Table of Contents

When you access this page, last year's options are selected by default. This allows you to review what was done last year and think about how to proceed this year.

Before running this process, click **Reset** to clear last year's selections. This resets all funds to **Increment** allowing you to manually update each selection as needed.

Field	Description
New File ID	Click to select the new historical GL file ID to which you want to copy all tables and transactions. The field defaults to the last digit of the "to" school year. The drop-down displays a list of all GL file IDs that are not in use. This is a required field.
Accounting Period	Displays the Starting Accounting Period from the Finance > Tables > District Finance Options > Finance Options tab. This accounting period is used for all JVs created in file ID C. Only one accounting period can be open.
JV Number	Type an alphanumeric journal voucher number. This JV number is used for all system JV entries. This is a required field.
Historical Transaction Date	Type the historical transaction date in the MM-DD-YYYY format or select a date from the calendar. This date is used for all system entries in the new historical file ID. This is a required field.
New Year Transaction Date	Type the new year transaction date in the MM-DD-YYYY format or select a date from the calendar. This date is used for all system entries in the new current file ID. This is a required field.

Under **Fund Selection**, a list of each **Fund/Year** in the signed-on GL file ID is displayed. Select the appropriate option(s) for each fund.

Notes: The following occurs for all funds:

- All funds are copied to the new historical file ID.
- All budget amendments are deleted.
- All current year requisitions are reversed.

Increment	<p>Select for the funds to be incremented (i.e., funds that will change their fiscal year at the same time that the LEA's new fiscal year will begin). The increment option is not available if the incremented fund already exists. For example, in September 2023, funds 211/3 and 211/4 already exist; therefore, 211/3 can only be continued or deleted.</p> <p>If selected, the following actions are automatically completed: The fiscal year is incremented on credit memos.</p> <p>The fiscal year is incremented on outstanding Accounts Receivable invoices. The fiscal year is incremented on the payroll and PMIS distributions for active employees only.</p> <p>Only purchase orders that include continuing funds are re-encumbered. Purchase orders that are split-funded and include funds where the fiscal year is only being incremented will be deleted. For example, if a purchase order is split between 211 (continuing fiscal year) and 199 (incremented fiscal year), then you will have to re-enter the purchase order in the new file ID.</p> <p>The following are optional: Carry Forward Balances Create 5XXX-8XXX Accounts</p>
------------------	--

Continue

Select for the funds to be continued into the new fiscal year (i.e., funds maintaining the fiscal year even after the LEA begins the new fiscal year).
 If selected, the following actions are automatically completed:
 The 1XXX-4XXX account balances are carried forward (the **Carry Forward Balances** field is automatically selected).

The 5XXX-8XXX account balances are created (the **Create 5XXX-8XXX** field is automatically disabled).

The budget amounts that match the ending balances in the historical file ID are set up for the 5XXX-8XXX accounts. For example, if only \$8,000 of a \$10,000 grant has been received, then the difference of \$2,000 is established as the estimated revenue.

The difference between revenue and expenditures will post to the Obj.Sobj in the **Actual Fund Balance Obj.Sobj** field on the [Finance > Tables > Account Codes > Fund](#) tab.

In the new historical file ID, accounts are inactivated for all continuing funds. Incremented funds remain active.

Only purchase orders that include continuing funds are re-encumbered. The purchase order is re-encumbered in file ID C for the original amount +/- encumbrance adjustments, +/- liquidation amounts from check and credit card transactions. Purchase orders that are split-funded and include funds where the fiscal year is only being incremented will be deleted. For example, if a purchase order is split between 211 (continuing fiscal year) and 199 (incremented fiscal year), then you will have to re-enter the purchase order in the new file ID.

Be aware that purchase orders containing continuing funds will be displayed in both the historical and new current file ID but should be paid in the new file ID.

The fiscal year is not updated on credit memos.

The fiscal year is not updated on outstanding Accounts Receivable invoices.

The fiscal year is not updated on payroll and PMIS distributions.
