This utility is used to import a comma-delimited text (.txt) file to insert insurance data to the Maintenance > ACA 1095 YTD Data > 1095-B and 1095-C pages.

You must be logged on to a current year pay frequency to access this utility.

Additional import notes:

If **Insert new records from import file.** is selected, one of the following occurs:

- If 1095-B or 1095-C employee records exist without 1095-B or 1095-C coverage data, new 1095-B or 1095-C coverage rows are inserted.
- If 1095-B or 1095-C employee records exist with 1095-B or 1095-C coverage data, no new 1095-B or 1095-C coverage rows are inserted.

If **ACA 1095-C Covered Individuals** is selected, then the **Self-Insured** indicator is set to Y for processed employees.
