# ASCENDER - Warehouse End-of-Year Process

**Created:** 05/02/2023

**Reviewed:** in progress

**Revised:** in progress

The purpose of this document is to guide you through the process of ending the current fiscal year and beginning the new fiscal year.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

## Warehouse End-of-Year Process

1. [Generate the BWH1250 - Back Order Report](#).

### Generate the BWH1250 - Back Order Report

[Warehouse](#) > [Reports](#) > [Warehouse Reports](#) > [BWH1250 - Back Order Report](#)

Generate the report for the current year and save a copy.

Parameter Description	Value
Current Year(C)	C

Date Run:		Items On Back Order					Program: BWH1250

<b>Totals for item 001251:</b>				<b>120</b>				

End of Report

## 2. [Create a Finance backup.](#)

### Create a Finance export

[Finance > Utilities > Export Finance Tables](#)

Export a copy of all current finance tables, requisition tables, and accounts receivable tables and save the file.

In the **Enter the Password to be used for the Archive**, enter the password to be used to retrieve the data from the file.

Click **Execute**.

## 3. [Cancel EOY outstanding back orders.](#)

### Create credit card transactions

After the above steps are completed, you can use one of the following three methods to create credit card transactions.

#### 1. Create a requisition in Purchasing

Purchasing > Maintenance > Create/Modify Requisition

☐ Create a requisition.

- In the **Credit Card Code** field, press the SPACEBAR to view a list of credit card codes tied to your user profile. Select the appropriate credit card code.

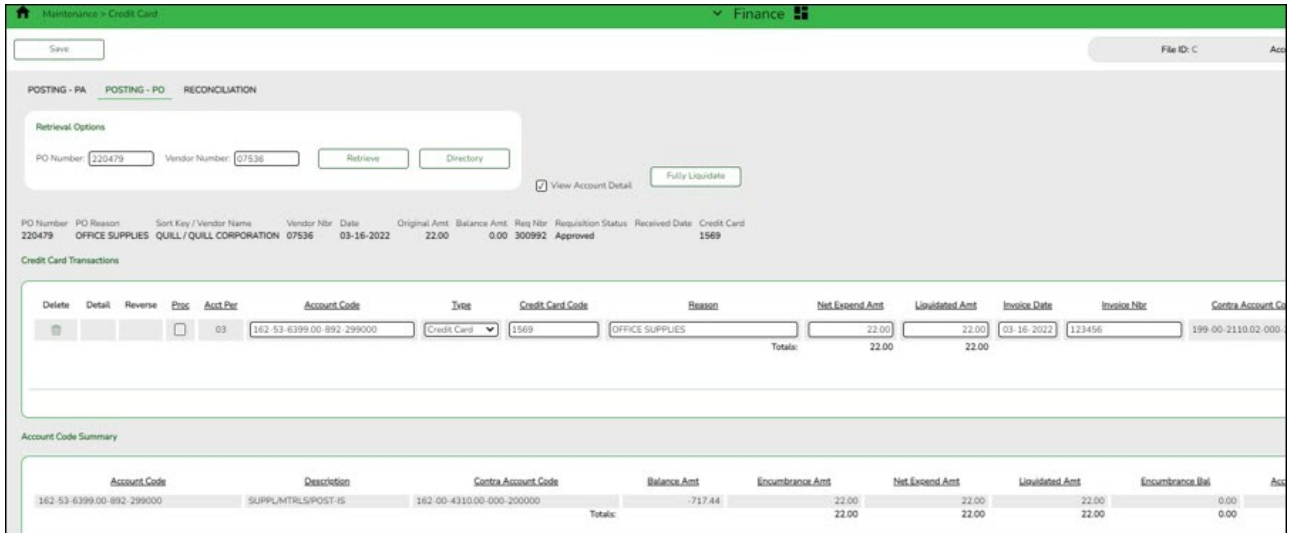

**Reminder:** The vendor selected on the requisition is the vendor that is being paid with the credit card, not the credit card company.

Soft encumbrance:

162-53-6399-00-892-299000	Debit	
162-00-4310-01-000-200000		Credit

**Post the payable transaction:**

Finance > Maintenance > Credit Card > Posting - PO Tab

After the requisition is approved, retrieve the PO to post or create the payable transaction (credit card transaction).

- The contra account is the credit card account from the credit card table even though it is different from the purchasing fund. This means that due to/due from accounts will be created to complete the accounting transactions.

Encumbrance liquidation:

162-00-4310-00-000-200000	Debit	
162-53-6399-00-892-299000		Credit

Expenditure:

162-53-6399-00-892-299000	Debit	
162-00-2177-99-000-200000		Credit
199-00-1261-00-000-200000	Debit	
199-00-2110-01-000-200000		Credit

## 2. Create a PO in Finance

[Finance > Maintenance > Postings > Purchase Order](#)

☐ Create a PO; however, in this case, the payable will be entered as a credit card transaction.

Encumbrance:

162-53-6411-00-892-299000	Debit	
162-00-4310-00-000-200000		Credit

**Post the payable transaction:**

[Finance > Maintenance > Credit Card > Posting - PO](#)

☐ Retrieve the PO to post the payable transaction (credit card transaction). Since this transaction was created without selecting a credit card code, a message is displayed as a reminder. On this tab, a credit card transaction is entered similarly to the [Finance > Maintenance > Postings > Check Processing - PO](#) tab.

- In the **Type** field, select the type of credit card transaction (*Purchase or Return*).

- In the **Credit Card Code** field, select the credit card code for the card used.

Encumbrance liquidation:

162-00-4310-00-000-200000	Debit	
162-53-6411-00-892-299000		Credit

Expenditure:

162-53-6411-00-892-299000	Debit	
162-00-2177-99-000-200000		Credit
199-00-1261-00-000-200000	Debit	
199-00-2110-01-000-200000		Credit

### 3. Create a credit card PA in Finance

[Finance > Maintenance > Credit Card > Posting - PA](#)

- If a PO was not created, a credit card transaction can be posted as a PA.

Expenditure:

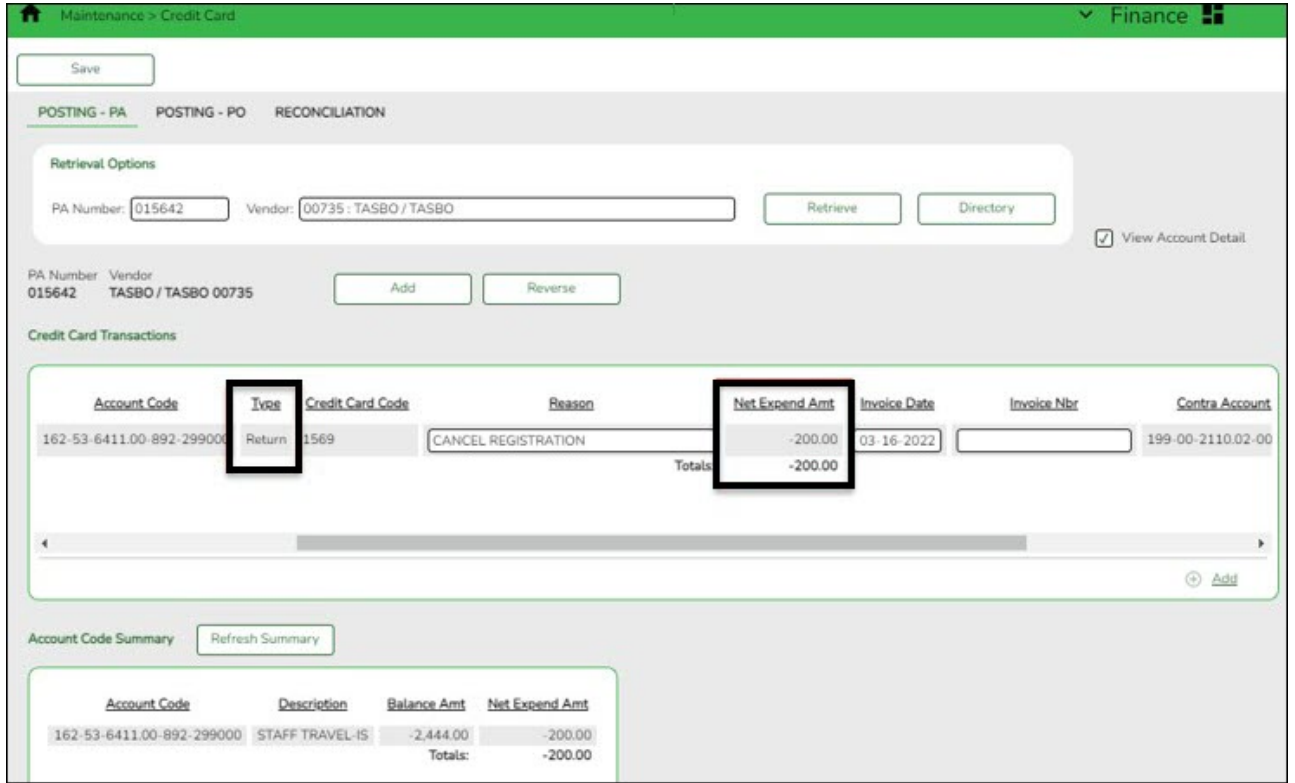

199-41-6499-00-702-299000	Debit	
199-00-2110-01-000-200000		Credit

### 4. [Mass delete requisition records by fund.](#)

## Post returns

Finance > Maintenance > Credit Card > Posting - PA **or** Posting PO

To ensure that the check to the credit card company is correct, all returns must be posted before reconciling the credit card statement.

Verify that the following fields are completed for a return:

- The **Type** field must be set to *Return*.
- The **Net Expend Amt** field must be a negative amount.
- A credit memo number must be entered in the **Credit Memo Nbr** field on this tab prior to saving the record.

In the above example, a return for \$200 to cancel a TASBO registration was created on the Finance > Maintenance > Credit Card > Posting - PA tab.

Reverse expenditure:

162-00-2177-99-000-200000	Debit	
162-53-6411-00-892-299000		Credit
199-00-2110-01-000-200000	Debit	
199-00-1261-00-000-200000		Credit

### 5. Reverse pending requisitions.

## Post interest and miscellaneous charges

Finance > Maintenance > Credit Card > Posting - PA

As needed, create transactions for interest and other miscellaneous charges as a credit card PA transaction.

In the above example, a transaction of \$15 for credit card interest was posted.

Expenditure:

199-41-6499-00-702-299000	Debit	
199-00-2110-01-000-200000		Credit

6. [Initialize year inventory files.](#)

**Reconcile the credit card statement**

[Finance > Maintenance > Credit Card > Reconciliation](#)

After all credit card transactions are entered, reconcile the credit card statement to the credit card transactions.

☐ Use the following fields to begin the reconciliation process:

- In the **Vendor** field, select the credit card vendor (company).
- In the **Credit Card Code** field, select the applicable credit card code to retrieve all transactions that were entered for that credit card.
- In the **Statement Balance** field, enter the credit card balances from the credit card statement.
- Proceed to reconcile the credit card transactions. As returns/payments or charges are selected, the balance and the check amount totals are updated.

☐ Click **Save as Pending** to save and then when finished, click **Reconcile**.

During the reconciliation process in the next month, the payment transaction(s) to the credit card company will be displayed on the [Finance > Maintenance > Credit Card > Reconciliation](#) tab.

**Credit Card Reconciliation Reports**

Totals:			9,274.57

It is helpful for tracking purposes to enter the statement date in the **Invoice Date** field and the statement month as the **Invoice Number**.

7. [Update the fiscal year for Warehouse ID\(s\)](#).

### Process payment to the credit card company

[Finance > Maintenance > Check Processing > Print Checks](#)

Process the payment to the credit card company.

The transaction for the check to be issued to the credit card company is displayed.

To post check:

199-00-2110-00-000-200000	Debit	
199-00-1110-00-000-200000		Credit

During the reconciliation process in the next month, the payment transaction(s) to the credit card company will be displayed on the [Finance > Maintenance > Credit Card > Reconciliation](#) tab.
