Asset Management > Utilities > Mass Update > Book

This utility is used to update the inventory data on all records, only capital assets records, or only inventory asset records. Values in the drop-down list of the **From** column are derived from the book record values. Values in the drop-down list of the **To** column are derived from the code tables.

Note: When multiple criteria are selected for mass update, records selected must match all criteria.

Mass update book records:

Field	Description
Capital Assets	Select assets that were valued at greater than \$5,000.00 when originally purchased.
Inventory Assets	Select assets that were valued at less than \$5,000.00 when originally purchased, but which require inventory control and management.
Both	Select capitalized and inventory records.
Retrieve an existing item.	<p>Search for a record.</p> <ul style="list-style-type: none"> <input type="checkbox"/> In the Item Nbrs field, type the item number(s) to be updated. • If the item number is not known, click Directory. The Inventory Directory is displayed. • To search for a specific item number, type data in one or more of the search fields. • To search through all available data, leave all fields blank. • Click Search. A list of item numbers matching the search criteria is displayed. • Select the item number(s) from the list and click OK. The Item Nbrs field is populated with the selected item numbers. • Click Cancel or  to close the directory.
