It is recommended that you build the calendar with the greatest number of days worked first, and then use the Copy School Calendar tab to build other calendars by making modifications to the original.

- For TRS purposes, a TR calendar with a calendar code of **TR** must be created for all available workdays beginning 09/01. (**TIP:** If 9/01 falls on a weekend day, select the first working day of the month.) The TR calendar is used to populate the number of days worked on the RP report for employees who are not assigned to a school calendar
- For TRS purposes, all TRS retirees' contract days must begin on the first day of the month and end on the last day of the month.

Create accrual calendars to accommodate the varied number of days employees work at the LEA. The calendar is used on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab to calculate the **Accrual Rate** when the calendar code is entered in the **Accrual Info** section.

☐ Verify that the calendar code reflects the actual number of days the employee will work for the new school year; otherwise, the salary amount that should accrue over the school year will be incorrect.

- You can use the school calendar created in the previous step to get the actual workdays by month.
- If you have not set up a budget for the 2021-2022 school year, you can only enter pay dates through the 2021 calendar year. If the Budget is set up for the 2021-2022 school year, you can enter 2022 pay dates in these fields.

Note: This table can be updated after the move to current. All pay dates should be entered even if zero days are accrued (e.g., summer months).
