Human Resources > Utilities > Mass Update

Use the Mass Update utility to update employee data in preparation for the new school year. This utility allows you to quickly and easily mass change data resulting in minimal manual changes to individual employee records with less possibility manual entry errors.

IMPORTANT: To avoid entering data in an incorrect pay frequency, be mindful of the payroll frequency to which you are logged on as you may be changing back and forth between the current year and next year pay frequencies for several months.

Deductions tab

The Leave tab is disabled as leave is only updated in the current year.

The screenshot shows the 'Mass Update' utility interface. At the top, it displays 'Utilities > Mass Update' and a session timer of '26 min and 12 sec'. The 'Parameters' section includes fields for 'Pay Status' (Active, Inactive, Both), 'Primary Campus' (All), 'Payoff Date', 'Pay Campus' (All), 'Frequency' (F Monthly NYR), 'Contract Begin Date', 'Contract End Date', 'Contract Months', 'Salary Concept' (All), 'Extract ID' (187 187 day teachers), and 'Employee Nbr'. A 'Reset' button is located in the top right.

Below the parameters are tabs for 'Deductions', 'Leave', 'Employee', 'Extra Duty', 'Job Code', and 'Salary Calculation'. The 'Employee' tab is active, showing a 'Reset' section with various checkboxes and dropdowns, an 'Increment' section with 'Pay Step' and 'Limit' options, and a 'Modify' section with 'From' and 'To' columns for dates and codes. A table at the bottom lists various payment types and their counts.

Red circles in the image highlight the 'Pay Type' dropdown (set to '1 Contracted employee'), the 'Extract ID' dropdown (set to '187 187 day teachers'), and the 'Employment Type' dropdown (set to 'F Half-Tim').

- The first run is to update the contract dates, but not increment any pay steps. Complete only the fields under **Modify**.
 - Under **Modify**, complete the applicable fields.
 - The **Area Code** and **Zip Code** is updated in both the current year and next year.
 - In the **Prior Year Employment Date** field, type today's date in the MMDDYYYY format and select the pay frequency. This changes the contract dates for all employees, regardless of the date they came to work for the district.

Note: The **Prior Year Employment Date** field uses the date in the **Latest Re-Employ Date** field on the [Human Resources > Maintenance > Staff Job/Pay Data > Employment Info](#). If this date is blank or contains zeros, it uses the date in the **Original Emp. Date** field. If no date exists in either field, the employee is not updated.

- The second run is for pay purposes to update all employees with one year of earned experience.
 - In the **Prior Year Employment Date** field, enter a date in January (i.e., 01-XX-XXXX) that represents the maximum number of days required for the employee to have earned

a pay step advance (e.g., 90 days).

- This run does not include any employees hired after that date because they should not receive a step advance for pay purposes, but consult your LEA's policy.
- Under **Increment**, complete only the **Pay Step** and **State Step** fields.

Caution: Do not update any experience fields at this time. Experience should not be updated until after the service records have been extracted and saved. Once the service records are complete, you can update records in either the current year or the next year. It is important not to forget this step as it must be completed prior to PEIMS reporting in October.

Use the Extra Duty tab to change employee extra duty assignments that display on the Pay Info tab.

Run the [Human Resources > Reports > HR Reports > Payroll Information Reports > HRS6550 - Employee Extra Duty Report](#) by code before performing the extra duty mass updates. Once you update your changes, run the HRS6550 report in the NYR frequency to verify that the changes are correct.

Extra Duty tab

Use the Job Code tab to change employee job assignments that display on the Job Info tab. This change modifies the Job Info tab and the Distribution tab.

Note: If accruals are associated with job codes, make changes with caution and verify.
