1099 Record Maintenance - FIN3400

Finance > Maintenance > 1099 Record Maintenance

This page permits you to verify, add, delete, or update check transactions by vendor to ensure accuracy of the vendors' 1099 records. The page can be populated using the Create 1099 Work Table located in Utilities. All transactions that meet the qualifications of the Tables > 1099 Object Codes page for vendors marked 1099 eligible, are created and displayed here.

- If the district has not created the 1099 Object Codes table, all transactions for 1099-eligible vendors are displayed.
- If the district's student activity fund is not maintained on the system, you can add transactions for vendors that should be reported as income on the vendor's 1099 MISC forms.
- If the Create 1099 Work Table - Add is performed after a manual add or manual change of an existing record, the manual entries are not deleted by this process.
- If the Create 1099 Work Table - Delete is performed after a manual add or manual change of an existing record, the manual entries are deleted by this process.

Perform 1099 record maintenance:

Field	Description
Vendor	Begin typing the vendor name or number. As you type the data, a drop-down list of corresponding data is displayed. Select vendor name and click Retrieve . The vendor record is displayed. If the vendor name or number is not known, click Directory . The Vendors directory is displayed.

Click **+Add**. The following fields are displayed.
