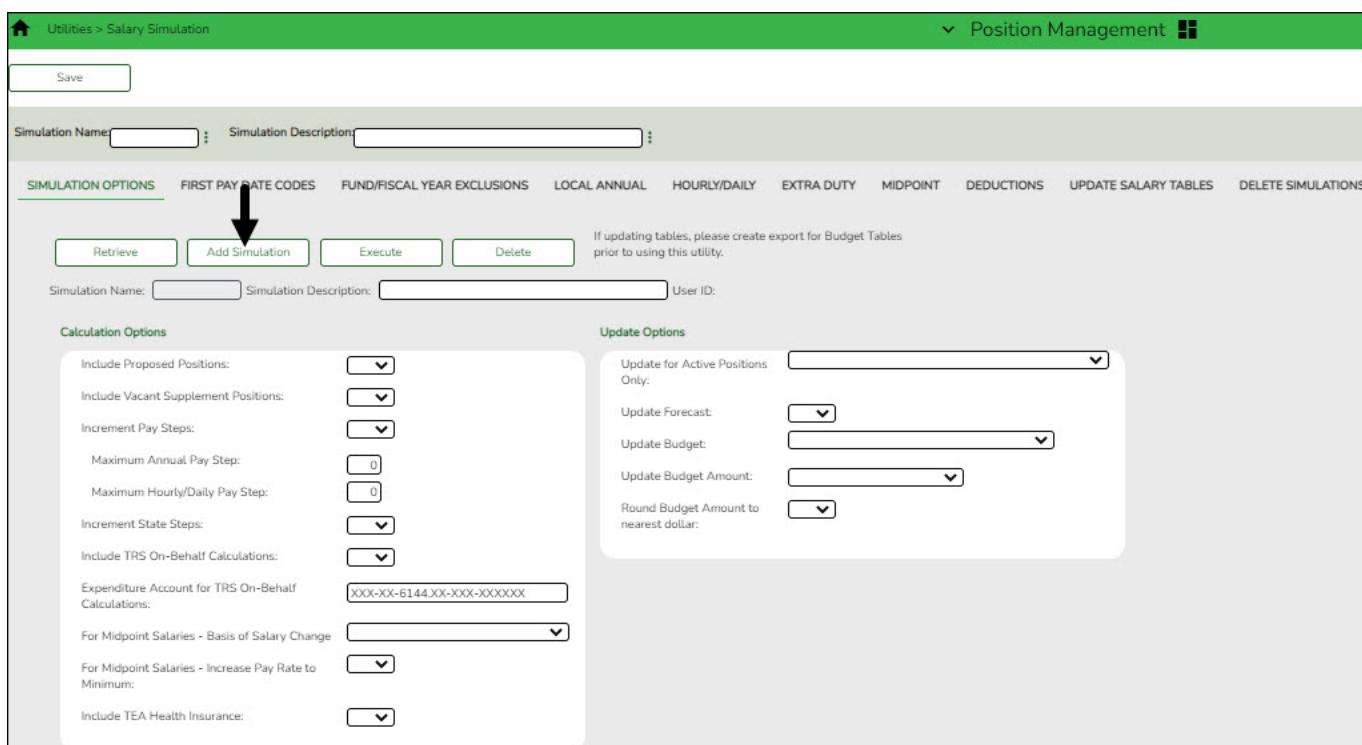

Create a simulation:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Click **Retrieve**. The simulation is retrieved.

Simulation Name	If retrieving an existing simulation, the simulation name is displayed. If adding a new simulation, type the simulation name.
Simulation Description	The description of the current simulation is displayed. If adding a new simulation, type the new simulation description.
User ID	This field is populated per user per simulation.

Click **Add Simulation** to create a new simulation.

Update Options

Update for Active Positions Only:

Update Forecast:

Update Budget:

Update Budget Amount:

Round Budget Amount to nearest dollar:

Under Calculation Options:

Include Proposed Positions	Click <input type="checkbox"/> to select Yes or No to budget for the proposed positions to determine if they are affordable. This is a required field.
Include Vacant Supplement Positions	Click <input type="checkbox"/> to select Yes or No to budget for the vacant supplement positions to determine if they are affordable. This is a required field. Note: Forecast always budgets for a vacant regular position.
Increment Pay Steps	Click <input type="checkbox"/> to select Yes or No to increment the pay steps in the simulation. This is a required field. Note: If salaries will be frozen, the salary increase should be set to 0%, and the step salary schedule should be changed by moving the amounts from one step to another.
Maximum Annual Pay Step	Type the two-character code for the highest pay step in your local annual salary schedule. The field is used to identify the correct salary amount on the salary table.
Maximum Hourly/Daily Pay Step	Type the two-character code for the highest pay step in your hourly/daily salary schedule. The field is used to identify the correct salary amount on the salary table.
Increment State Steps	Click <input type="checkbox"/> to select Yes or No to increment the state steps in the simulation. The state steps automatically max out at 20. This is a required field.
Include TRS On-Behalf Calculations	Click <input type="checkbox"/> to select Yes or No to include the TRS on-behalf calculations in the simulation. This is a required field.
Expenditure Account for TRS On-Behalf Calculations	Type an account code to be used as an expenditure account for the TRS on behalf calculations. The object code is always 6144 and must be distributed by function so the function must be XX. The LEA can determine other account code components.

For Midpoint Salaries - Basis of Salary Change	<p>Click  to select one of the following options:</p> <p><i>C - Use position hrly/dly rate</i> - Select to calculate the percentage increase for midpoints on the actual existing rate. This option is used by LEAs that are using a midpoint schedule in place of putting employees on a salary schedule.</p> <p><i>T - Use Simulation Mid Inc/Dec Amt</i> - Select to base the percentage on the midpoint. This option is used by LEAs that follow a midpoint schedule. Select to calculate the percentage increase for midpoints on the actual existing rate. This option is used by LEAs that are using a midpoint schedule in place of putting employees on a salary schedule.</p> <p>This is a required field.</p>
For Midpoint Salaries - Increase Pay Rate to Minimum	<p>Click  to select Yes or No to increase or not increase the pay rate to minimum for midpoint salaries. This is a required field.</p> <p>If Yes is selected, the pay rate is increased to the minimum amount if it is below the minimum amount, and then the pay rate raise is applied per the simulation. This ensures that employees are not paid less than the minimum.</p> <p>If No is selected, the pay rate raise is applied per the simulation, and then the pay rate is raised to the minimum amount if it is still below the minimum amount.</p> <p>Example</p> <p>Example 1:</p> <p>If an employee's current pay rate is \$47, the simulation is set up for a 1% increase on midpoint, and the midpoint table amounts are set up as follows: \$50 minimum \$75 midpoint \$100 maximum</p> <p>If Yes is selected, the pay rate is updated to \$50.75, which is an increase to \$50 (the minimum) plus 1% (.75) of \$75.</p> <p>If No is selected, add 1% (.75) of \$75 to the current pay rate of \$47, which is below the minimum so the pay rate is updated to \$50.</p> <p>Example 2:</p> <p>If an employee's pay rate is \$49.50, and all of the factors are the same as in example 1:</p> <p>If Yes is selected, the employee's new pay rate is \$50.75.</p> <p>If No is selected, the employee's new pay rate is \$50.25.</p>
Include TEA Health Insurance	<p>Click  to select Yes or No to include or not include TEA health insurance in the simulation. This is a required field.</p>

Under Update Options:

Update for Active Positions Only	Click <input type="button" value="▼"/> to select one of the following options: <i>A - Calculate Budget Based on Vacancy Data</i> <i>B - Move Actual Amount to Budget Amount</i> <i>C - Move Actual Amount to Budget if Actual > Budget</i> This is a required field.
Update Forecast	Click <input type="button" value="▼"/> to select Yes or No to update or not update the forecast in the simulation. Only select Yes when you are ready to secure all of the positions and apply the increase and updates to next year positions. This option moves the simulations into the next year positions, and if selected, the pay and state step increase is updated. This is a required field.
Update Budget	Click <input type="button" value="▼"/> to select one of the following options: <i>N - Do not update Budget</i> <i>I - Increase or add to the amounts in Budget</i> <i>R - Replace the amounts in Budget</i> (This is how next year payroll to next year budget works.) This is a required field.
Update Budget Amount	Click <input type="button" value="▼"/> to select one of the following options: <i>R - Recommended Amount</i> <i>A - Approved Amount</i> This is a required field.

Click **Execute** to begin the simulation process.

Under **Calculation Reports:**

- Select the report(s) from the list. Click **Select All** or **Unselect All** to select all of the reports or unselect all reports.
- Click **Generate Reports**. The reports are displayed in the order selected.

Click **Process** to save the data to budget and/or PMIS records based on the **Update Options** selected. You are prompted to create a [backup](#).

[Review the report.](#)

Click **Continue** to continue to the next report.

Click **Return** to return to the Calculation Reports page and skip the display of the remaining reports selected.

Duplicate a simulation:

The **Duplicate From Simulation** field and **Duplicate** button are only visible when you click **Add Simulation**.

Duplicate From Simulation Type the name of a simulation, or click  to select a simulation name from a list.

Click **Duplicate** to duplicate the simulation.

Delete a simulation:

Click **Delete** to delete the displayed simulation.

First Pay Date Codes

Select the first pay date codes to be included in the simulation.

[Position Management > Utilities > Salary Simulation > First Pay Date Codes](#)

This tab is used to designate positions to be included in the simulation based on first pay date codes.

You must be logged on to a next year pay frequency to access this utility.

Set up first pay date codes:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Click **Retrieve**. The simulation is retrieved.

Simulation Name	The simulation name is displayed.
Simulation Description	The description of the current simulation is displayed.

Click **First Pay Dt Cds** to select a fund from the First Pay Date Codes [lookup](#).

First Pay Date Codes

First Pay Date Codes Search

Select	First Pay Date Code	Date of Pay	Description
<input type="checkbox"/>	ONE	08-15-	207 Days

Click **+Add** to add a row.

First Pay Date Code	Type a unique pay date code. The field can be a maximum of three characters.
----------------------------	--

Date of Pay	This field is display only and indicates the starting pay date.
--------------------	---

Click **Save**.

Fund/Fiscal Year Exclusions

Select the fund/year(s) to be excluded from the Budget update regardless of the Budget update option. These funds are still included in the reports.

[Position Management > Utilities > Salary Simulation > Fund/Fiscal Year Exclusions](#)

This tab allows you to designate which funds should not be included in updates to budget (if **Update Budget** is selected on the [Position Management > Utilities > Salary Simulation > Simulation Options](#) tab). If no funds are selected, all funds are available for the update.

You must be logged on to a next year pay frequency to access this utility.

Create an exclusion:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Click **Retrieve**. The simulation is retrieved.

Simulation Name	The simulation name is displayed.
Simulation Description	The description of the current simulation is displayed.

Click **Budget Funds** to select a fund from the Budget Funds/Fiscal Years [lookup](#).

Click **+Add** to add a row.

Fund/Fiscal Years	Type the fund code and the fiscal year. The fund code can be any digit between 101-999, and the fiscal year is a one-digit code that is the last digit in the fiscal (school) year.
--------------------------	---

Click **Save**.

Create an exclusion:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Click **Retrieve**. The simulation is retrieved.

Simulation Name	The simulation name is displayed.
Simulation Description	The description of the current simulation is displayed.

Click **Budget Funds** to select a fund from the Budget Funds/Fiscal Years [lookup](#).

Click **+Add** to add a row.

Fund/Fiscal Years Type the fund code and the fiscal year. The fund code can be any digit between 101-999, and the fiscal year is a one-digit code that is the last digit in the fiscal (school) year.

Click **Save**.

Local Annual

Select the local annual salary scales to be used in the simulation. The salary scales can default to a particular percentage or amount increase with the ability to update individual pay grade/schedule/steps.

[Position Management > Utilities > Salary Simulation > Local Annual](#)

This tab is used to automatically reference the correct annual salary for employees, based on their pay grade, pay step, max days employed, and local schedule code. This table can be utilized to alter simulations for those employees, such as teaching staff, whose pay is based on an annual amount with step increases for years of service.

Set up local annual salary data:

Field	Description
Simulation Name	Type the name of a simulation or click to select the simulation name from a list.

Field	Description
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Under **Records**:

Simulation Name	Display only and indicates the simulation name as entered in the Simulation Name field at the top of the page.
Description	Display only and indicates the simulation description as entered in the Simulation Description field at the top of the page.
Pay Grade	Click  to select the appropriate pay grade for the current simulation. This option limits your selection.
Local Annual	Click to retrieve and select multiple pay grades from the annual salary table, or create new entries to be included in the simulation phase.

Click **Retrieve**. The local annual salary data is displayed.

Under **Modify**, select either of the following criteria to modify local annual salaries:

- **By Percent**
- **By Dollar Amt**

Under **Salary**:

Amount	Type the dollar or percentage value to increase a salary. The dollar amount can be a maximum of six digits (e.g., 9999.99).
---------------	---

Click **Default** to apply the amount entered in the **Amount** field to each salary.

Note: Only those rows that have no value in the **% Increase** or **Amount Increase** columns are affected when applying the default values.

Click **+Add** to add a row.

Note: When adding a new row with **+Add**, the same pay grade, pay step, local schedule, and maximum days employed must exist in the NYR Local Annual Salary Table, or the record cannot be saved.

First 1 / 4 Refresh Totals

Pay Grade	Type the code for the pay grade. The field can be a maximum of three characters.
Pay Step	Type the code for the salary level within the indicated pay grade. The field can be a maximum of two characters.
Max Days Employed	Type the maximum number of days worked at the indicated pay grade and pay step. The field can be a maximum of three characters.
Local Sched	Type the optional, locally assigned, single-character code that is used to indicate the separate pay schedules for professional and support staff with the same pay grade, pay step, and maximum number of days employed.

The system populates the **Annual Amt** field with the annual salary for this pay grade and step from the Local Annual NYR table.

Note: Each row can only be changed by a percent or dollar amount, not both, and if a row previously had a value entered in the **Amount Increase** column, and now a value is entered in the **% Increase** column, the **Amount Increase** column changes to zero.

% Increase	Type the percentage of the increase.
-------------------	--------------------------------------

Amount Increase	Type the dollar amount of the increase.
New Amount	This field is calculated by the system.

- Click **Refresh Totals** to recalculate the new amounts when a new amount or percent is entered.
- Click **Save**.

Hourly/Daily

Select the hourly/daily salary scales to be used in the simulation. The salary scales can default to a particular percentage or amount increase with the ability to update individual pay grade/steps.

[Position Management > Utilities > Salary Simulation > Hourly/Daily](#)

This tab is used to automatically reference the correct hourly/daily salary for positions, based on their pay grade, pay step, max days employed, and local schedule code. This table can then be utilized to alter simulations for those positions, such as teachers, paraprofessionals, maintenance, bus drivers, and other jobs as maintained by the district.

You must be logged on to a next year pay frequency to access this utility.

Set up hourly/daily salary data:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

- Click **Retrieve**. The hourly/daily salary data is displayed.

Under Records:

Field	Description
Sim Name	Displays the simulation name as entered in the Simulation Name field at the top of the page.
Descr	This field is populated automatically with the simulation description as entered on the Simulation Options tab.
Pay Grade	Click  to select the appropriate pay grade for the current simulation. This option limits your selection. Note: In addition, you can click the Hourly/Daily button to retrieve and select multiple pay grades from the hourly/daily table, or create new entries to be included in the simulation phase.

Click **Retrieve**. The hourly/daily salary data is displayed.

Under **Modify**, select either of the following criteria to modify hourly/daily salaries:

- **By Percent**
- **By Dollar Amt**

Under **Salary**:

Amount Type the dollar or percentage value to increase a salary. The dollar amount can be a maximum of six digits (e.g., 9999.99).

Click **Default** to apply the amount entered in the **Amount** field to each salary.

Note: Only those rows that have no value in the **% Increase** or **Amount Increase** columns are affected when applying the default values.

Click **+Add** to add a row.

Pay Grade	Pay Step	Daily	0.0	251.549	0.0	0.0	251.549
12	02						
12	03						
12	04						
12	05						
12	06						
13	01						
13	02						
13	03						
13	04						
13	05						
14	00						
14	01						
14	02						
14	03						
14	04						
15	00						

Pay Grade	Type the code for the pay grade. The field can be a maximum of three characters.
Pay Step	Type the code for the salary level within the indicated pay grade. The field can be a maximum of two characters.

Rate Type	This field is populated by the system: If the Hrs Per Day field is left blank, the rate type is set to the daily rate. If the Hrs Per Day field contains hours, the rate type changes to hourly.
Pay Type	Displays the type of pay for the selected simulation.
Hrs Per Day	Indicates how the rate is paid. If hours are not zero, the rate is considered an hourly rate.
Local Sched	Type the optional, locally assigned, single-character code that is used to indicate the separate pay schedules for professional and support staff with the same pay grade, pay step, and maximum number of days employed.
Est Ovtm Hrs	Displays the estimated annual number of overtime hours allowed for this pay grade and step.

The system populates the **Amount field** with the hourly/daily salary amount authorized for this pay grade and step from the Hourly/Daily NYR table.

Note: Each row can only be changed by a percent or dollar amount, not both, and if a row previously had a value entered in the **Amount Increase** column, and now a value is entered in the **% Increase** column, the **Amount Increase** column changes to zero.

% Increase	Type the percentage of the increase.
Amount Increase	Type the dollar amount of the increase.
New Amount	This field is calculated by the system.

- Click **Refresh Totals** to recalculate the new amounts when a new amount or percent is entered.
- Click **Save**.

Extra Duty

Include all extra duty codes in the simulation even if there is not an increase.

[Position Management > Utilities > Salary Simulation > Extra Duty](#)

This tab is used to automatically reference the correct extra duty salary for employees based on their extra duty codes. This table can be utilized to alter simulations for those pay rates for part-time functions required at each campus or LEA (e.g., Cheerleader Sponsor, and UIL events).

You must be logged on to a next year pay frequency to access this utility.

Set up extra duty salary data:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Under **Records**:

Sim Name	Displays the simulation name as entered in the Simulation Name field at the top of the page.
Descr	Displays the simulation description as entered in the Simulation Description field at the top of the page.
Extra Duty Cd	Type the appropriate extra duty code for the current simulation, or click  to select the extra duty code from a list.

Click **Retrieve**. The extra duty code data is displayed.

Click **Extra Duty** to select an extra duty code from the Extra Duty lookup. Or, create new entries to be included in the simulation phase.

Under **Modify**, select either of the following criteria to modify extra duty salaries:

- **By Percent**
- **By Dollar Amt**

Under **Salary**:

Amount	Type the dollar or percentage value to increase a salary. The dollar amount can be a maximum of six digits (e.g., 9999.99).
---------------	---

Click **Default** to apply the amount entered in the **Amount** field to each salary.

Note: Only the rows without a value in the **% Increase** or **Amount Increase** columns are affected when applying the default values.

Click **+Add** to add a row.

First 1 / 4 Last Refresh Totals Add

Extra Duty Cd	Type the extra duty code. The field can be a maximum of two characters.
Description	Type the name that best describes the code. The field can be a maximum of 16 characters.
Account Code	An edit mask allows you to type the full 20-digit account number, mask the organization code, or mask the whole account number. If the organization code is masked, when extra duty is assigned to the employee, the organization code from the employee record would complete the code. If the entire code is masked, when extra duty is assigned to the employee, a complete account code must be entered on the distribution record for the employee.
Activity	Click <input type="button" value="▼"/> to select a PEIMS activity code and corresponding description.
Wholly Sep	Click <input type="button" value="▼"/> to select whether the extra duty salary is subject to the Above State Minimum Salary Calculations of the TRS 373 Report.
Exp 373	Click <input type="button" value="▼"/> to select whether the amount is to be distributed for the above state base.
Acct Type	Click <input type="button" value="▼"/> to select an account type that best identifies the type of salary. The Acct Type field is a required field and must be populated to save entries in the table.
W/C Cd	Click <input type="button" value="▼"/> to select the workers' compensation code.
Incl Suppl Dock Rate	Display only and indicates if the supplemental extra duty amount is included in the simulation or not.

The **Amount** field is populated with the salary amount authorized for this extra duty assignment from the next year extra duty table.

Note: Each row can only be changed by a percent or dollar amount, not both, and if a row previously had a value entered in the **Amount Increase** column, and a value is entered in the **% Increase** column, the **Amount Increase** column changes to zero.

% Increase	Type the percentage of the increase.
Amount Increase	Type the dollar amount of the increase.
New Amount	This field is calculated by the system.
Suppl Extra Days	<p>If the extra duty will be used for extra days that the employee works, type the number of additional days to be used for the simulation.</p> <p>If this field is updated, the amount for any extra days worked is calculated. And, if the supplemental position is tied to the employee's regular position, the amount is calculated based on the daily rate of the regular position.</p>

- Click **Refresh Totals** to recalculate the new amounts when a new amount or percent is entered.
- Click **Save**.

Midpoint

The LEA has the option to increase the minimum, midpoint, and maximum and/or increase the employee's pay.

[Position Management > Utilities > Salary Simulation > Midpoint](#)

This tab is used to manage the pay rates for hourly, noncontract employees, and contract employees not covered under the Annual or Hourly/Daily salary tables.

[Midpoint Salary Schedule](#)

Set up midpoint salary data:

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

- Under **Records**:

Sim Name	Display only and indicates the simulation name as entered in the Simulation Name field at the top of the page.
Descr	Display only and indicates the simulation description as entered in the Simulation Description field at the top of the page.
Pay Grade	<p>Click  to select the appropriate pay grade for the current simulation. This option will limit your selection.</p> <p>Note: In addition, you can click the Midpoint button to retrieve and select multiple pay grades from the midpoint table, or create new entries to be included in the simulation phase.</p>

Click **Midpoint** to retrieve and select multiple pay grades from the midpoint table, or create new entries to be included in the simulation phase.

Click **Retrieve**. The midpoint salary data is displayed.

Under **Modify**, select either of the following criteria to modify midpoint salaries:

- **By Percent**
- **By Dollar Amt**

Under **Salary**:

Minimum	Type the percentage or dollar amount each row will increase by.
Maximum	Type the percentage or dollar amount each row will increase by.
Midpoint	Type the percentage or dollar amount each row will increase by.
Max Pct Pay Inc	Type the maximum percentage allowable for the simulation.
Midpt Pct Pay Inc	Type the maximum midpoint percentage allowable for the simulation.

Click **Default** to apply the amounts entered in the **Minimum**, **Maximum**, and **Midpoint** fields to each row.

Note: Only those rows that have no value in the **% Increase** or **Amt Increase** columns are affected when applying the default values.

Click **+Add** to add a row.

Pay Grade	Type the locally assigned, three-character code for the pay grade.
Pay Type	Click <input type="button" value="▼"/> to select a of pay type code.
Hours	<p>Type the number of hours authorized for this pay grade.</p> <p>When pay types 1, 2, and 4 are calculated as daily rates, the Hours field is left blank.</p> <p>When pay type 3 is calculated on an hourly pay rate, the Hours field requires a value.</p>

The system populates the **Minimum** field with the lowest pay rate for this pay grade/pay type from the Midpoint NYR table.

Note: Each row can only be changed by a percent or dollar amount, not both, and if a row previously had a value entered in the **Amount Increase** column, and now a value is entered in the **% Increase** column, the **Amount Increase** column will change to zero.

% Increase	Type the percentage of the increase.
Amt Increase	Type the dollar amount of the increase.
New Min	This field is calculated by the system.

The system populates the **Maximum** field with the highest pay rate for this pay grade/pay type from

the Midpoint NYR table.

% Increase	Type the percentage of the increase.
Amt Increase	Type the dollar amount of the increase.
New Max	This field is calculated by the system.

The system populates the **Midpoint** field with the calculated midpoint pay rate for this pay grade/pay type from the Midpoint NYR table.

% Increase	Type the percentage of the increase.
Amt Increase	Type the dollar amount of the increase.
New Midpoint	This field is calculated by the system.
Max Pct Pay Inc	Type the maximum percentage allowable for the simulation.
Midpt Pct Pay Inc	Type the maximum midpoint percentage allowable for the simulation.
Max Inc/Dec Amt	This field is calculated by the system.
Midpnt Inc/Dec Amt	This field is calculated by the system.

- Click **Refresh Totals** to recalculate the new amounts when a new amount or percent is entered.
- Click **Save**.

Deductions

Designate the estimated employee and employer annual amounts for deductions. Vacant positions can be included.

[Position Management > Utilities > Salary Simulation > Deductions](#)

This tab is used to designate estimated employee and employer annual amounts for deductions. PMIS does not use the next year Staff Job/Pay Data; therefore, employee deductions are not available for budgeting. Vacant positions can also be included in the simulation.

The intent of the employee amount is to have an annual estimated value of deductions that are subject to a Cafeteria Plan 125 that affects FICA/Medicare tax calculations for budgeting purposes. The employer amount is intended for those deductions where employer contribution needs to be budgeted. The simulation looks at the current year payroll to detect which employees have that deduction code, and takes the amount reflected in the **Emp Amt** field on this tab and reduces the employee annual gross on the simulation by that amount for those employees who occupy positions in the next year PMIS to determine the amount of FICA/Medicare that needs to be calculated for Budget. This field is optional; however, leaving it blank will over budget for FICA and Medicare, which may be preferred by some LEAs.

You must be logged on to a next year pay frequency to access this utility.

Designate or add a deduction code:

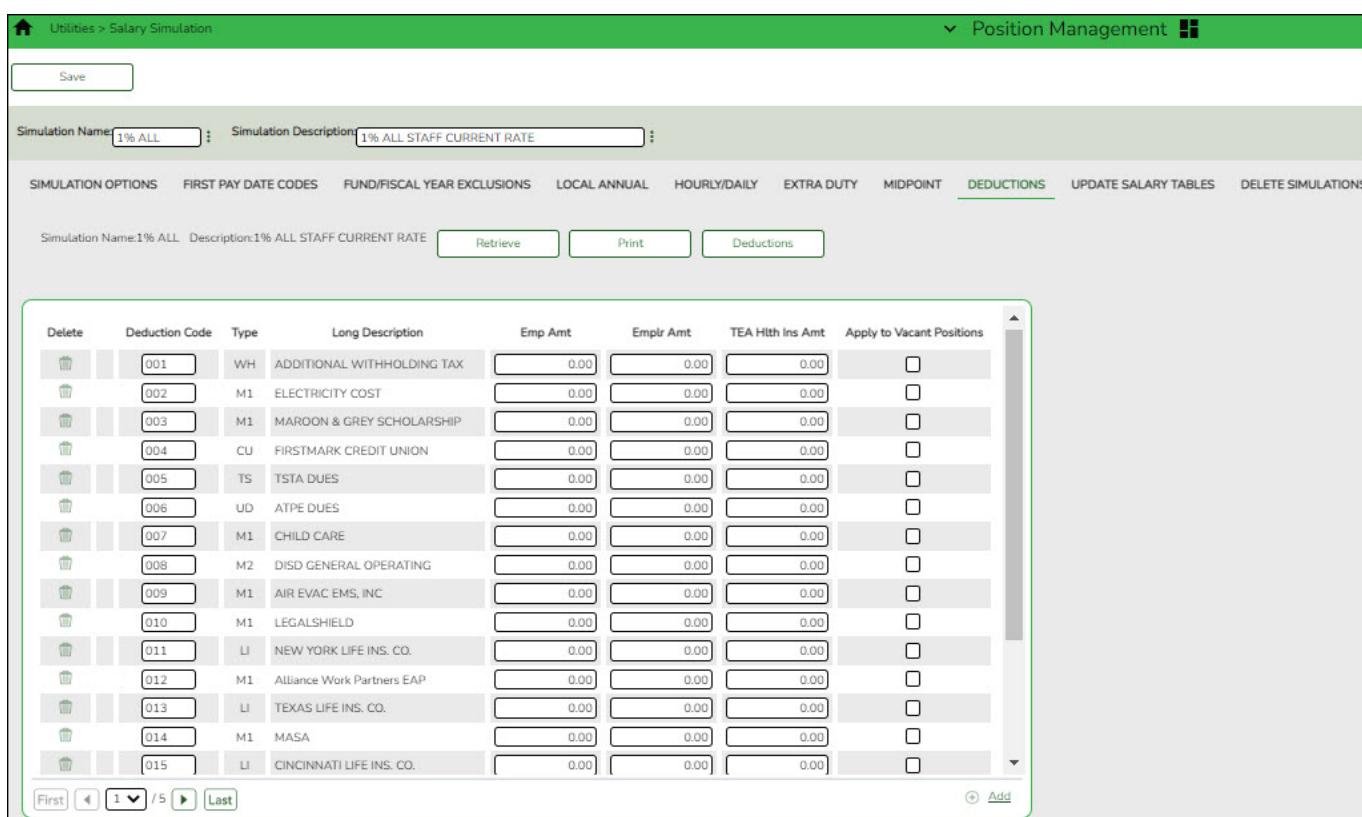

Field	Description
Simulation Name	Type the name of a simulation or click  to select the simulation name from a list.
Simulation Description	Type a description of the current simulation or click  to select the simulation description from a list. The field can be a maximum of 30 characters.

Click **Retrieve**.

Simulation Name	Display only and indicates the simulation name as entered in the Simulation Name field at the top of the page.
Description	Display only and indicates the simulation description as entered in the Simulation Description field at the top of the page.

Click **Deductions** to select a fund from the Deductions [lookup](#).

Click **+Add** to add a row.

The screenshot shows the 'Salary Simulation' page with the 'Position Management' dropdown open. The 'Deductions' tab is selected. At the top, there are fields for 'Simulation Name' (1% ALL) and 'Simulation Description' (1% ALL STAFF CURRENT RATE). Below these are navigation buttons: 'Save', 'SIMULATION OPTIONS', 'FIRST PAY DATE CODES', 'FUND/FISCAL YEAR EXCLUSIONS', 'LOCAL ANNUAL', 'HOURLY/DAILY', 'EXTRA DUTY', 'MIDPOINT', 'Deductions' (which is green and underlined), 'UPDATE SALARY TABLES', and 'DELETE SIMULATIONS'. Under the 'Deductions' tab, there is a table with the following data:

Delete	Deduction Code	Type	Long Description	Emp Amt	Empir Amt	TEA Hth Ins Amt	Apply to Vacant Positions
	001	WH	ADDITIONAL WITHHOLDING TAX	0.00	0.00	0.00	<input type="checkbox"/>
	002	M1	ELECTRICITY COST	0.00	0.00	0.00	<input type="checkbox"/>
	003	M1	MAROON & GREY SCHOLARSHIP	0.00	0.00	0.00	<input type="checkbox"/>
	004	CU	FIRSTMARK CREDIT UNION	0.00	0.00	0.00	<input type="checkbox"/>
	005	TS	TSTA DUES	0.00	0.00	0.00	<input type="checkbox"/>
	006	UD	ATPE DUES	0.00	0.00	0.00	<input type="checkbox"/>
	007	M1	CHILD CARE	0.00	0.00	0.00	<input type="checkbox"/>
	008	M2	DISD GENERAL OPERATING	0.00	0.00	0.00	<input type="checkbox"/>
	009	M1	AIR EVAC EMS, INC	0.00	0.00	0.00	<input type="checkbox"/>
	010	M1	LEGALSHIELD	0.00	0.00	0.00	<input type="checkbox"/>
	011	LI	NEW YORK LIFE INS. CO.	0.00	0.00	0.00	<input type="checkbox"/>
	012	M1	Alliance Work Partners EAP	0.00	0.00	0.00	<input type="checkbox"/>
	013	LI	TEXAS LIFE INS. CO.	0.00	0.00	0.00	<input type="checkbox"/>
	014	M1	MASA	0.00	0.00	0.00	<input type="checkbox"/>
	015	LI	CINCINNATI LIFE INS. CO.	0.00	0.00	0.00	<input type="checkbox"/>

At the bottom of the table are buttons for 'First', 'Previous', 'Next', 'Last', and 'Add'.

Deduction Code	Type a three-digit code identifying the deduction. This code must exist in the Deduction Code table.
Type	Indicates the two-character code identifying the deduction and is automatically populated based the Deduction Code field.
Long Description	Indicates the long name that best describes the deduction code and is automatically populated based on the Deduction Code field.
Emp Amt	Type the annual amount of the contribution by the employee with that deduction.

Emplr Amt	Type the annual amount of the contribution by the LEA for the employee with that deduction.
Apply to Vacant Position	Select to apply the employer amount to vacant positions included in the simulation. Note: If your TRS Active-Care is split between more than one payroll deduction code, only select this field for one of the deduction codes. For example, if you have four TRS Active-Care codes and each one has an annual amount of \$2700 for the employer contribution and you select this field for all four codes, then each vacant position in your reports will reflect a budget amount of \$10,800 for health insurance.

Click **Save**.

Update Salary Tables

Select the simulation records to update the next year salary data. Update all simulations in the next year tables at one time. Once the update process is completed, the process is disabled until the Copy CYR Tables to NYR Tables process is completed again.

[Position Management > Utilities > Salary Simulation > Update Salary Tables](#)

This tab is used to select the simulation records to update the next year salary data. All simulations that will be updated in the next year tables need to be updated at one time. Once the update process has been completed, the process is disabled until the Copy CYR Tables to NYR Tables process is completed again.

It is your responsibility to ensure the simulation has not been updated multiple times, causing the salary tables to be incorrect. It is also important to maintain the integrity of the simulation tables to prevent duplicated steps.

You must be logged on to a next year pay frequency to access this utility.

Update existing salary tables:

All available simulations are displayed on the left side of the page. Use the arrow buttons to select the simulations to be updated.

The screenshot shows the 'Position Management - Position Management' interface with the 'Salary Simulation' tab selected. The left panel displays a list of simulations with columns for 'Select', 'Simulation Name', 'Simulation Descr', and 'User ID'. The right panel shows a single selected simulation with an 'Execute' button. Between the two panels are four transfer buttons: a top-left arrow, a top-right arrow, a bottom-left arrow, and a bottom-right arrow.

Click **Execute**.

If any errors are encountered during the process, an error report is displayed. A listing of all duplicates and rows in the simulation that are not listed in the salary table is displayed. All simulation update processes are disabled until you clear the errors.

[Review the report.](#)

Click **Continue**.

Click **Cancel** to close the report and return to the Update Salary Tables tab.

If no errors are encountered during the process or you clicked **Continue** from the error report, a report for each of the four salary tables is generated.

Click **Cancel** to return to the Update Salary Tables tab without updating.

Click **Process** to process the update. You are prompted to create a [backup](#).

After the export process is completed, the actual update is performed. If the update is successful, a message is displayed indicating that the simulation update was processed successfully.

Delete Simulations

Delete PMIS salary simulation records.

[Position Management > Utilities > Salary Simulation > Delete Simulations](#)

Delete Simulations - HRS6250

Position Management > Utilities > Salary Simulation > Delete Simulations

This tab is used to delete simulation tables. The Delete Simulations tab is not a required step in the simulation process.

You must be logged on to a next year pay frequency to access this utility.

Prior to using this utility, create an export using the [Position Management > Utilities > Export PMIS Tables](#) page.

Delete existing simulation tables:

All available simulations are displayed on the left side of the page. Use the arrow buttons to select the simulations to be updated.

- Click to move selected entries from the left side to the right side of the page.

- Click to move all entries from the left side to the right side of the page.

- Click to move selected entries from the right side to the left side of the page.

- Click to move all entries from the right side to the left side of the page.

Select the simulations to be deleted.

Click **Execute** to delete the selected simulation(s).

Position Management - Salary Simulation Reports

Employee Base Pay Information Report - This report is unique to PMIS for budgeting purposes. The report provides the base salary (no benefits) by pay grade. LEAs can review this information to determine the cost of a base salary amount for a particular pay grade for the listed employees. The forecast amount is the amount reflected on the position in the next year PMIS, the simulation amount reflects the salary amount with the applied increase.
