## Budget > Maintenance > Budget Data > Approved

This tab used to create, delete, and duplicate account codes, and enter amounts and notes associated with those account codes. An account code that is added, deleted, modified, or duplicated on this tab also changes the account code on the Requested and Recommended tabs. Changes in account codes on the Requested and Recommended tabs also affect the Approved tab.

If an account code or fund and fiscal year have been locked, changes cannot be made to that account amount or the notes on any of the tabs. Accounts can be locked by setting a date on the Tables > Budget Options page. Accounts, amounts, and notes can no longer be accessed after the cutoff date. You can use the Utilities > Mass Lock/Unlock page to lock individual accounts, associated amounts, and notes.

All available account codes are displayed.

### Narrow the account code list:

Field	Description
<b>Account Code</b>	The 20-character account code mask with all Xs is displayed. Type only the account code elements (e.g., fund, function, object, etc.) to be included in the search. Each account code component is independent of the other components.

Click **Retrieve**. All account codes with the selected account code elements are displayed.

### Review and add account code data:

Click **+Add** to add a row to the last page of account codes.

- Click **Last** to go to the last page if there is more than one page of account codes.
- Populate the account code component fields, and the **Next Yr Recommended** and **Description** fields.

<b>Lock</b>	The lock status of the account code is displayed. Y - The account code is locked. N - The account code is unlocked. Use the Mass Lock/Unlock utility to lock or unlock the selected account.
<b>Note</b>	The note status of the account code is displayed. Y - Comments exist. N - No comments exist.
