## Asset Management > Inquiry > Inventory Inquiry

This page is used to inquire about inventory and create an inventory report by using queries. You can decide what fields, conditions, comparison data, and other options should be used to generate the report. This feature allows you to select data based on fields not normally available for selection on other reports.

### Perform an inventory inquiry:

Under **Options**:

Field	Description
<b>Report Title</b>	Type a report title that accurately defines the contents of the report. The field can be a maximum of 20 characters.
<b>Subtotal on Major Sort Field</b>	Select to create a subtotal for each major sort field or leave blank not to create a subtotal on major sort fields.
<b>Subtotal on Dept/Room</b>	Select to create a subtotal for each department/room number, or leave blank not to create a subtotal by department/room numbers.
<b>Page Break on Major Sort Field</b>	Select to set a page break after listing the assets of each major sort field (e.g., buses, department, room), or leave blank to ignore page breaks and print a continuous listing.

Under **Filter**:

<b>Column Name</b>	Click  to select the column for which you would like to retrieve data.
<b>Operator</b>	Click  to select the mathematical symbol for the query.
<b>Value</b>	Type the data to be compared, or click  to select from the list based on the <b>Column Name</b> field selection.

☐ Click **+Add** to add a row to the grid.

Under **Sort**:

<b>Sort Order</b>	Click  to select the order in which columns are sorted for the inquiry.
<b>Ascending</b>	Click  to select if the inquiry data is to be sorted in ascending or descending order.

☐ Click **+Add** to add a row to the grid.

<b>Retrieve</b>	Click to view a copy of the report. <a href="#">Review the report.</a>
-----------------	---

### Other functions and features:

	<p>Click to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved.</p> <p>Click <b>Save</b>.</p>
<b>Reset</b>	<p>Click to reset all previously selected options to the default.</p>
