

# **Extract data to Asset Management**

## **Table of Contents**

### **Extract to Asset Management**

#### Finance > Utilities > Extract to Asset Management

Run the Extract to Asset Management utility to extract data from Finance to Asset Management.

☐ Under Create Asset Management Extract File from, select Processed Check Transactions to enable the Year fields and complete the Acct Period, Thru, and Fiscal Year fields for the accounting periods you want to capture.

**TIP**: The value in the **Thru** field should be the month where you last posted check transactions.

#### Notes:

- The **Use Asset Management Cross-Reference Table** option on the District Finance Options page must be selected before assets/inventory transactions can be extracted.
- The Asset Management Cross-Reference table must have object/subobject codes for all assets/inventory before assets/inventory transactions can be extracted.

☐ Click **Extract**. The Asset Management Extract report is displayed. Be sure to save or print the report.
