Depending on your view, click  or **My Applications** to view a list of only the applications to which you have rights.

All other applications are listed under **Other Applications**. Click  view a list of other applications to which you do not have rights.

Access rights for each application must be set in Security Administration by a user with access to that system.

If you attempt to open an application you do not have rights to, the following page is displayed:

Click **Exit** to return to the ASCENDER Home page.
