Special Adjustment, Percent Example

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

| From Pay Date: 09012001 | To Pay Date : 08302002 |
|----------------------------------|--------------------------------|
| From Job Code: 001 - Teacher | To Job Code: 001 - Teacher |
| From Primary Campus: 101 - Elem. | To Primary Campus: 101 - Elem. |

| From Account Code | To Account Code |
|-----------------------------|-------------------------------|
| 199-11-6119-00-101-211000 | _X_ 199-11-6119-00-101-211000 |
| 199-11-6119-00-101-224000 | _X_ 199-11-6119-00-101-224000 |
| 199-36-6118-00-999-299000 | 199-36-6118-00-999-299000 |
| X 211-11-6119-00-101-224000 | |

Percent of Account: 30.00%

The calculated amount, based on defined percentage, is disbursed among the account codes selected in **To Account Code**. Disbursement among two or more accounts will then be made according to the percentages in the employee Staff Pay/Job distribution page.

| From Account Code | Salary History | Benefits | Accruals |
|-----------------------------|----------------|----------|----------|
| 199-11-6119-00-101-X11000 | \$5000 | \$300 | \$100 |
| 199-11-6119-00-101-X24000 | \$3500 | \$350 | \$275 |
| 199-36-6118-00-999-X99000 | \$1500 | \$200 | \$150 |
| X 211-11-6119-00-101-X24000 | \$1000 | \$100 | \$50 |

Employee's Master Distribution

X 199-11-6119-00-101-X11000 50% _X_ 199-11-6119-00-101-X24000 25% ___ 199-36-6118-00-999-X99000 25%

Internal Calculations

To Account Code

50% plus 25% = 75% (what percentage of the whole do 50% and 25% represent?)

50%/75% = 66.666%

25%/75% = 33.334%

From Account Code - 211-11-6119-00-101-X24000 Calc of salary x percentage

(6119) Transaction Pay History = $$1,000 \times 30\% = 300

(614X) Trans Health Benefit History = $$100 \times 30\% = 30

(216X) Transaction Accrual History = $$50 \times 30\% = 15

To Acct Codes 199-11-6119-00-101-X11000 199-11-6119-00-101-X24000

(and associated benefit codes)

| Pay | $$300 \times 66.666\% = $200 (rounded)$ | \$300 x 33.334% = \$100 (rounded) |
|----------|---|-----------------------------------|
| Health | \$100 x 66.666% = \$20 (rounded) | \$100 x 33.334% = \$10 (rounded) |
| Accruals | \$15 X 66.666% = \$5 | \$50 X 33.334% = \$10 |
