Pending Payables - FIN3250

Finance > Maintenance > Pending Payables

This page is used to match invoices to the corresponding receiving transactions and create check transactions.

To view Purchasing pending payable transactions on this page, **Create Receiving Payables** must be selected on the District Administration > Options > Purchasing/Warehouse page.

- If **Use Commodity Codes in Finance Payables** is selected on the [District Administration > Options > Purchasing/Warehouse](#) page:
 - The **Actual Cost** field can be modified.
 - The **Net Expend Amt** field cannot be modified.
 - If the **Freight %** is greater than zero, then the **Freight Amt** field can be modified. If not, then the field cannot be modified.
- If **Use Commodity Codes in Finance Payables** is not selected:
 - The **Actual Cost** field cannot be modified.
 - The **Net Expend Amt** field can be modified.
 - The **Freight Amt** field cannot be modified.

To view Warehouse pending payable transactions on this page, **Create Receiving Payables** must be selected on the [Warehouse > Tables > Warehouse Options](#) page. Only restock orders are used from Warehouse.

- If **Use Commodity Codes in Finance Payables** is selected on the Warehouse > Tables > Warehouse Options page:
 - The **Actual Cost** field can be modified.
 - The **Net Expend Amt** field cannot be modified.
 - If the **Freight %** is greater than zero, then the **Freight Amt** field can be modified. If not, then the field cannot be modified.
- If **Use Commodity Codes in Finance Payables** is not selected:
 - The **Actual Cost** field cannot be modified.
 - The **Net Expend Amt** field can be modified.
 - The **Freight Amt** field cannot be modified.

A list of all available Purchasing and Warehouse pending payable transactions from the logged on file ID is displayed.

Retrieve and select a transaction:

Use one of the following fields to narrow the list of items.

Field	Description
Nbr	Type the purchase order number

Field	Description
Vendor	Begin typing the vendor name or number. As you type the data, a drop-down list of corresponding data is displayed. Select the vendor name from the list.

Click **Retrieve**. A list of pending payable transactions for the selected vendor is displayed.

To narrow your search even further, use the **Search** field in the upper-right corner of the grid to type a specific keyword (e.g., vendor, amount, type, etc.). As you type data in the **Search** field, a list of records matching your search is displayed.

The following information is displayed for each transaction:

- **Type** - transaction type (Purchase Order, Inventory Restock)
- **Nbr** - purchase order number for the transaction
- **Vendor** - vendor number and name
- **Date Received**- date the transaction was received
- **Rcvd By** - name of the person who received the transaction
- **Rcvd Amount** - amount received
- **Whse Cd** - warehouse code
- **Originator** - name of the person who originated the transaction or **Bundled Requisition/PO** if the transaction is part of a bundle.

Click  to select a transaction. The purchase order details are displayed.

In the upper section, the following fields are displayed but cannot be modified.

- **Type & Number**
- **Vendor**
- **Whse Cd**
- **Received Date**
- **Received Amount**
- **Received By**
- **Originator**
- **Original Amount**
- **Balance Amount**
- **Credit Card Code**

Create a check transaction:

Complete the following fields for the transaction:

Reason	The reason is automatically populated from the purchase order; however, it can be modified. The field can be a maximum of 30 characters.
Invoice Date	Type the date of the invoice being paid by the transaction. Or, select a date from the calendar.
Invoice Nbr	Type the invoice number being paid by the transaction.
Due Date	Type the due date in the MMDDYYYY format.

<p>EFT</p>	<p>Select to disburse the payment via an electronic funds transfer. By default, By default, the EFT field is automatically selected if the vendor retrieved has bank information on the Maintenance > Vendor Information > Vendor Miscellaneous tab and an EFT email address on the Maintenance > Vendor Information > Vendor Name/Address tab. If a check is needed, unselect the EFT field.</p> <p>Notes:</p> <ul style="list-style-type: none"> • The vendor must have bank information and an EFT email address on file to be eligible for an electronic funds transfer. • This field is not displayed for purchase orders that were created using a credit card code. • If Separate Check is selected, EFT is unselected. Leave Print selected as this allows the transactions to be processed during the check run.
<p>Separate Check</p>	<p>Select if a vendor has multiple transactions and/or multiple purchase order transactions and you need a separate check for one (or more) transactions. When selected, the associated transactions are displayed as separate check items in the list of checks to be processed.</p> <p>When checks are processed, those transactions with Separate Check selected are issued separately. This functionality creates a single check per vendor per PO/PA number. If selected, a credit memo is not be applied and the check amount will be for the full amount. Check transactions without Separate Check selected are grouped by the vendor number.</p> <p>Example 1: There is three separate POs for the same vendor. The first PO has two transactions, one of which has Separate Check selected. The second PO has a transaction that does not have Separate Check selected. The third PO has a transaction that also does not have Separate Check selected. When checks are processed, two checks are issued: one for the transaction with Separate Check selected and one for all the other transactions for that vendor.</p> <p>Example 2: There is one PO with two transactions for the same vendor. One transaction has Separate Check selected, the other does not. When checks are processed, two checks are generated.</p> <p>Example 3: There is one PO with two transactions for the same vendor. Both transactions have Separate Check selected. When checks are processed, two checks are generated.</p> <p>Notes: This field is not displayed for purchase orders that were created using a credit card code.</p>
<p>Trans Date</p>	<p>The current system date is displayed by default; however, the date can be modified.</p>
<p>Freight Amt</p>	<p>If enabled, type the freight cost or leave the field blank if there are no charges.</p>

Under **Items Received**, the following purchase order details are displayed and cannot be modified.

- **Item**
- **Catalog**
- **Item Description**
- **Commodity**
- **Quantity Received**
- **Ordered Cost**

<p>Actual Cost</p>	<p>If enabled, type the actual cost of the line item.</p>
---------------------------	---

Under **Account Summary**, the following account code details are displayed and cannot be modified.

- **Account Code**
- **Description**
- **GL Balance Amt**
- **Liquidate Amt**

Net Expend Amt	If enabled, type the net expenditure amount for the account code(s). The purchase order is liquidated by the net expenditure amount.
-----------------------	--

Click **Submit/Return** to create the check transaction. The pending payable transaction is automatically deleted and you are returned to the main page.

OR

Click **Submit/Stay** to create the check transaction. The pending payable transaction is not automatically deleted but instead, a submit date is added to the record. The submit date is used to indicate that the pending payable transaction is completed but has not been deleted from the table. Click **Delete** to delete the pending payable transaction.

- After you click **Submit/Stay**, the Document Attachments functionality becomes available and the **Inv Documents** button is displayed allowing you to upload documents. The Document Attachments functionality is not available for bundled requisitions.

These actions do not affect the general ledger. You can view the check transactions on the [Finance > Maintenance > Postings > Check Processing - PO](#) tab or go directly to the [Finance > Maintenance > Check Processing > Print Checks](#) tab for processing.

Other functions and features:

Return	Click to return to the Pending Payables page.
Delete	Click to delete a transaction.
