And, for CYR payroll purposes, the employee must have payroll records in CYR.</p> <ul style="list-style-type: none"> <li>• <i>1 - Active professional</i></li> <li>• <i>2 - Active auxiliary per</i></li> <li>• <i>3 - Retired</i></li> <li>• <i>4 - Resigned</i></li> <li>• <i>5 - On Leave</i></li> <li>• <i>6 - Substitute</i></li> <li>• <i>7 - Substitute retired</i></li> <li>• <i>8 - Temporary</i></li> <li>• <i>9 - Other</i></li> <li>• <i>A - Long Term Substitute</i></li> </ul>

Under **Employment Dates:**

<b>Original Emp. Date</b>	<p>Type the original date on which the individual was employed by the LEA in the MM-DD-YYYY format. This date does not change if the employee left the LEA and then returned.</p> <p>This field is required to extract the employee for State Reporting.</p> <p><b>Note:</b> Employees are only included in the Instructor directory in Grade Reporting if they have an <b>Original Emp. Date</b> or <b>Latest Re-Employ Date</b>. If an employee does not have an employment date or if the employee has a termination date that is greater than their latest employment date, then the employee is not included in the Instructor directory.</p>
<b>Latest Re-Employ Date</b>	<p>Type the date the employee began his current period of employment in the MM-DD-YYYY format. The field applies only to employees who worked for the LEA, left the LEA, and then returned. If the employee never left the LEA, the field is left blank.</p>
<b>Termination Date</b>	<p>Type the date that the termination of the employee went into effect in the MM-DD-YYYY format. This field is used only for employees who have been terminated from their positions. When a date is entered in the <b>Date</b> field, the system deselects all remaining months for the year in the <b>Unemployment Eligibility</b> section, except for the actual termination month.</p> <p>The termination date and reason are used to exclude the employee from TEA reporting.</p>
<b>Extract for TSDS</b>	<p>Select to include the employee in TSDS Staff Domain extracts regardless of their employment status. This allows those individuals with a <b>Not Employed</b> status to be included in the TSDS extract process. This option is useful for job abandonment instances where a termination date must be entered.</p>
<b>Termination Reason</b>	<p>Click  to select the reason the employee was terminated. The termination reasons are maintained on the <a href="#">Personnel &gt; Tables &gt; Job/Contract &gt; Termination Reason</a> tab.</p>

<b>Eligible for Re-hire</b>	Select if the employee is eligible for rehire.
<b>Percent Day Employed</b>	<p>Type the percentage of a standard district (LEA) workday for which the employee is hired to work.</p> <p>This field is required.</p> <p>For an employee on contract, the percentage can be determined directly from the contract: full-time = 100, half-time = 050, and so on. For a non-contract employee, the percentage can be determined as follows.</p> <p><b>Example:</b> The standard workday for the LEA is 7 hours. An employee is hired to work for 4 hours per day. This data element is coded as 057 for the employee because <math>4/7 = .571</math> is rounded down.</p> <p>Employees such as cafeteria workers and bus drivers who work only a few hours each day should not be reported as 100 in this field. Consider the number of hours worked in relation to the standard LEA workday, not the job. The field can be a maximum of three digits.</p>
<b>Pct Day Employed Effective Date</b>	Type the employee's start date or the date they were hired. If the <b>Percent Day Employed</b> is changed, type the effective date of the change. This field only applies to employees with an <b>Employee Status</b> of 1, 2, 3, 4, 5, or A, and is only enabled when the <b>Percent Day Employed</b> is changed. **Notes:**

The drop-down options are populated based on the year in the **School Year for PEIMS Codes** field on the Tables > District HR Options page.

This data is part of the StaffEducationOrgEmploymentAssociationExtension complex type collected in PEIMS Submission 1.

Professional and paraprofessional staff may also be reported with an Auxiliary Role ID if they serve the LEA in a non-professional or non-paraprofessional role. A classroom teacher (Role ID 087) who also drives a bus route for the school would require an Auxiliary Role ID to be reported. In this case, the employee would have at least two payroll accounting entries: one with object code 6119, and one with object code 6129. Because there may be duplication between Role ID and Auxiliary Role ID, the LEA must use its discretion in determining if the employee is serving in a professional or non-professional capacity.
