## **Budget > Utilities > Budget Level Processing > Copy Level**

This tab is used to copy amounts from one budget level to another budget level. All amounts currently in the **From Level** are copied to the **To Level**. This feature enables the user to view and process from different levels. The cutoff date validates against the To level; it does not validate against the From level. The ability to perform this function is not dependent on being authorized to access to the Requested, Recommended, and Approved tabs.
