Interface to Budget

[Payroll](#) > [Next Year](#) > [Interface NY Payroll to NY Budget](#) > [Interface to Budget](#)

The screenshot shows a web application interface with a green header bar containing a home icon, the breadcrumb 'Next Year > Interface NY Payroll to NY Budget', and a dropdown menu labeled 'Payroll' with a grid icon. Below the header is a light gray navigation bar with three tabs: 'EXTRACT PAYROLL ACCOUNT CODES', 'EXTRACT REPORTS', and 'INTERFACE TO BUDGET' (which is underlined). The main content area is white and contains a 'Next Year Payroll' section with two radio buttons: 'Next Yr Recommend' (selected) and 'Next Yr Approved'. To the right of these are two checkboxes: 'Round account totals to the nearest dollar' (checked) and 'Use Budget Crosswalk tables' (unchecked). A green 'Interface' button is positioned to the right of the checkboxes.

If all of the information is correct:

Under **Next Year Payroll**, select one of the following columns to be updated in Budget:

- **Next Yr Recommend**
- **Next Yr Approved**

Click **Interface**. This process can be repeated as often as necessary until the Board approves the budget. For each run, the **Next Year Budget** amount is replaced. If the budget lock flag is set on an account, the budget amount is not replaced.

If distributions or employees are changed after the first calculations are interfaced, you may be required to log back on to the current pay frequency and use the [Payroll > Next Year > Copy CYR Tables to NYR > Clear Next Year Tables](#) tab with the **Clear NY Payroll Budget Only** option selected to recalculate and interface the new changes back to the next year frequency.

Contact your regional ESC consultant if you need additional assistance.
