# Table of Contents

This tab is used to establish and maintain a position record for each position at the LEA. If using Position Management, a position record is established for each position by assigning a position number and billet number to the job. Each position should have a default record with a 0000 billet number. A default record allows you to easily create a new position record using the default record data.

The screenshot shows the 'Maintenance > PMIS Position Admin' interface. At the top, there is a 'Save' button. Below it, there are input fields for 'Position Number' (containing 'PSD1802') and 'Position Description' (containing 'CHILDCARE PROVIDER'), with a 'Retrieve' button to the right. A table displays three records for 'CHILDCARE PROVIDER' with columns for Delete, Details, Billet, Sch YR, Description, Status, Freq, Emp Nbr, First Name, Middle Name, Last Name, and Gen. Below the table are navigation buttons: 'First', '<', '1', '/ 1', '>', and 'Last'. At the bottom, there are tabs for 'POSITION RECORD', 'DISTRIBUTION', 'DATE', and 'BUDGET'. The 'DATE' tab is active, showing a 'Dates' section with fields for 'Date Filled', 'Date Authorized', 'Date Authorization Ends', 'Date Entered', 'Date Inactivated', and a 'Reason Inactivated' dropdown menu.
