## Mass update extra duties

Use the Mass Update utility to update employee data in preparation for the new school year. This utility allows you to quickly and easily mass change data resulting in minimal manual changes to individual employee records with less possibility of manual entry errors.

Mass update the remaining payments on all extra duties for applicable employees.

**It is recommended** to update the number of remaining payments for extra duties to ensure they are fully budgeted for.

**CAUTION:** To avoid entering data in an incorrect pay frequency, be mindful of the pay frequency to which you are logged on as you may be changing back and forth between the current year and next year's pay frequencies for several months.

This utility is used to update extra duty assignments for a number of employees at a single time. Extra duty data may be updated by a variety of criteria including pay type, pay grade, primary campus, and pay frequency. The Extra Duty tab allows users to add, change, and delete extra duty codes as well as alter the existing dollar amounts associated with the extra duty assignments. Once extra duty assignments are changed or deleted using this page, modifications are reflected in the individual extra duty records.

The screenshot shows the 'Mass Update' utility interface. At the top, there's a navigation bar with 'Utilities > Mass Update' and 'Payroll'. There is a 'Reset' button. Below the parameters, there are tabs for 'DEDUCTIONS', 'LEAVE', 'EMPLOYEE', 'EXTRA DUTY', 'JOB CODE', and 'SALARY CALCULATION'. The 'EXTRA DUTY' tab is active. Under this tab, there are three radio buttons under 'Method': 'Change Extra Duty Code to Another Code', 'Change Existing Extra Duty Code Information' (which is selected), 'Delete Extra Duty Code from Employees', and 'Add Extra Duty Code to Employees'.
