Export by File ID - BAM7400

Asset Management > Utilities > Export by File ID

This utility is used to copy the selected file IDs to a user-designated archive file. If exporting the current or prior file ID (i.e., file ID C or 3), all Asset Management tables are exported.

Export file IDs:

All available file IDs are displayed on the left side of the page under **Available File IDs**. Select the desired file IDs to be exported. Use the following buttons to move the selected file IDs to the right side of the page.

- Click to move selected entries from the left side to the right side of the page.

- Click to move all entries from the left side to the right side of the page.

- Click to move selected entries from the right side to the left side of the page.

- Click to move all entries from the right side to the left side of the page.

Execute	<p>Execute the process.</p> <p>Click to execute the process.</p> <ul style="list-style-type: none"> <input type="checkbox"/> Click Execute to execute the process. A message is displayed indicating that you are about to export Asset Management tables and confirming that you want to continue. <ul style="list-style-type: none"> • Click Yes to continue the export. • Otherwise, click No to cancel the export. • In the Enter a Password for the Archive field, type a password for the exported file and click OK. • Otherwise, click Cancel. <p>The Save As dialog box is displayed.</p> <ul style="list-style-type: none"> • In the File name field, the file name is set to dbccddd_mmddyyyy_bam.rsfl, where cccddd is the county-district number, X is the file ID, and mmddyyyy is the current date. You can type a different name for the file. Navigate to the appropriate folder and save the file. A message is displayed indicating that the export process completed successfully. Click OK.
