Asset Management > Utilities > Mass Update > Book

This utility is used to update the inventory data on all records, only capital assets records, or only inventory asset records. Values in the drop-down list of the **From** column are derived from the book record values. Values in the drop-down list of the **To** column are derived from the code tables.

Note: When multiple criteria are selected for mass update, records selected must match all criteria.

Mass update book records:

Field	Description
Capital Assets	Select assets that were valued at greater than \$5,000.00 when originally purchased.
Inventory Assets	Select assets that were valued at less than \$5,000.00 when originally purchased, but which require inventory control and management.
Both	Select capitalized and inventory records.
Retrieve an existing item.	<p>Search for a record.</p> <ul style="list-style-type: none"> <input type="checkbox"/> In the Item Nbrs field, type the item number(s) to be updated. If the item number is not known, click Directory. The Inventory Directory is displayed. To search for a specific item number, type data in one or more of the search fields. To search through all available data, leave all fields blank. Click Search. A list of item numbers matching the search criteria is displayed. Select the item number(s) from the list and click OK. The Item Nbrs field is populated with the selected item numbers. Click Cancel or  to close the directory.
Change Property Class	<p>Select to change the property class for the selected item(s).</p> <p>In the From column of the Property Class field, click ▼ to select the original property class code from the inventory records.</p> <p>In the To column of the Property Class field, click ▼ to select the new property class from the asset management code tables.</p>
Change Method	<p>Select to change the method for the selected item(s).</p> <p>In the From column of the Method field, click ▼ to select the original method number from the inventory records.</p> <p>In the To column of the Method field, click ▼ to select the new method number from the asset management code tables.</p>

Change Convention	<p>Select to change the convention code for the selected item(s).</p> <p>In the From column of the Convention field, click ▼ to select the original convention code from the inventory records.</p> <p>In the To column of the Convention field, click ▼ to select the new convention code from the asset management code tables.</p>
Execute	<p>Click to execute the process. When the processing is completed, the Mass Update Book Records report is displayed. Review the report.</p> <p>Review the report using the following buttons:</p> <p>Click  to go to the first page of the report.</p> <p>Click  to go back one page.</p> <p>Click  to go forward one page.</p> <p>Click  to go to the last page of the report.</p> <p>The report can be viewed and saved in various file formats.</p> <p>Click  to save and print the report in PDF format.</p> <p>Click  to save and print the report in CSV format. (This option is not available for all reports.) When a report is exported to the CSV format, the report headers may not be included.</p> <p>Click X to close the report window. Some reports may have a Close Report, Exit, or Cancel button instead.</p>
Process	<p>Continue the process.</p> <p><input type="checkbox"/> Click Process to update the selected records in the asset management tables.</p> <p>A message is displayed indicating that the process was successfully completed. Click OK.</p>
