Table of Contents

District Administration > Tables > PMIS > Action Reason

This page is used to create and maintain a list of action reason codes to be used throughout the Position Management Information System (PMIS).

An action code is required when a change is made to a position record creates a historical record. Action Codes for termination transactions can be cross-referenced with the Termination Reason Codes on the [Human Resources > Tables > Job / Contract > Termination Reason](#) tab. Be sure to consider LEA-required data and statistics when creating the action reason codes.
