If the next year payroll process was used last year and those records were not cleared, use the following steps to clear the records.

- **Do not** select the **Clear EOY Accrual Data Only** and **Clear NY Payroll Budget Only** fields. The EOY accrual data and next year payroll budget data is cleared whether or not these fields are selected.
- Move all of the tables from the left side to the right side of the page.
- Click **Execute**. All existing employees are deleted from the next year payroll files and a clean work file exists allowing you to begin building next year data.

**Note:** All tables are cleared across all pay frequencies.

This process can be verified by logging on to the next year payroll frequency and running the [Human Resources > Reports > HR Reports > Personnel Reports > HRS1000 - Roster of Personnel Report](#) for active and inactive employees. The report results should be blank.
