If your LEA uses the next year Purchasing feature, move all purchase orders and requisitions that were created in next year Purchasing to Finance and current year Purchasing.

The **Requisition Accounting Period in Current Finance** field is display only and is populated by the requisition accounting period data from the [Finance > Tables > District Finance Options](#) page. Requisitions that are moved to Finance are created in the current accounting period.

In the **PO Date** field, type 07-01-2018 for early fiscal year LEAs or 09-01-2018 for standard fiscal year LEAs.

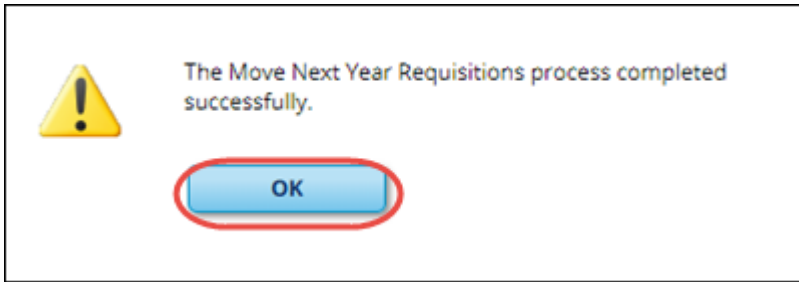

Select **Move Next Year Requisitions to Current and Update Finance** to transfer all next year requisitions to the current year and update the Finance general ledger.

Click **Execute**. The Over Expend Report is displayed if you have account codes that are over budget. Review and print the report.

Click **Continue**. The Move Next Year Requisitions to Current Year report is displayed. Use this report to determine if budget amendments need to be done in Finance.
