## Asset Management > Reports > Depreciation Reports > Depreciation Detail Schedule

This report lists fully depreciated, currently depreciated, or all depreciated items with their respective recovery periods. Users can select to view a detail or summary listing. Users can sort by item number, fund, function, object, program, or property class. Reports may also be separated by allocated and unallocated items. **Note:** Item number is not a valid option for the summary report. When selecting item number, the summary report displays by function.
