**Log on to the current year pay frequency.**

**CAUTION:** Before moving forward, keep in mind that this step clears all manual changes that were made to next year salary tables.

Perform the following two processes:

[Payroll > Next Year > Copy CYR Tables to NYR > Clear Next Year Tables](#)

This tab is used to clear:

- All next year tables for all pay frequencies regardless of the pay frequency to which you are logged on.
- Only EOY accrual data.
- Only next year payroll budget data.

Individual frequencies cannot be selected for deletion.

**Note:** EOY accrual reversals must be created and interfaced to Finance before clearing next year tables or EOY accrual data only.

**Clear next year tables:**

Field	Description
<b>Clear EOY Accrual Data Only</b>	Select to clear the EOY accrual data records only. All other next year data is left intact.
<b>Clear NY Payroll Budget Only</b>	Select to clear the next year payroll budget records only. All other next year data is left intact.

**Note:** If an option is not selected, all displayed next year tables for all pay frequencies (regardless of the pay frequency to which you are logged on) are cleared when you click **Execute**.

All available next year payroll tables are displayed on the left side of the page. Select the tables to clear. Use the arrow buttons to move the selected tables from the left side to the right side of the page.

Click **Execute**. A message is displayed indicating that the next year records have been cleared. Click **OK**.

[Payroll > Next Year > Copy CYR Tables to NYR > Copy Current Year Tables](#)

This tab is used to copy all tables or selected tables as next year records for the corresponding next year frequency (e.g., CYR = 6, NYR = F; CYR = 5, NYR = E; and CYR = 4, NYR = D). The tables are copied from all current year frequencies to all next year frequencies (except the School Calendar table). The School Calendar table header is only copied for the frequency to which you are logged on. To copy the school calendar for another frequency, log on to the other frequency and copy the School Calendar table. The calendar itself is not copied, only the calendar code and calendar description. Type the year in the **Start Year** field and the beginning month in the **Start Month** field to begin the process of building the next year calendar.
