Export Asset Management Tables - BAM7100

Asset Management > Utilities > Export Asset Management Tables

This utility is used to export a copy of all current asset management tables prior to running major functions. When exporting asset management tables, copies of the asset management data for the logged-on file ID are exported to the archive file located at a destination that you assign.

Export asset management tables:

Field	Description
Export File Name	The export file name is displayed and has the format dbccddd_mmddyyyy_bam.rsf, where cccddd is the county-district number and mmddyyyy is the current date.
Enter the Password to be used for the Archive	Type the archive password to be used when importing the file.
Execute	Click to execute the process. A Save as dialog box is displayed allowing you to save the file. A message is displayed indicating that the process completed successfully.
