Complete the accrual calendar

Log on to the current year pay frequency.

[Payroll > Tables > Accrual Calendars > Accrual Calendar](#)

If applicable, complete the accrual calendar for employees with July contracts. This may be necessary if you accrue any employees working longer than 10 months, for example, you have an 11-month employee.

Enter the new pay dates and accrual days for all applicable accrual codes. The total number of days should equal the number of days employed for that group of employees.

The screenshot displays the 'Accrual Calendar' interface. At the top, there is a 'Save' button. Below it, the 'ACCRUAL CALENDAR' section contains 'Retrieve' and 'Print' buttons. The interface is divided into two main panels. The left panel shows a table with the following data:

Delete	Details	Accrual Code	Total Days Worked
		A	187.0
		B	207.0

The right panel shows a table with the following data:

Delete	Pay Date	Days Worked
	08-31-2025	20.00
	09-25-2025	21.00
	10-24-2025	22.00

- Continue adding pay dates and days worked for the remainder of the school year. The dates must equal the dates in your pay dates table. All pay dates should be entered even if zero days are accrued for that month. This information is LEA-specific.
