Click **Next**. The Supplements page is displayed.

If a supplement position exists, update the number of **Remaining Payments** and click **Execute**. The Separation Report is displayed. In addition to the new pay rate, the salary that the employee would have earned if they worked a full year as well as the salary that the employee actually earned if they did not complete the contract year is displayed.

Review the report for accuracy. If the information is correct, click **Process**. A message is displayed indicating that the Change in Position was successfully processed.

Note: In rare situations, the information calculated in a payoff may include special circumstances making it impossible for the system to perform the calculation. If the separation process is not used, it is important to manually update the position in the current year PMIS if the Staff Job/Pay Data fields were manually updated.
