## **Calculating Retiree Surcharge**

The Run Payroll process uses the **Retiree Exception** field on the Payroll > Maintenance > Staff Job/Pay Data > Job Info tab along with the **Employment Type** and **Take Retiree Surcharge** fields on the Personnel > Maintenance > Employment Info tab to determine whether or not to calculate a retiree surcharge for an employee. This table provides information on when a surcharge should be calculated based on these factors.

#### Key:

<b>Employment Type</b>	F - Half-Time or more
