# G&P SSA Fiscal Agent Management Setup

The Shared Service Arrangement (SSA) Fiscal Agent Management feature provides fiscal agents a more efficient way to handle grant budget revision requests and reimbursement requests from SSA members as well as manage budget adjustments. Education Service Centers (ESCs) and Local Education Agencies (LEAs) can both serve as designated fiscal agents.

The purpose of this document is to guide you through the necessary steps to assist fiscal agents in administering member LEA grant funds. As members submit requests through MemberPortal, fiscal agents have the ability to promptly move the requests through a customized approval path to ensure timely budget revisions and reimbursements.

If the [Document Attachments](#) feature exists on a page/pop-up window, depending on your access, you may have the ability to upload or view supporting documentation by clicking the **Documents** button or the paper icon.

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

**Over Expend Notes:**

If changes are made to a reimbursement request (amounts are moved between object classes), the amount must be less than the over expenditure limit. Use the following calculation to find the over expenditure limit for an object class:

$$\text{Over Expenditure limit} = (\text{Total Budget} * (1 + \text{Overexpend \%})) \text{ less } (\text{Reimbursement} + \text{Pending Reimbursement})$$

**Example:** The **Total Award** for an object class is 5000, the **Over Expend %** is set to 10%, the **Reimbursement** amount is 400 and the **Pending Reimbursement** is 0.

The calculation is: **5100** = (5000 \* (1 + 10%)) - (400 + 0)

In this example, the **Reimbursement Request** cannot exceed 5100.

If any of the transaction's object class **Reimbursement Requests** are greater than the **Over Expenditure** limit, a budget revision is needed.

<b>Matching Funds</b>	<p>Type the total amount of matching funds. Complete the applicable fields for each object class:

<b>Total Award</b>	Type the total award amount (original amount of the award plus or minus any approved (posted) budget revisions).
<b>Reimbursements</b>	Displays the reimbursement amounts that have been paid.
<b>Pending Reimbursements</b>	Displays the pending reimbursement amounts that have been approved but not paid.

Use the following calculation to find the over expenditure limit for an object class:                      Over Expenditure limit = (Total Budget * (1 + Overexpend %)) less (Reimbursement + Pending Reimbursement)</p> <p><b>Example:</b> The <b>Total Award</b> for an object class is 5000, the <b>Over Expend %</b> is set to 10%, the <b>Reimbursement</b> amount is 400 and the <b>Pending Reimbursement</b> is 0.                      The calculation is: <b>5100</b> = (5000 * (1 + 10%)) - (400 +0)                      In this example, the <b>Reimbursement Request</b> cannot exceed 5100.                      If any of the transaction's object class <b>Reimbursement Requests</b> are greater than the <b>Over Expenditure</b> limit, a budget revision is needed.</p>

This field has a maximum of three digits.  By default, this field is set to zero indicating that no reminders will be sent.  If the value is greater than zero, the Approver has that many days to respond to the approval before a reminder email is sent to the Approver. After the initial reminder email message is sent, email messages are sent on a daily basis until action is taken.
----------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Click **+Add** to add an approver. The [Approver Directory](#) is displayed. Or, click to open the directory and select an approver.

### 3. [Approval emails](#).

#### Approval emails

When a grant request is submitted, it is sent through the appropriate approval path and an email is generated to the approver to notify them of the pending request. If it is a direct request (i.e., the originator is the final approver) and no one else is in the approval path, an email is not generated.

Approvers will receive the following workflow emails:

- Approved email notifications are generated for fully approved grant requests.
- Returned email notifications are generated for returned grant requests.
- Pending approval email notifications are generated for submitted/pending grant requests.

# Set up & Manage Users

The following steps allow fiscal agents to create and manage Grants and Projects and MemberPortal user profiles.

- 1. [Create and maintain user profiles.](#)

## Create and maintain user profiles

[Grants and Projects > Tables > Manage Users](#)

This page is used to manage user accounts in Grants and Projects and MemberPortal. In order for users to have the appropriate access to a grant, user profiles must be completed by linking the user to a specific member and grant type, and assigning the level of access the user has to a grant type. Fiscal agents can use this page to add, change, and delete user accounts in both Grants and Projects and MemberPortal.

Member users can create an account via MemberPortal; however, they will not have access to any grant information until the fiscal agent or MemberPortal admin user completes their user profile.

The screenshot shows the 'Manage Users' page with a search bar and a table of results. The table has columns for 'Delete', 'Detail', 'First Name', 'Last Name', 'Member', and 'Status'. Two users are listed: Lisa Moore and Liz Moreno. Lisa Moore's 'Member' column is blank and highlighted in yellow, with an arrow pointing to a callout box that says 'Incomplete user profile'. Liz Moreno's 'Member' column contains the text '654321 : ASCENDER Academy' and is highlighted in green, with an arrow pointing to a callout box that says 'Complete user profile'. The table also includes pagination controls at the bottom.

 **TIP: It is recommended** that fiscal agents create at least one MemberPortal user with admin permission for each member LEA. Admin users will have access to a Manage Users page in MemberPortal where they can perform all of these same tasks for users within their member LEA.

If the user created an account in MemberPortal, the user's information is displayed in the list of results. However, you will notice that the **Member** column is blank since their user profile has not been completed. At this point, the user does not have access to view any grant

information in MemberPortal.

Click  to open the User detail pop-up window and enter the applicable data to complete the user's MemberPortal profile. The user's **First Name**, **Last Name**, **E-mail**, and **User Name** fields are automatically populated.

**Add a record:**

Click **Add User** to open the User detail pop-up window and enter the applicable data to add a new user and complete the user's profile.

When creating a new MemberPortal user or resetting a user's password, the change password date is set to 01/01/2000, which requires the user to change their password upon logging on to MemberPortal.

Under **User**:

<b>First Name</b>	Type the user's first name. This field can be a maximum of 50 characters.
<b>Last Name</b>	Type the user's last name. This field can be a maximum of 50 characters.

In the **Phone** fields:

<b>Area Cd</b>	Type the three-digit area code of the phone number.
<b>Phone Nbr</b>	Type the seven-digit phone number.
<b>Ext</b>	Type the four-digit extension number if any.

<b>Member</b>	Begin typing a member name or six-digit county district number. As you type the data, a drop-down list of corresponding data is displayed. Select a member. If the member name or county district number is not known, click  to select a member from the <a href="#">Member lookup</a> or press the SPACEBAR to view a list of members.
<b>Admin</b>	Select to indicate that the user is an admin user. Users designated as Admin users will be able to manage users for their assigned member in MemberPortal.
<b>Status</b>	Click  to select the user's status ( <i>A - Active</i> or <i>I - Inactive</i> ).
<b>E-mail</b>	Type the user's email address. The field can be a maximum of 250 characters.
<b>E-mail Opt-Out</b>	Select to indicate that this user is opted out of receiving emails.
<b>User Name</b>	Type a 6-25 character user name. (No embedded spaces are allowed.)

<b>Password</b>	<p>Type a new password. If the user initiated the account profile via MemberPortal, this field is populated with an encoded and masked version of the user's password to secure their credentials. Fiscal agents or admin users can update user passwords as needed.</p> <p>Requirements:</p> <p>Between 16 and 46 characters. Must include at least one of each of the following character types:</p> <ul style="list-style-type: none"> <li>• Uppercase letters (A-Z)</li> <li>• Lowercase letters (a-z)</li> <li>• Numbers (0-9)</li> <li>• At least one allowed special character</li> </ul>
-----------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Under **Grant Types**:

<b>Grant Type</b>	<p>Begin typing the grant type or description. As you type the data, a drop-down list of corresponding data is displayed. Select a grant. If the grant type or description is not known, click  to select a grant from the Grant Types lookup or press the SPACEBAR to view a list of grant types.</p>
<b>Accessibility</b>	<p>Click  to select the user's level of access to the corresponding grant type.</p> <ul style="list-style-type: none"> <li>• All</li> <li>• Inquire Only</li> <li>• Enter and Save Data</li> <li>• Submit Reimbursement Request</li> <li>• Submit Budget Revision Request</li> </ul> <p><b>Note:</b> If a user only has access to enter and save requests, they can only update their requests.</p>

Click **+Add** to add additional rows.

Click **Save**. Otherwise, click **Cancel** to return to the Manage Users page without adding data.

After fiscal agents have completed the above setup process in Grants and Projects, Grants and Projects users and MemberPortal users can begin submitting grant requests.

- Fiscal agent users (on behalf of the member) can submit grant requests using the Grant Maintenance page in Grants and Projects.
- Member users can submit grant requests using the Budget Revision Request and Reimbursement Request pages in MemberPortal.
