Export Asset Management Tables - BAM7100

Asset Management > Utilities > Export Asset Management Tables

This utility is used to export a copy of all current asset management tables prior to running major functions. When exporting asset management tables, copies of the asset management data for the logged-on file ID are exported to the archive file located at a destination that you assign.

Export asset management tables:

Field	Description
Export File Name	The export file name is displayed and has the format dbccddd_mmddyyyy_bam.rsf, where cccddd is the county-district number and mmddyyyy is the current date.
Enter the Password to be used for the Archive	Type the archive password to be used when importing the file.

☐ Click **Execute** to execute the process. A Save as dialog box is displayed allowing you to save the file. A message is displayed indicating that the process completed successfully.
